

NY MILLS ELEMENTARY

— STUDENT INTERNET, COMPUTER
& EQUIPMENT AGREEMENT

My child and I have read and discussed the NYM School District Internet Use Policy and agree to comply with the terms. We understand that if a student willfully violates the terms of that policy or the directives of a teacher or administrator, he or she may be subject to discipline. This discipline could include detentions, suspensions, and (in major concerns) expulsion, as well as civil or criminal penalties that may be imposed by the law. Access to the School District's information resources may be revoked at any time.

We understand that modern information technologies offer a wealth of resources for learning, but like any tool, they may be misused. We understand that parents/guardians can request alternate activities not requiring internet access. We agree that the benefits of access outweigh the potential risk and that the responsibility for appropriateness falls on the individual user. We agree to hold the School District harmless for any misuse of its computer systems or any information that may be accessed through the School District's information technology resources.

We understand that in order to administer its information technology resources, the School District can and will monitor use of these resources without notice to users.
