Overview

Purpose of Renewal authorization

The North Central Ohio ESC (NCOESC) is committed to a rigorous, meaningful, and transparent renewal process intended to review the accomplishments of each school throughout the term of its expiring community school contract. NCOESC's intent is to ensure decisions are made in accordance with the Principals and Standards for Quality Authorizing established by the National Association of Charter School Authorizers. Renewal recommendations will be based on the School's High Stakes Review which includes: student academic achievement & performance over multiple years and multiple measures; financial viability, including thorough review of financial audits; organizational/operational viability; which comprises the performance framework found in the Sponsorship Contract. Other documents such as site-visit reports and/or other compliance reports; and, if applicable, corrective action plans or other interventions will be used in the reviewed in the renewal process.

Key Criteria

The Renewal Process seeks to evaluate the school's progress, during the term of the community school contract, toward achieving the four core expectations:

1. The educational program is a success.
2. The organization is effective, well managed, well governed, and financially secure.
3. The school is meeting agreed upon conditions for success outlined in the Community School Contract, including goals and measures specified in the Performance and Accountability Framework.
4. The school has the capacity to implement strategic plans for future success.

Each of the core expectations will be evaluated using four sources of outcome data:

- A. A High Stakes Review, which shall entail a rigorous evaluation of the school's academic, financial, and organizational/operational performance against the Performance and Accountability Framework included in the Community School Contract.
- B. Site-visit reports.
- C. School provided narrative responses.
- D. An informal interview between the Sponsor and the school.

NCOESC's Renewal Application Review Team reviews and evaluates every school's renewal application on an individualized basis. The Review Team is comprised of individuals who have sufficient expertise and sponsoring experience to make informed application decisions. You will be advised of the planned review team prior to the application review period. Each reviewer is trained during the application review year on reviewer protocols and completion of this rubric in order to calibrate scoring. Each reviewer will individually complete a rubric to score the

application, and all scored rubrics will be combined to determine the average item and overall score. The High Stakes Review comprises 67% of the total renewal application score. The answers and documentation provided in the Narrative Responses are also scored and are worth 20% of the total renewal application score, and the interview questions comprises 13% of the total renewal application.

Together the High Stakes Review, Narrative Responses, and Interview Questions will provide the basis for the decision-making on the renewal process.
