Coffeeville SCHOOL DISTRICT

"Excellence- From All- For All"

Superintendent's Newsletter

November 2026

Dear Parents:

Congratulations to Coffeeville Elementary for earning a "B" rating from the Mississippi Department of Education for a historic fifth consecutive year! We are also proud of **Coffeeville High School for earning a "C" accreditation rating and the Coffeeville School District earned a "C" district accreditation rating** from the more rigorous State testing model. We are proud of the faculty, staff, students, parents, principals, district administrators, and the Board of Trustees for their efforts to achieve this noteworthy academic accomplishment.

It's with utmost importance that you continue to monitor the completion of your child's homework and promote the reading of Accelerated Reader books and the use of Study Island and other educational technologies at home. With these combined efforts in teaching, along with the students' efforts to learn, will create the equation for success. I want to express my sincere thanks to our students, principals, directors, teachers, partners in education, and volunteers who work each day to help improve student achievement in the Coffeeville School District. I also want to thank our parents for the loyal support that you give to our teachers and principals.

October and November are the primary months used to calculate student attendance for funding purposes, so please make sure that your child(ren) are at school daily. Also, our funding is based on the average net enrollment (ANE) of our students. When students are absent, it can cause the district to lose funding. Therefore, please schedule all doctor, dentist, and other appointments after school hours when possible. More importantly, we do not want students to come to school if they are obviously sick or running a temperature.

Educationally yours,

Dexter Green

Dexter Green, Superintendent of Education
