

**Joshua Simpson**  
**Quarter 1 Student Success Story**  
**North Country Charter Academy**

Josh Simpson came to the NCCA after attending a few years of a public high school which he left after earning just two credits. Josh is an extremely bright and determined fellow, who had been distracted by the constant drama and shenanigans in the public school environment. As soon as he came to the charter, his metamorphosis began! Within the first few months, Josh was able to acquire nine credits through his determination, having quickly found the ability to focus within his new surroundings. At present, he has earned 17 credits and will be on his way to graduating early! Josh is also a very wise and helpful student who has many responsibilities to navigate in his out-of-school life as well. For all his drive and initiative, Josh is the perfect example of an NCCA Student of the Quarter.
