Classroom/Driving

. A parent/guardian must be present at registration to sign paperwork. Learners Permit must be presented.

First come first serve. Spots are limited.

*Classroom instruction will be online, beginning **May 31st.**

*Driving instruction will follow, after classroom instruction is completed.

Scheduled driving times/days will be determined at a later date)

*Students must be 15 years or older by the start of the class and be in high school, grades 9-11 during the **2022-2023** school year. We will not accept graduates.

*Students may be from Public, Private, Parochial, or Home Schools.

*Students **must** have a valid Alabama learner's license in order to register for class.

*Students may wear appropriate, casual attire on driving days.

*Students may also be able to receive their driver's license through driver's education.

*Your child can also receive a certificate for their boating license.

*The summer driver ed course is intended for students who have plenty of experience behind the wheel. Students who sign up should be ready to take the driving road test. This course is not for beginner drivers.

*Driving times will be as follows:
7:45-8:45, 9:00-10:00, and 10:15-11:15. No driving groups will be scheduled later than that.

Driver's Education

Your child will receive 1/2 school credit if they complete the course. Driver Education develops understanding of and adaptation to traffic in terms of knowledge, attitudes, and skills. The course includes a study of traffic safety for pedestrians and drivers, as they are involved in physical and man-made laws, enforcement agencies and policies, traffic psychology, automobile purchasing, insurance, budgeting, consumer mechanics, and traffic engineering.

Driver Education develops a sense of civic responsibility and an attitude of personal mechanics, and traffic performance. Classroom instruction is for a period of at least 30 hours.

Behind the wheel experience in a dual controlled automobile is provided during the course. Driver Education develops knowledge, habits, and skills related to learning to stop and start, to shift, to steer, to make right and left turns, to drive in traffic, to complete turnabouts, and to park.

Development of attitudes basic to accepting civic responsibility in traffic and to the safe operation of the automobile are stressed. For those students who do not receive simulation training, behind the wheel training will consist of the dual-controlled automobile use for three to six hours of driving. For students who receive simulation training, behind the wheel training will consist of one to three hours.

This course provides both classroom and actual driving experiences. A maximum of six hours of behind the wheel driving time is provided. Two days are spent on boating safety instruction.
