

Statement of Exemption

Under **Louisiana Revised Statute 17:170 Sec. E**, I hereby claim exemption from the state's immunization requirement for philosophical or religious reasons.

I understand that in the event of an outbreak of a vaccine-preventable disease at the location of the facility my child attends, the administrators of this facility, upon the recommendation of the Office of Public Health, may exclude my child from attendance until the incubation period of the disease in question has expired or I present evidence of immunization.
