

2023 Summer Math Almost 5th Grade

Please practice the skills below on IXL. Be sure that you are working in the FOURTH-GRADE level because the summer practice is a review of what you covered this past year. You will need to master each skill with a smart score of 85% or above. Please fill in your smart score as you progress through the skills and bring this sheet with you on the first day of school next year. Your smart scores will be averaged as a grade for the 2023-2024 academic year!

Helpful Tips:

- If you get a question wrong, read the explanation so that you don't make the same mistake next time.
- Use pencil and paper to work out the problems.
- Stretch out the work over the course of the summer. Leaving it all to the last minute will be stressful!

Category	Code	Skill Name	Smart Score
Multiplication	F	3-Multiplication Facts to 12	
Multiply By Two-Digit Numbers	I	10-Multiply a 2-Digit Number by a 2-Digit Number	
Division	J	3-Division Facts to 12
