

# LIBRARY 101

Miss Adams can't wait to see your classes in the library! In the library, not only do we read, but we extend our reading experiences by collaborating with each other, communicating with each other, developing our problem-solving skills, and creating content. We are working HARD to develop a positive culture of reading in our school so that our students will be lifelong readers.

Your classes will meet in the library according to the Library Media Class Schedule. Miss Adams will meet with our K-5 classes and our 6-8 Social Studies classes.

When your class is NOT scheduled for library class, you will send students to the library during open circulation. You will send one or two students at a time to the library EACH day during open circulation. It is **IMPERATIVE** that our students visit the library during open circulation. Develop a routine for how you will make sure your students are visiting the library each week. The library can be a must do task during your students' independent block of instruction.

During open circulation, students can participate in the following activities:

- Quiet Reading
- Taking AR tests
- Checking Out Books/Checking In Books
- Browsing Our Library Collection
- Research
- Makerspace Activities of Their Own Choosing
