Demarest Police visit with our Preschool

Our preschool students had a special visit from the Demarest Police Department. The officers read ***I Want To Be a Police Officer*** to the children, and the students then had the chance to see the inside of a real police car. Thank you to the Demarest Police for coming in for this exciting visit!

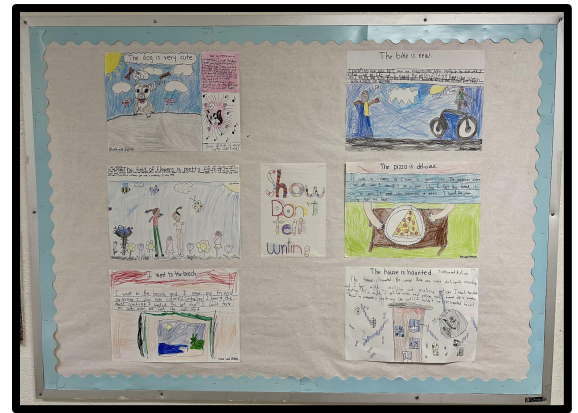

Spotlight on Third Grade

Our third graders have been busy growing as readers, writers, and mathematicians this month! In writing, we finished **How We Know It's Fall** writing and are diving into **personal narratives** to strengthen our writing skills! Students are learning how to grab a reader's attention with **hook lines**, use **vivid verbs**, and bring their stories to life with **show don't tell** strategies, **onomatopoeia**, and more.

In reading, we're focusing on how "**reading is thinking**." Students are practicing important comprehension strategies such as **making predictions**, **visualizing**, and **asking questions**, and we'll soon begin exploring **inferencing** to read between the lines. In math, we've started our exciting **multiplication unit**! We're learning to understand multiplication conceptually and using **different strategies** to solve problems and explain our thinking. We're so proud of the effort and excitement our students are bringing to each subject every day!

Mr. Marc visits County Road School

In October, Mr. Marc from the Closter Nature Center visited our students at CRS for a fun, hands-on learning experience. The children learned about the animals he cares for, the sounds they make, how they move, and whether they are herbivores or carnivores. He also introduced students to the importance of our local ecosystem and how each animal plays a role in it. The highlight for many was getting to see some of the animals up close. Thank you to the PTO for bringing this wonderful educational opportunity to our students!

November 14, 2025

Dear CRS and LLE Families,

On Tuesday, our 4th graders shined during Career Day as they demonstrated their public speaking skills. They impressed parents and family members by explaining how math plays an important role in every career.

This coming week we will celebrate American Education Week. I would very much appreciate it if you could all read the information that is below and the link. One of the best parts of the week is the Technology Free Day on Monday. There will be no homework that night so please utilize the suggestions that are provided to follow along with the spirit of that school day. Additionally, we ask that everyone participate in the food drive which will end on Wednesday. The homeroom in each grade that collects the most food will receive a prize of a Homework Free Night. The food drive is a great way to educate our children about helping those in need.

Below is important information to focus on for this week:

- **American Education Week**-Please click [here](#) for all of the events for the week. There are reminders in the link that will be sent out during the week.
- **Upcoming Events:**

<u>Date/Time</u>	<u>Event</u>
11/17-11/21	American Education Week
11/19-11/20	Book Fair-More information to come from the PTO
11/26	Early Dismissal: • Preschool-12:00 • K-4-12:30
11/27-11/28	No School-Happy Thanksgiving!
December Events-It will be a busy month!	Click here for a preview!

Have a great weekend!

Mr. Frank J. Mazzini
Principal
