District News

The True Cost of Cyber/ Charter Schools- “Free” is anything but “Free”

What is advertised as a “free” public education is actually costing you hundreds of thousands of local tax dollars per year. Did you know that cyber/charter schools cost our district approximately \$800,000 a year, or approximately 3 mils of collected taxes per school year. The Frazier School District receives on average, \$9,811 in state subsidy per student who attends our district. The average tuition cost (paid 100% by Frazier School District) to attend the “free” cyber /charter school is \$14,629 - \$30,606.92 per student depending on the level of educational support needed. For additional information on how our outdated cyber charter school laws are depleting your local tax dollars, please visit the link below to see the actual impact that cyber/charter schools have on our district and your child’s education.
