

Coffeeville

“Excellence- From All- For All”

SCHOOL DISTRICT

September 2025

Important Dates

Dear Parents:

Are you ready for some football? The CSD is excited about our new Head Football Coach (Coach Richardson) and the Coffeeville Pirates Football Team. The Football Pirates have been working extremely hard this summer in preparation to dominate this upcoming football season. The football schedule is filled with several rivalry games, and the football team and cheerleaders will need your full support. The Pirate Nation is encouraged and expected to show up and show out at home and away football games.

State test scores are on the rise! We have come a long way as a school district. But we are still striving to become a school district known for excellence in education. Please encourage your scholar(s) to be respectful and to always follow teacher directions. As a District, we have serious concerns about students bringing vapes and other illegal objects to school. We have installed metal and vape detectors in our schools to detect illegal items such as guns, knives, vapes and other illegal objects. Therefore, please check your scholar(s) bookbag for possession of items that may cause suspension or expulsion from school.

The district's average net enrollment (ANE) is calculated during the months of October and November for next school year. Student absences may be very costly to the Coffeeville School District. Therefore, please schedule doctor and dentist appointments after school hours to prevent loss in district funding from the Mississippi Department of Education.

The 3 Mill Note projects will begin during the month of October in the Coffeeville School District. The district will mainly focus on replacing roofs and replacing heating/cooling units throughout the school district. Please be patient with us as we strive to improve classroom climate conditions. It has been said, “The road to success is always under construction.”

Great academic and athletic accomplishments will be achieved when parents, teachers, coaches, students, and administrators work together for the betterment of all. Continue to give our teachers, coaches, and principals your full support as we together work to propel the Coffeeville School District to newer and greater heights!

Educationally yours,
Dexter Green, Superintendent
