This test contains many built-in supports that allow students to take the test using materials they are most familiar with and communicate what they know and can do as independently as possible. The MSAA will be administered in the areas of ELA and Mathematics in grades 3-8 and 11.

Use of Data: The results are provided to teachers and school administrators to help them address the instructional needs of their students. They may be used as one measure of student achievement during the current school year.

Tentative Dates: TBD (Typically March-April)

Testing Times: Untimed. Test administrators may pause testing to take a break at any time. They have the entire window to complete testing.
