

Please read the following changes to the posted syllabus and be advised on the grading procedures for my class, as mentioned below.

- The syllabus states that we will be using a 5% category for executive skill (participation-based) assignments. This will not be an option as we will be using the TWO categories that were determined by Central Office and pre-programmed in PowerSchools. The categories will be 65% for major grades and 35% for minor grades. Again, there will no longer be a 5% subset of the 35%.
- I also wanted to make sure students are aware that the placeholder for missing assignments, including makeup assignments, will be a zero until the assignment is turned in, scored, and re-entered into PowerSchools. This will allow students to see the impact of not turning in their assignments.
