

Happy Valley Modernization & Construction

ORIGINAL APPLICATION

State School
Facilities Program

Approved 2014

Hardship Funds

3 phases under one
funding project:
#1 student restrooms
#2 admin/faculty wing
#3 portables

History

7/30/2021
In line for 3 applications

8/2021
Applied for 12 month extension of restroom portable. Initially approved

June, 2023
Hired Cumming group as project managers

June, 2023
Notified that the Restroom portable approval had been retracted due to extensions running out.

Because there was not approval, the bathrooms cannot be started until the rest of the projects are completed.

Projected Costs

\$1,867,044

Things have changed dramatically since the original approvals, and the state anticipated grants have not kept up with costs. We do not anticipate having enough money to cover all 3 phases.

Decision

Happy Valley has decided to eliminate Room 6 as part of the current project.

Timeline

- Project Closeouts (Fall 2023-present)
- Bids for Administrative/Teacher Offices (Fall 2023)
- Bids for Portable Phase (April 2024)
- Demolition begins (May 29, 2024)
- Rebuild Administrative/Teacher Project (Summer 2024)
- Replace Portable (Winter 2024)
- Student Porta Potties (August 2024)
- Completion of Administrative Project (August 2024)
- Student Restrooms to follow

Plans for New Portable

How will this affect the school and students?

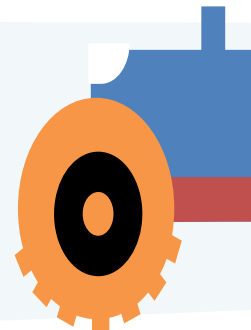

Happy Valley plans to start the new school year with a new office and teacher workroom!

There may be some extra dust and noise, but we will do everything to keep these things to a minimum!

Over the summer, we ask that unattended children are not on campus during the workday as there will be construction going on

We will have Porta Potties. Don't worry! They will be cleaned NIGHTLY and pumped regularly. There will be a potty chair and step for our youngest learners.

We look forward to another fantastic year at Happy Valley Elementary!
