## FRESHMAN ORIENTATION

Freshman Orientation (9th Grade Students Only) will be August 2. Parents need to drop students off at CHS at 9:00 am and pick them up at 12:00 noon.

## GRADUATION

To be eligible for participation in graduation ceremonies, students must have completed all requirements for a diploma and all state assessment requirements.

### 11TH GRADE MCV4 REQUIREMENTS:

Cook County Health Department wants to remind all Cook County parents and students that before starting the 2022-2023 school year, all students entering or transferring into 11th grade will need proof of a meningococcal booster shot (MCV4), unless their first dose was received on or after their 16th birthday. Meningococcal disease is a serious bacterial illness that affects the brain and the spinal cord. It is spread through saliva and can be contracted by sharing food, drinks or makeup, kissing, sneezing and coughing. Meningitis can cause shock, coma and death within hours of the first symptoms. MCV4 or meningococcal conjugate vaccine, is a two-dose booster shot. It helps protect against four types of the bacteria that cause meningococcal disease (serogroups A, C, W and Y). While most people who get the vaccine do not have any serious side effects it is always a possibility. The most common side effects include redness or pain where the shot was given and occasionally a fever. These side effects typically go away within 1-2 days. A full immunization guide is available on the [Georgia Department of Health](https://www.ga.gov/health) website.

Ask your pediatrician or local health department about other shots your child may need including an annual flu vaccine; and catch-up immunizations, including chickenpox, MMR (measles, mumps, rubella) and hepatitis B. Parents can visit the health department or their child's physician to receive a full list of their required vaccines. If your child does not have health insurance or their health plan won't cover these vaccines, call your local health department and ask about getting no cost or low cost vaccines.
