

MONROE SCHOOL

Here's what has happened in the last month and what's to come!

Transfr VR is now at Mornoe School! Transfr is building classroom to career pathways for students who will be the future of every industry via immersive technologies in: automotive, aviation, construction, diesel, electrical construction, manufacturing, and health sciences.

I would like to take a moment to thank our exceptional classified staff members: Michelle Tummonds, our school registrar, and Aundrea Majewski, our college program coordinator/para-professional. Without the dedication of these two women, our school just wouldn't be the same!

Mrs. Fulton
