CES Student Spotlight - November, 2023

River Mueller

I chose River as the responsibility golden paw recipient because he has shown responsibility in everything he does in our classroom. He is always on task, and takes great pride in the work he does. He has been responsible with his homework, consistently working hard on his spelling words and reading logs. He takes care of the items in our classroom and remembers to clean up after an art or science project. If he sees someone off task he kindly reminds them of our expectations. Overall he is a great leader for others on how to be a responsible student.
