Califon Public School Curriculum

Subject:	Grade:	Unit #: 1	Pacing: 12 weeks
U.S. History	7th & 8th Grade		
Unit Title: Era 3: Revolution & the New Nation (1754-1820s)			

OVERVIEW OF UNIT:

Disputes over political authority and economic issues contributed to a movement for independence in the colonies. The fundamental principles of the United States Constitution serve as the foundation of the United States government today.

Unit References

individual and include civil, political, social, economic, and	human rights?(AS) (HC)	
cultural rights.		

- Social and political systems have protected and denied human rights (to varying degrees) throughout time.
- Geospatial technologies and representations help us to make sense of the distribution of people, places and environments, and spatial patterns across Earth's surface.
- Economic decision-making involves setting goals, weighing costs and benefits, and identifying the resources available to achieve those goals.
- Chronological sequencing helps us understand the interrelationship of historical events.
- Historical events and developments are shaped by social, political, cultural, technological, and economic factors.
- Political, economic, intellectual, social, and cultural circumstances and ideas both change and stay the same over time.
- Historical contexts and events shaped and continue to shape people's perspectives.
- Examining historical sources may answer questions but may also lead to more questions.
- Historians consider the relevance and validity of sources to understand the perspectives of those involved when evaluating historical arguments.

- How do geospatial technologies and representation help to make sense of the distribution of people, places, and environment and spatial patterns across Earth's surface?
- How does economic decision-making involve setting goals and identifying resources?
- What are the historical events and developments that shaped the social, political, cultural, technological, and economic factors?
- What are the political, economic, and intellectual cultural circumstances and ideas that both changed and remained the same?

Objectives

- Students will be able to describe how do political and civil institutions impact people's lives
- Students will be able to identify some government structures that have impacted the development and civic expansion
- Students will be able to explain some obligations of members of society
- Students will be able to infer how the United States system of government is designed to realize the ideals of liberty, democracy, limited government, and equality under the law
- Students will be able to classify the fundamental rights of each individual included in civil, political, social, economic, and cultural rights
- Students will be able to describe how social and political systems have protected and denied human rights
- Students will be able to explain how geospatial technologies and representation help to make sense of the distribution of people, places, and environment and spatial patterns across Earth's surface

- Students will be able to identify how economic decision-making involves setting goals and identifying resources
- Students will be able to infer how the historical events and developments that shaped the social, political, cultural, technological, and economic factors

• Students will be able to compare how the political, economic, and intellectual cultural circumstances and ideas that changed and remained the same

	activities for use in a career.	

	Careers
Activities:	
• Students will work in	groups to research events leading up to the Boston Tea Party and then create a flyer encouraging colonists to participate
using the Google Apps	s for Education programs.
CRP#	Practice
CRP4	Communicate clearly and effectively and with reason.
CRP7	Employ valid and reliable research strategies.

Standards	
Standard #	Standard Description
6.1.8.CivicsP	Cite evidence to evaluate the extent to which the leadership and decisions of early administrations of the national government met the
I.3.a	goals established in the Constitution.
6.1.8.CivicsP	Evaluate the effectiveness of the fundamental principles of the Constitution (i.e., consent of the governed, rule of law, federalism,
I.3.b	limited government, separation of powers, checks and balances, and individual rights) in establishing a federal government that
	allows for growth and change over time.
6.1.8.CivicsP	Distinguish the powers and responsibilities of citizens, political parties, interest groups, and the media in a variety of governmental
I.3.c	and nongovernmental contexts.
6.1.8.CivicsP	Use data and other evidence to determine the extent to which demographics influenced the debate on representation in Congress and
I.3.d	federalism by examining the New Jersey and Virginia plans.
6.1.8.CivicsP	Cite evidence to determine the role that compromise played in the creation and adoption of the Constitution and Bill of Rights.
D.3.a	

6.1.8.CivicsD	Use primary and secondary sources to assess whether or not the ideals found in the Declaration of Independence were fulfilled for
P.3.a	women, African Americans, and Native Americans during this time period.
6.1.8.CivicsH	Explain how and why constitutional civil liberties were impacted by acts of government during the Early Republic (i.e., Alien and
R.3.a	Sedition Acts).
6.1.8.CivicsH	Evaluate the impact of the institution of slavery on the political and economic expansion of the United States.
R.3.b	
6.1.8.CivicsH	Construct an argument to explain how the expansion of slavery violated human rights and contradicted American ideals.
R.3.c	
6.1.8.GeoSV.	Use maps and other geographic tools to construct an argument on the impact of geography on the developments and outcomes of the
3.a	American Revolution including New Jersey's pivotal role.
6.1.8.EconET	Identify the effect of inflation and debt on the American people and evaluate the policies of state and national governments during
.3.a	this time.
6.1.8.History	Explain how the consequences of the Seven Years War, changes in British policies toward American colonies, and responses by
CC.3.a	various groups and individuals in the North American colonies led to the American Revolution.
6.1.8.History	Explain how political parties were formed and continue to be shaped by differing perspectives regarding the role and power of
CC.3.b	federal government.
6.1.8.History	Use geographic tools and resources to investigate how conflicts and alliances among European countries and Native American
CC.3.c	groups impacted the expansion of American territory.
6.1.8.History	Compare and contrast the Articles of Confederation and the United States Constitution in terms of the decision-making powers of
CC.3.d	national government.
6.1.8.History	Use primary sources as evidence to explain why the Declaration of Independence was written and how its key principles evolved to
UP.3.a	become unifying ideas of American democracy.
6.1.8.History	Examine the roles and perspectives of various socioeconomic groups (e.g., rural farmers, urban craftsmen, northern merchants, and
UP.3.b	southern planters), African Americans, Native Americans, and women during the American Revolution, and determine how these
	groups were impacted by the war.
6.1.8.History	Analyze how the terms of the Treaty of Paris affected United States relations with Native Americans and with European powers that
UP.3.c	had territories in North America from multiple perspectives.
6.1.8.History	Analyze how the leadership of George Washington during the American Revolution and as president allowed for the establishment of
SE.3.a	American democracy.
6.1.8.History	Analyze a variety of sources to make evidence-based inferences about how prominent individuals and other nations contributed to the
SE.3.b	causes, execution, and outcomes of the American Revolution.

Subject:	Grade:	Unit #: 2	Pacing: 12 weeks
U.S. History	7th & 8th Grade		
Unit Title: Era 4: Expansion and Reform (1801–1861)			

OVERVIEW OF UNIT:

Disputes over political authority and economic issues contributed to a movement for independence in the colonies. The fundamental principles of the United States Constitution serve as the foundation of the United States government today. Westward movement, industrial growth, increased immigration, the expansion of slavery, and the development of transportation systems increased regional tensions.

Unit References		
Big Ideas	Essential Questions	
 The United States system of government is designed to realize the ideals of liberty, democracy, limited government, equality under the law and of opportunity, justice, and property rights. Fundamental rights are derived from the inherent worth of each individual and include civil, political, social, economic, and cultural rights. Geospatial technologies and representations help us to make sense of the distribution of people, places and environments, and spatial patterns across Earth's surface. Economic decision-making involves setting goals and identifying the resources available to achieve those goals. 	 How is the US system of government designed to realize the idea of liberty, democracy, limited government, and equality under the law? What are some fundamental rights derived from the inherent worth of each individual and included in civil, political, social, economic, and cultural rights?(AS) HC) What are some geospatial technologies and representations used to help make sense of the distribution of people, places, and environments? How do economic decision-making and identifying resources help achieve goals? What are the changes in the amounts and qualities of human capital, physical capital, and national capital? 	

- A national economy includes studying the changes in the amounts and qualities of human capital, physical capital, and natural resources.
- Historical events and developments are shaped by social, political, cultural, technological, and economic factors.

• What are some historical events and developments that shaped social, political, cultural, technological, and economic factors?

Objectives

- Students will be able to describe how the US system of government designed to realize the idea of liberty, democracy, limited government, and equality under the law
- Students will be able to identify some fundamental rights derived from the inherent worth of each individual and included in civil, political, social, economic, and cultural rights
- Students will be able to compare some geospatial technologies and representations used to help make sense of the distribution of people, places, and environments
- Students will be able to classify how economic decision-making and identifying resources help achieve goals
- Students will be able to describe the changes in the amounts and qualities of human capital, physical capital, and national capital
- Students will be able to identify some historical events and developments that shaped social, political, cultural, technological, and economic factors
