Is this CCS addition in the curriculum at all possible to be an elective course? Seems odd to make it mandatory. Will this course interfere with any other courses students may be interested in taking?
This is a state legislative change. These changes are legislation that was voted into effect in 2023 and are required to be implemented. This will eliminate one elective for students. We moved the class to the senior year as they already have 5 electives they can take during their senior year.

What are the changes to the classified handbook that we are suppose to be approving?

What does the hiring process look like? After an application is submitted, can you explain every next step?
After an application is submitted the application is looked at to see if the candidate has experience or qualities that would qualify them for the job. Then people are asked if they would like to be a part of the interview and selection process. The team then interviews the candidates and chooses the person they feel best fits the position.
