The Starblazer Chronicle

“Blazing a Path to the Stars!”

Starline PACE Club Trophy Winners Patriotic Americans for Constitutional Education

1st Place: Olivia Braniger

Olivia was chosen for her kindness toward other students and her willingness to go above and beyond to do what was needed to make the club and the performance the best it could be. Olivia attended every club meeting, stayed behind to help clean up, and took on a large part of the performance.

2nd Place: Zander Rodriguez

Zander was one of the first students to sign up for the PACE Club and one of the most enthusiastic about the topic of the constitution. He was another one of the members that memorized his part for the performance very quickly and did not miss any meetings.

3rd Place: Jemma Sanchez

Jemma was chosen because of her consistently, positive attitude. She always seemed happy to be a part of the club and the performance. She was one of the first people to memorize her solo rap. She also consistently showed up on time to each meeting.

With warmer weather approaching, we will soon be seeing signs of scorpion weed blooming. Please be aware of this plant. It has dark green leaves with a dark purple bloom. The name scorpion weed comes from the small hair-like projections on the stalk. Watch for a local itchy rash similar to poison oak or ivy, usually on hands, legs, and feet. The rash from scorpion weed can last from a few days to over a week, and does not have a specific treatment. Calamine lotion and Benadryl are common to use for this rash. Aloe Vera lotion can lessen the pain and itchiness as well as help the healing process. Isolating the rash and frequently washing hands is a great way to prevent spreading the rash over more parts of the body.

Camp Invention is Coming Back to Starline!

Camp Invention will run from June 6 – June 10 from 9:00 a.m. – 3:30 p.m. with an extended day offered until 5:30 p.m. for an additional \$80. The all-new 2022 Explore Program will thrill both new and returning campers with an expedition full of far-reaching explorations, fascinating discoveries and exhilarating “a-ha” moments!

Early registration discounts available! Register using SUM15 by May 18 to save \$15 off the registration fee.

During this dynamic, high-energy program, young innovators will:

- Dive into cutting-edge ocean research as they adopt their own robotic fish, design and patent aquatic plants, and take their fish friend home in a mini tank.
- Discover real space exploration technology when they create Spacepacks and AstroArm devices, mine an asteroid and observe erupting ice volcanoes.
- Combine science and art to build their own robotic artist, engage in design thinking, make spin art and learn how inventions can change the way people create.
- Experiment with the fun of physics, engineering and gaming as they design, build and test their own mega marble arcades.

Availability is limited, so visit invent.org/mylocalcamp or call 800-968-4332 to secure your child's spot today! If you have any questions, please email Courtney Zampogna at czampogna@lhusd.org
