

Lessons from student teaching >>>>>>>>>>

Jamie George<<<<<<<<<<<

"I am co-teaching in first grade with Miss Windels for the months of September and October and then plan to move into Kendra Geiser's pre-kindergarten room for the month of November."

"I am a Perham High School 2008 Graduate. I will graduate from SMSU December 2022 with an Early Childhood Education degree."

"The best part of student teaching is getting to know different school districts and staff and I have enjoyed the smaller school districts I have been able to be a part of."

"The most difficult part is learning new curriculum and material in a short time frame and has been different in every district I have student taught in."

"I think everything you observe while in the classroom will be helpful in the future and I think more classroom experience over book work would be beneficial for all future educators."

"I have wanted to become a teacher since I was little, but the reason I decided to pursue a teaching degree in Early Childhood is because I wanted to be a part of helping all students succeed and feel accepted."

"My hope after graduation is to get into a district close to the area for Kindergarten or 1st grade!"
