

How to Stay Safer with Fentanyl

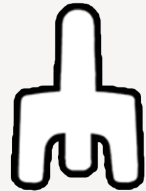

Use Fentanyl Test Strips

Fentanyl test strips are easy to use tests to see if your drugs have been mixed or cut with fentanyl. When you get your result, you can make the decision about what to do next.

Have Naloxone

Overdose happens fast. Make sure you and your friends carry naloxone.

Use With Others

Make sure someone is around. They can give you naloxone if you overdose.

Call 911

If you think it's an overdose, call 911. They have more naloxone. The Good Samaritan Law protects you from arrest for possession of drugs.

We all have a role to play in ending the overdose crisis.
