Student Loading

Students are only allowed to cross in front of the school bus, ten feet from the bumper.

Students do not cross the street until the driver nods their head to indicate it is safe to cross street!

Approaching Student Stops
1. Check all mirrors
2. Activate amber student warning lights
3. Check all mirrors again
4. Now activate red student warning lights

Stop
1. Place bus in neutral with foot on the brake
2. Set the parking brake
3. Open door

Student Discharge
1. Tell students to exit the bus and walk **10 feet** away from the side of the bus.
2. Check all mirrors before allowing students off the school bus
3. Open door
4. You are to count the students while they are exciting the bus.
5. Tell student to walk **10 feet** from the front of the bus.

Student Crossing
1. Traffic Check
2. Students are waiting for you to signal before crossing "Give Signal"
3. After students cross, recount students to make sure all are accounted for.

Completion
1. Close the door and cancel signals
2. Before resuming route; check all mirrors; check traffic, continue route.
3. Check left and Right
