BRIMFIELD GRADE SCHOOL MISSION STATEMENT

We at Brimfield Grade School believe that our students are educated in a safe, secure environment. Students are provided educational experiences that enable them to become responsible, respectful citizens and lifelong learners in a global society. Professional development opportunities promote new and innovative ideas. Parents, staff, administration, and the community working together collaboratively, will foster quality educational opportunities and academic growth in students.

Welcome to ...

BRIMFIELD GRADE SCHOOL: Home of the INDIANS

This handbook is presented to you with hopes for success from the administration, faculty, staff, and the Brimfield Board of Education. We hope the information presented will help you in your academic work and in choosing activities at BGS.

BGS will be your home for the next school year. You are an integral part of it! Make effective use of its facilities and your own abilities. Gain great satisfaction from doing things well, whether that is in the classroom, or in co-curricular activities.

The BGS staff strives to play a positive role in your educational development. It is now your responsibility to do all you can to use these experiences to help mold you for your future life. Have a successful and rewarding year.

PROTECTION OF THE RIGHT TO LEARN

Every student has the right to learn all that the curriculum and the faculty can provide.

Your teachers are here to provide learning opportunities for you. In order to gain from your experiences at BGS, you will be expected to be on time to school and class. You will need to be prepared for school each day. Bring all necessary materials to school and class with you every day. Your first priority is to be an active learner and participant.

Every child has the right to learn in an environment free of unnecessary distractions.

Classroom conduct should be such that it does not distract attention of classmates from the lesson nor disrupt the teacher conducting the class. Hallway and break time conduct should be orderly. Students need to recognize that they must learn to be respectful and considerate of themselves and others.

Every member of the faculty has the right and the obligation to maintain a learning environment which is conducive to the educational process and free from emotional strain. Students belong in class. However, no student has the right to interfere with the education of another student or disrupt the environment in such a way as to diminish the opportunities of students and teachers to do their best work. When students are disrupting the educational process or not being active listeners or learners, they will suffer the consequences of their actions according to the teacher's classroom rules or the discipline procedures of the school. Teachers and/or administrators will make every attempt to contact the parents of students who choose to be distractions to the learning environment. It is our goal to discuss the problem and work together in order to see that the problem is not repeated. Continual disruptions may have severe consequences on the academic advancement of the student.

The purpose of this handbook is to make students and parents aware of district rules, regulations, and general information concerning our school. This handbook is only a summary; the District is governed by Board Policies which are available to the public at the administrative office and on our website brimfield309.com. Since this handbook cannot address every situation or contingency, the administration and school staff will address each instance as it occurs. Please consult with the school's principal if you have any questions about any part of this handbook. For reasons of practicality and brevity, not every rule or item of parent or student interest has been included.

RESIDENCE

Only students who are residents of the District may attend a District school without tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than receiving an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. In addition, the child's natural or adoptive parent, if available, shall complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Requests for Non-resident Student Admission

Non-resident students may attend District schools upon the approval of a request submitted by the student's parent(s)/guardian(s) for non-resident admission. The Superintendent may approve the request subject to the following:

1. The student will attend on a year-to-year basis. Approval for any one year is not authorization to attend a following year.
2. The student will be accepted only if there is sufficient room.
3. The student's parent(s)/guardian(s) will be charged the maximum amount of tuition as allowed by State law.
4. The student's parent(s)/guardian(s) will be responsible for transportation to and from school.

Admission of Non-Resident Students Pursuant to an Agreement or Order

Non-resident students may attend District schools tuition free pursuant to:

1. A written agreement with an adjacent school district to provide for tuition-free attendance by a student of that district, provided both the Superintendent or designee and the adjacent district determine that the student's health and safety will be served by such attendance.
2. A written agreement with cultural exchange organizations and institutions supported by charity to provide for tuition-free attendance by foreign exchange students and non-resident pupils of charitable institutions.
3. According to an intergovernmental agreement.
4. Whenever any State or Federal law or a court order mandates the acceptance of a non-resident student.

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. Board policy 239.0 – Education to Homeless Children, and its implementing administrative procedure, given the enrollment of homeless children.

ATTENDANCE

Students are expected to be in attendance at school every day and to be on time. A complete record is kept of absences and tardiness and becomes part of the student's permanent record.

School hours are from **8:00 a.m. to 3:00 p.m.** Brimfield Grade School now has a soft start which means that students can be dropped off anytime between 7:45am and 8:00am. **Students who walk to school should not be on the school grounds before 7:45 a.m.** If students arrive after 8:00 am they should be taken to the office by parent/guardian.

A student will receive credit for a full day of attendance when the student has been **in class 300 minutes** of the school day. This does not include passing time between classes and lunchtime, but actual time in the classroom. A student will receive credit for a half-day of attendance if the student has been in class 150 minutes or more of the school day, but less than 300 minutes. Any student who is in attendance 149 minutes or less will be counted absent for the full day (As per the auditor for attendance for the State of Illinois.) On our current schedule, a student must **report to the school's office by 9:20 a.m.** to be counted for a full day of attendance. However, any student leaving early or arriving late on days scheduled for early out will be counted absent.

If for any reason a student is not present in school, parents are **required by law** to call the school office between 7:30 a.m. and 8:15 a.m. each day the student is absent. Parents may also email the school secretary Bren Dwyer at

bren.dwyer@brimfield309.com. If you do not call, the school will call the parents within 2 hours concerning the student's whereabouts. The school phone number is 309-446-3366.

EXCUSED AND UNEXCUSED ABSENCES

According to Illinois law, students must attend school when it is in session during the regular school term. The responsibility for attendance on a regular and continuous basis rests with the student and his or her parents.

Two categories of absences are recognized: excused and unexcused. An absence will be considered unexcused unless evidence of the following is shown: illness, death in the immediate family, medical appointments, observance of a religious holiday, and emergencies, or such other situations deemed from time to time by the Superintendent or his designee to be a valid excuse for absence. "Needed at home" will not qualify as an excused absence.

Evidence necessary to establish an excused absence includes a note signed by a parent or guardian specifying the reason for the absence or a note signed by a licensed physician. A phone call does not constitute proper records in order to determine absences. An absence of **five or more school days out of ten successive days** due to illness will be considered an excused absence only if a note from a licensed physician is provided attesting to said illness.

Upon the occurrence of an unexcused absence, a notice of such shall be given in writing to the parent or guardian of the student and/or at the Principal's discretion may be sent to the District Truant Officer. The student shall be referred for counseling with the principal, counseling staff member, or social worker. Subsequent unexcused absences will be dealt with in the same manner. Consultation with the parent or guardian shall be made upon the tenth successive day of unexcused absence. Said consultation shall be with the Superintendent or his designee.

TRUANCY

The School District will determine if the student is a truant, chronic or habitual truant, or a truant minor. The Superintendent shall direct the appropriate School District staff to develop diagnostic procedures to be used for identifying the cause(s) of unexcused student absenteeism. The diagnostic procedures shall include, but not limited to, interviews with the student, his or her parent(s)/guardian(s), and any school official(s), or other people who may have information.

The following supportive services may be offered to truant or chronically truant students:

- parent-teacher conferences
- student and/or family counseling
- information about community agency services

Any 17 year old resident may, upon providing documentation of dropout status for the previous 6 months, participate in the District's various programs and resources for truants.

If truancy continues after supportive services have been offered, the Building Principal shall refer the matter to the Superintendent. The superintendent may call upon the resources of outside agencies such as the juvenile officer of the local police department or the truant office of the Regional Office of Education of Peoria County. The School Board, Superintendent, School District administrators, and teachers shall assist and furnish such information as they have to aid truant officers.

No punitive action, including out-of-school suspension, expulsions, or court action shall be taken against a chronic truant for his or her truancy unless available supportive services and other school resources have been provided to the student.

Chronic or habitual truant - A "chronic or habitual truant" is a child who is subject to compulsory school attendance and who is absent with or without valid cause from such attendance for 10 percent (18 days) or more of the 180 regular attendance days. A doctor's note must be sent for each absence after a student has missed 18 days of school. Exceptions to this rule will be at the Administration's discretion.

Truant minor - A child whom supportive services, including prevention, diagnostic, intervention, remedial services, alternative programs, and other school and community resources have been provided and have failed to result in the cessation of chronic truancy or have been offered and refused.

TARDINESS

Any student entering the classroom after **8:05 a.m.** will be required to present the teacher with a pass **from the office**. A child missing more than 150 minutes of class time will be marked absent. Students should always have a note from a parent or guardian explaining the reason for tardiness. Any tardiness that is not accompanied by a note from a parent or guardian will automatically be marked unexcused. Any student that has chronic tardiness will be referred to the building principal for further counseling, conferencing, or referral to Project Target.

RETURN TO SCHOOL PROCEDURE

When a student returns to school he/she **must present a note** to the office signed by the parent or guardian. The note should include the following information:

- **Date the note is written**
- **Student's name**
- **Date of absence(s)**
- **Reason**
- **Parent or guardian signature**

If parents know in advance that their child will have to be absent, please notify the school as soon as possible so that interruption of student progress will be minimized.

VACATIONS

The school district recognizes that all families cannot take vacations during the summer months. Travel experiences can benefit a student's education. Therefore, a student may apply for an absence **not to exceed five continuous days** for a family vacation. Such requests must be signed by a parent or guardian and turned in **four (4) weeks prior to the requested absence**.

The school administrator will evaluate the request and approve or deny it based on the student's grades and planned classroom activities during the requested absence. The student will be expected to complete all assignments by a pre-arranged date before/after the absence. Families are strongly encouraged to refrain from asking for vacation time on days designated for State and local testing. **Please do not put the teacher and administration in this predicament.**

HEALTH RELATED ISSUES

HEALTH CARE

Brimfield C.U.S.D. #309 is extremely fortunate to have a Registered Nurse to serve the medical needs of our students. In society today, and in our schools, we have many children that require on-going medical attention. In order for these services to be done in an efficient manner, it requires effective communication between the school, home, and physician. Throughout the year, it may be necessary for our Nurse to set/alter procedures and deadlines. If this is the case, we will need the cooperation of all parties involved to maintain a safe and functional service.

EMERGENCY INFORMATION

Please complete the emergency card for your children. This information will be used to contact parents or guardians in the case of an emergency. Please notify the office of any change in the information contained on the emergency card throughout the school year. (i.e. phone numbers, employers, doctors, etc.) No child will be sent home from school without approval from a parent or guardian. The parent or guardian must be home to meet and stay with the child.

School Operations During a Pandemic or Other Health Emergency¹

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.

¹ This handbook procedure is meant to apply generally to any pandemic or other health emergency and should be supplemented with other relevant and timely information.

9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.

Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students

REQUIRED HEALTH EXAMINATIONS AND IMMUNIZATIONS

A student's parent(s)/guardian(s) shall present proof that the student received a health examination and the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health, within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, headstart programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

As required by State law:

1. The required health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening must be included as a required part of each health examination; diabetes testing is not required.
3. Before admission and in conjunction with required physical examinations, parents/guardians of children between the ages of 6 months and 6 years must provide a statement from a physician that their child was "risk-assessed" or screened for lead poisoning.
4. The Department of Public Health will provide all female students entering sixth grade and their parents/guardians information about the link between human papilloma virus (HPV) and cervical cancer and the availability of the HPV vaccine.

Unless the student is homeless, failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who are first-time registrants shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations.

EYE EXAMINATION

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A licensed optometrist or an ophthalmologist must perform the required eye examination. All vision exams must be on a state issued Vision Examination form. If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the Department of Public Health. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

DENTAL EXAMINATION

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the Illinois Department of Public Health. All dental exams must be on a state issued Dental Examination Form.

If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year.

EXEMPTIONS

In accordance with rules adopted by the Illinois Department of Public Health, a student will be exempted from this policy's requirements for:

1. Parents or guardians who object, for religious reasons, to immunizations or health examinations for their child must provide a Certificate of Religious Exemption that is signed by a physician licensed to practice medicine in all of its branches. Illinois State Law does not allow for exemptions based on personal or philosophical reasons. The superintendent has the authority to determine whether the information supplied constitutes a valid religious objection.
2. Health examination or immunization requirements on medical grounds if a physician provides written verification;
3. Eye examination requirement if the student's parents/guardians show an undue burden or lack of access to a licensed optometrist or ophthalmologist. A signed vision examination waiver form must be filled out and kept on file at the school.
4. Dental examination requirement if the student's parents/guardians show an undue burden or a lack of access to a dentist. A signed dental examination waiver form must be filled out and kept on file at the school.

HOMELESS CHILD

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. School Board policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

MEDICATION

STUDENT MEDICATION

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a "School Medication Authorization Form."

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure.

We will not give medication to children without parent permission. The school will furnish no medication, including Tylenol. If it is determined by a doctor that it is necessary for a child to take medication during school hours:

1. Written orders must be provided to the school from the doctor giving the name of the medication, the dosage, and the time(s) to be taken.
2. If liquid medicine is used, a pre-measured container would be helpful.

3. The child gives himself/herself the medicine (cont.)
4. Medication must be brought to school in a container appropriately labeled by the druggist or pharmacy. (include the student's name on the container)
5. Any OTC (over the counter) medication that is to be kept at school must be accompanied with an OTC authorization form signed by a physician and the parent or guardian; all medications must be in the original container with the student's name on the container. All medications will be kept in the nurse's office or in the secretary's office unless other arrangements have been made with the school nurse.

If a child is on medication and a parent wishes to come to school to administer the medication, they may do so. This is usually done during the child's regularly scheduled lunch period.

SELF ADMINISTRATION OF MEDICATION

A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

ADMINISTRATION OF MEDICAL CANNABIS

In accordance with the Compassionate Use of Medical Cannabis Program, qualifying students are allowed to utilize medical cannabis infused products while at school and school events. Please contact the building principal for additional information or see School Policy 7:270 Administering Medicines to Students. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

UNDESIGNATED MEDICATIONS

The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of

undesigned medication. This procedure does not guarantee the availability of undesigned medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

EMERGENCY AID TO STUDENTS

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

CONTAGIOUS DISEASES

After an absence due to a contagious disease such as (chicken pox, diphtheria, German measles, impetigo, scarlet fever, whooping cough, hepatitis) a parent or guardian must supply a written authorization from a physician for re-entry into school. For students that miss due to an illness deemed contagious such as (strep throat, pink eye, impetigo) a child can return to school 24 hours after receiving the first dose of the appropriate antibiotic.

GENERAL ILLNESS

Schools recognize the fact that children become ill and must require them to miss school. We ask that parents use good judgment in deciding when a child should return to school. **A child must be free of a fever (100.5 or lower) for twenty-four hours without medication before returning to school.**

LICE PROCEDURE

1. If children are found with live lice during the school day parents will be called and the child will be sent home immediately.
2. If children are found with nits in their hair, the hair will be secured in a ponytail if possible, parents will be notified and they will be sent home at the end of the day with an educational pamphlet on lice and nits. The child must be nit free the next morning or they will be sent home.
3. During the course of the school year, children will be brought to the notice of the School Nurse about suspected cases of head lice from a variety of sources (teachers, students, other parents and affected children themselves). Repeat Steps 1 and 2.
4. In the rare event of a major uncontrolled transmission situation, we will implement a more aggressive protocol. We will implement components such as notification to all parents in the school to educate them about lice and to watch their children for infestation. The school may inspect all or some of the students for lice/nits.
5. Parents – Please notify the school of any lice problems.

MEDICAID INFORMATION

Medicaid reimbursement is a source of federal funds approved by Congress to help school districts maintain and improve special education services.

Therapy and diagnostic services provided to your child are partially reimbursable. Unless you object in writing, SEAPCO (Special Education at Peoria County) will claim Medicaid/KidCare reimbursement for services provided. These claims will have no impact on your ability to receive Medicaid funding either now or anytime in the future.

If you do not object to this release of information related to Medicaid claims for your child, do nothing.

HOME AND HOSPITAL INSTRUCTION

A student who is absent from school, or whose physician, physician assistant or licensed advanced practice registered nurse anticipates his or her absence from school, because of a medical condition may be eligible for instruction in the student's home or hospital.

Appropriate educational services from qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before (1) the birth of the child when the student's physician, physician assistant, or licensed advanced practice nurse indicates, in writing, that she is medically unable to attend regular classroom instruction, and (2) for up to 3 months after the child's birth or a miscarriage.

For information on home or hospital instruction, contact: Administration.

CURRICULUM AND INSTRUCTION

GRADES AND REPORTING

Student evaluations are compiled by teachers on the basis of percentage scores on daily work, quizzes, tests, and special projects. Another important factor in grading is the teacher's evaluation of in-class performance. These factors are combined in a fair and impartial manner to arrive at a numerical score. Numerical scores represent percentage equivalents of work correctly completed in the following amounts:

93-100 – A / S+

85-92 - B / S

78-84 - C / S-

70-77 - D / NI (Needs Improvement)

1-69 – F / U

Evaluations will be calculated at the end of each nine (9) week period and sent home with students for parent consideration. In some performance areas there is not a sufficient amount of objective information to determine a numerical score. Teachers are encouraged to notify parents as soon as rapid improvement or decline in student performance is noted. Teachers will notify parents or guardians of a child's academic progress mid-way through each nine-week grading period. These percentages are a close estimation of the students' progress up to that point. Either the teacher and/or the parent may request conferences at this time.

The student must complete all assignments, or suitable teacher selected alternatives. If assignments remain as not completed after a reasonable period of time, a zero will be entered for each assignment and averaged with other scores to determine a final grade.

UNGRADED HOMEWORK PAPERS

There are times when homework is done for practice of a skill and therefore is not done for a specific grade. However, it is still important to complete the work. Teachers will have the discretion to determine how work that has not been completed will affect the student's grade.

MAKE-UP WORK POLICY

It is the responsibility of the student to see that all make-up work is completed. Two days make-up time will be allowed for the first day of an excused absence, and one day for each day absent thereafter for any work assigned during the absence.

If assignments are made **before** an absence occurs, those assignments or tests are then due on the **first** day the student returns.

No credit will be given for work handed in after the due date except when excused by absence. Teachers may consider extenuating circumstances when applying this rule.

After students' assignments have been graded students will have an opportunity, in most cases, to make corrections. Corrections accurately completed within teacher specified guidelines will receive credit as deemed necessary by the appropriate teacher.

CURRICULUM

The core curriculum consists of:

1. Reading (phonics, comprehension, etc.)
2. Language Arts (spelling, English, oral language, written language)
3. Math
4. Science
5. Social Studies

The basic skills listed above, are the foundation for success in promotion-retention decisions made by school officials. Students will also have the opportunity to receive instruction in physical education, art, music, and will visit the library.

ENGLISH LEARNERS 12.60

The school offers opportunities for resident English Learners to achieve at high levels in academic subjects and to meet the same challenging State standards that all children are expected to meet.

Parents/Guardians of English Learners will be informed how they can: (1) be involved in the education of their children; (2) be active participants in assisting their children to attain English proficiency, achieve at high levels within a well-rounded education, and meet the challenging State academic standards expected of all students; and (3) participate and serve on the District's Transitional Bilingual Education Programs Parent Advisory Committee.

For questions related to this program or to express input in the school's English Learners program, contact

Julie Albritton at Brimfield Grade School 309-446-3366.

KINDERGARTEN ENTRANCE REQUIREMENT

According to Illinois School Code 5/10 - 20.12:

Any child who will be five on or before September 1 of any school year may attend school at the beginning of the school term. Based on an assessment of a child's readiness, a school district may permit a child to enter school at a younger age if the class size is not directly impacted.

PROMOTION AND CHANGING A GRADE (POLICY 228.0)

The administration and professional staff shall establish a system of grading and reporting academic achievement to students and their parents and guardians. The system shall also determine when promotion and graduation requirements are met. **The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, performance on Illinois Assessment of Readiness, benchmarking, or other testing.** A student shall not be promoted based upon age or any other social reason not related to academic performance. The administration shall determine remedial assistance for a student who is not promoted.

PROMOTION- GRADE SCHOOL

K-2

All students in grades K-2 must successfully complete school assessments with a score of 80% or above. The students must also pass four of the five core classes three out of four grading periods with a score of 80% or above or S-, S. or S+. Because this program is success oriented, a score below 80% is an indication of a serious deficit in a core area. Therefore, a minimum of 80% is required in all core subjects to attain mastery.

3-6

A student's grade in the core subjects must average out to a 70% or above to consider that core subject as being passed. The core curriculum includes Math, Science, Social Studies, Reading, and Language Arts.

7-8

A student's grade in the core subjects must average out to a 70% or above to consider that core subject as being passed. The core curriculum includes Math, Science, Social Studies, Reading, and Language Arts.

Note: Because classroom grades reflect the on-going daily academic progress of student achievement, they will be the primary consideration of possible retention issues.

TEACHER QUALIFICATIONS

Parents/guardians may request information about the qualifications of their student's teachers and paraprofessionals, including:

- Whether the teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- Whether the teacher is teaching under an emergency or other provisional status through which State qualification and licensing criteria have been waived;
- Whether the teacher is teaching in a field of discipline of the teacher's certification;
- Whether any instructional aides or paraprofessionals provide services to your student and, if so, their qualifications.

If you would like to receive any of this information, please contact the school office.

RETENTION

Retention is based on the premise that remediation for deficiencies in skill development is most efficient and effective at that point in educational development where the need first appears. To push students into a learning environment where essential entry level skill development does not exist is not in the best interest of the student or the system.

GRADING

Every teacher shall maintain an evaluation record for each student in the teacher's classroom. The final grade assigned by the teacher cannot be changed by a District administrator without notifying the teacher. Reasons for changing a student's final grade include:

- A miscalculation of test scores;
- A technical error in assigning a particular grade or score;
- The teacher agrees to allow the student to do extra work that may impact the grade;
- An inappropriate grading system used to determine the grade; or
- An inappropriate grade based on an appropriate grading system.

Should a grade change be made, the administrator making the change must sign the changed record.

CHEATING

Cheating is detrimental to the educational progress of all students. Cheating will not be tolerated. Depending upon the seriousness of the offense, the following options may be exercised by the teacher and/or administration:

1. Zero for assignment
2. Resubmission of assignment
3. Detention/Suspension

Any or all of these may be considered.

TESTING

Each student will be tested on curricular areas pertinent to their particular grade level. The following tests are administered:

<u>Test</u>	<u>When</u>	<u>Subject</u>	<u>Grade Level</u>
IAR	March/April	Math, Reading	3, 4, 5, 6, 7, 8
STAR	Sept., Jan. Apr.	Math, Reading	K-8
Map Testing	Sept. Jan. May	Math, Reading	4-8

BAND

We offer a band program at Brimfield Grade School for children in grades 5-8. Information will be distributed early in the year. Grading will be as follows:

Grade 5-6	S+, S, S-, NI, U
Grades 7-8	Numerical Grade

CHORUS & GENERAL MUSIC

General music classes are offered to all students in Pre-K through 5th grades. Students in grades 6-8 will be directed by our Choral Director. Grading for grades K-5 will be S+, S, S-, NI, U; while students in grades 6-8 will receive numerical grades.

GIFTED/TALENTED

Brimfield Grade School recognizes the uniqueness of individual learners and recognizes the need to provide a program which is designed to identify the special needs of academically talented and gifted students, and to provide enrichment or acceleration of skills and content to be taught. Identification procedures are part of the district's comprehensive gifted plan.

PHYSICAL EDUCATION

The purpose of physical education class is to promote physical fitness and health for our students. Vigorous participation is the key to the successful building of fitness. Students are required to participate in PE classes, unless a doctor's note states that the student is not able to participate. Exceptions to this rule may occur if a student's behavior is a danger to self or others. Therefore, if a student is at school, participation is required. However, at times when a student is recovering from sickness or experiencing some minor physical maladies not requiring a doctor's attention, a parent may request light activity or excuse their child from PE that day. These requests will be honored for a period of time that is agreed upon between the teacher/parent/doctor. After a period of time missed, the student may be required to submit a note from a physician permitting participation to begin. A third consecutive excuse will not be honored without a doctor's note.

Failure to participate in PE class for unexcused reasons will adversely affect the student's grade. A student's grade may also be lowered by consistent lack of effort in class or not being prepared for class with the proper uniform for their grade level.

FIELD TRIPS

The Brimfield Board of Education will allow each class the opportunity to take one educational field trip per year with transportation paid by the school district. The students must pay all other related expenses.

The grade school principal must first approve additional field trips during the school year. All related expenses, including transportation, must be paid by the student.

Before a child leaves school grounds, they must:

1. Have a permission slip filled out in advance and signed by a parent or guardian.
2. Meet all the criteria both in academics and behavior established by the sponsor or principal.
3. Have paid all the necessary fees to attend.

SCHOOL VISITATION RIGHTS

The School Visitation Rights Act permits employed parents/guardians, who are unable to meet with educators because of a work conflict, the right to time off from work under certain conditions to attend necessary school functions such as parent-teacher conferences, academic meetings and behavioral meetings. Letters verifying participation in this program are available from the school office upon request.

PARENT-TEACHER CONFERENCES OR VISITATION

Parents visiting the school during school hours **must** first check in at the office. The use of conferences is encouraged when questions arise concerning academic or behavioral problems. Classrooms **WILL NOT** be disturbed for conferences during class hours except for an emergency. A conference or visitation is to be done by appointment. Please call the school office, or send a note indicating the day and time you wish to visit or have a conference.

9. Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
10. Suspension of bus riding privileges.
11. Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

ISOLATED TIME OUT, TIME OUT, AND PHYSICAL RESTRAINT

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

CORPORAL PUNISHMENT

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

WEAPONS PROHIBITION

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

(1) A firearm, meaning any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 1961. The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined above.

The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

DISTRICT WIDE RULES

1. The student will follow all oral and written directions, guidelines, and rules.
2. The student will not physically, visually, or verbally distract others.
3. The student will show respect for other students and adults and their property.
4. The student will be prepared, ready, and on time for class.

K-4 DISCIPLINE PROCEDURES

The following section will aid in understanding the discipline procedures for students in grades kindergarten through fourth grade. Please explain these procedures to your children and emphasize the importance of abiding by school rules. In order to reach their maximum achievement, students need to learn a sense of self-discipline, responsibility, and self-control.

Teachers will explain certain operational policies for their classrooms to students within the first week of school. Overall school rules will be explained to the students by the teachers or principal. For repeated discipline problems, the parents will be contacted concerning their child's behavior, and a conference will be scheduled by either the principal or the teacher. After the second conference, if behavior problems still occur, the child could receive a possible suspension from school. Behavior referrals will not be written by teachers for lack of academic work.

Suspensions are either in school or out-of-school. If a child receives an out-of-school suspension, parents may elect to serve an in-school suspension with their child. In doing so, your child will receive credit for work done during the days of suspension. If parents choose this option, it must be cleared by the principal. Parents will be required to stay with the child for the duration of the day in order for this option to be effective. A second suspension in one semester is automatically out-of-school unless otherwise determined by the administration.

Students suspended out-of-school will receive partial to full credit (determined by the teacher) for work done on the day(s) they are not in attendance.

In cases of extreme or repetitive student misbehavior or excessive referrals, a student may be suspended from school for 1-10 days of school or may face possible expulsion.

The offenses listed are considered serious enough for disciplinary action. Although detentions will be used infrequently, they may be issued with the permission of the parent. The responsibility for punishing student misbehavior is left to the discretion of the teacher/principal. A disciplinary notice is comparable to a detention notice.

5-8 DISCIPLINE/INTERVENTION PROCEDURES

The goal of any discipline policy is to teach responsibility, self-control, reliability, and self-discipline. The parents and teaching staff must work together instilling self-discipline in each child. Teachers must maintain a well-disciplined classroom environment so that all students have the opportunity for maximum learning. These procedures are to address behavioral related issues not academic issues.

On the road to self-discipline, there must be some guidelines or rules for the students to follow. In addition, each teacher will have certain operational policies for their classroom. In fifth through eighth grade, students will follow a demerit/detention policy. Students will receive demerit(s) or detention(s) for listed infractions or any other act that the teacher or principal deems necessary. Behavior problems may result in detention, parent conferences, suspension, or expulsion.

Once a student has accumulated 10 demerits in a week's time, he/she will receive a detention notice on that Friday. The detention notice is to be taken home and signed by a parent or guardian and returned to school no later than the next Tuesday morning.

Detentions are accumulated in a semester's time. If a student receives 7 detentions, a letter will be sent to the parents stating that the child is 3 detentions away from a school suspension. Please note the following:

1. 7 Detentions- letter of warning sent to parent or guardian
2. 10 Detentions- 3 day school suspension (in/out of school)
3. 20 Detentions- 5 day school suspension (in/out of school)
4. 30 Detentions- 10 day suspension and/or possible expulsion

AGGRESSIVE BEHAVIOR REPORTING

State Law requires a school district to notify the parent or guardian of a child who uses aggressive behavior, including bullying, at school. School board policy prohibits student's using aggressive behavior while at school that does physical or psychological harm to someone else and/or urging other students to engage in such conduct. Prohibited aggressive behavior includes, without limitation, the use of violence, force, noise, coercion, threats, intimidation, fear, bullying, or other comparable conduct. Course of action taken may be parent conference, counseling services, non-district affiliated psychological service, alternative school placement, or a referral to a community agency.

BULLYING

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important district and school goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is **prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Examples of prohibited conduct include name-calling, using derogatory slurs, stalking, sexual violence, causing psychological harm, threatening or causing physical harm, threatened or actual destruction of property, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, nondiscrimination coordinator, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions. A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions. Students and parents/guardians are also encouraged to read the following school district policies: 7:20, *Harassment of Students Prohibited* and 7:180, *Prevention of and Response to Bullying, Intimidation and Harassment*.³

First Offense for Bullying a note will be sent home and returned with parent's signature and parent will receive phone call from Teacher.

Second Offense for Bullying a letter will be sent home and returned with parent's signature and a meeting will be held with Parents, Student, Teacher and Principal.

After two offenses other disciplinary options will be discussed at the discretion of the Principal.

HARASSMENT OF STUDENTS PROHIBITED

The District will not tolerate harassing, intimidating conduct, or bullying whether verbal, physical, or visual, that affects the tangible benefits of education, that unreasonably interferes with a student's educational performance, or that creates an intimidating, hostile, or offensive educational environment. Examples of prohibited conduct include name-calling, using derogatory slurs, causing psychological harm, threatening or causing physical harm, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Complaints of harassment, intimidation or bullying are handled according to the provisions on sexual harassment below. The Superintendent shall use reasonable measures to inform staff members and students that the District will not tolerate harassment, intimidation or bullying by including this policy in the appropriate handbooks.

SEXUAL HARASSMENT PROHIBITED

Sexual harassment of students is prohibited. Any person, including a district employee or agent, or student, engages in sexual harassment whenever he or she makes sexual advances, requests sexual favors, and engages in other verbal or physical conduct of a sexual or sex-based nature, imposed on the basis of sex, that:

2. Has the purpose or effect of:
 - a. Substantially interfering with a student's educational environment;
 - b. Creating an intimidating, hostile, or offensive educational environment;
 - c. Depriving a student of educational aid, benefits, services, or treatment; or
 - d. Making submission to or rejection of such conduct the basis for academic decisions affecting a student.

The terms "intimidating," "hostile," and "offensive" include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person's alleged sexual activities.

Students who believe they are victims of sexual harassment or have witnessed sexual harassment, are encouraged to discuss the matter with the student Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, or a Complaint Manager. Students may choose to report to a person of the student's same sex. Complaints will be kept confidential to the extent possible given the need to investigate. Students who make good faith complaints will not be disciplined.

An allegation that one student was sexually harassed by another student shall be referred to the Building Principal, Assistant Building Principal, or Dean of Students for appropriate action.

The Superintendent shall insert into this policy the names, addresses, and telephone numbers of the District's current Nondiscrimination Coordinator and Complaint Managers. At least one of these individuals will be female, and at least one will be male.

Any District employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any District student who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action, including but not limited to, suspension and expulsion consistent with the discipline policy. HAZING AND BULLYING

Brimfield CUSD #309 prohibits students from engaging individually or collectively in any form of hazing or bullying or any related initiation activity on school property, in conjunction with any school activity or involving any person associated with the school, regardless where the incident occurs. Any student who participates in hazing or bullying or related initiation activities or conspires to engage in such activity will face immediate disciplinary action, including suspension, expulsion, exclusion and loss of extracurricular activities. SCHOOL VIOLENCE TIPLINE 1-800-477-0024

The School Violence Tip line will provide a means for students to anonymously report threats of violence and weapon violations on school grounds. The tip line will be answered in Springfield by Illinois State Police telecommunications with back-up provided by the Springfield Mental Health Center.

The School Violence Tip line has been created to give you an anonymous way to report any threats of violence (“I’m going to kill someone tomorrow”) or weapons which you might know about (“I saw a gun in someone’s locker”). However, **you should call the tip line only in those situations when you feel it is impossible to talk to a trusted adult first.** Confiding in a person whom you trust is by far the best way to deal with information about school violence.

You also need to understand the difference between those incidents that require a 911 call and those that are appropriate for the tip line. **ANY RISK OF IMMEDIATE HARM SHOULD BE REPORTED TO 911 RIGHT AWAY.** Example: a student has pulled out a gun in the middle of the cafeteria.

In the event that you feel threatened, know of a possible act of violence, or find out about a weapon, but are unable to confide in a trusted adult, the tip line is an **anonymous** way to relay the information and know that you did everything possible to protect yourself, other students, teachers, and administrators from possible violence.

When you make a call to the tip line, a trained telecommunicator will assess the situation and make a determination about the appropriate response. In most instances the telecommunicator will refer the information to your local law enforcement and school officials.

If you need additional assistance and want to talk to someone at length, the Illinois State Police telecommunicator will transfer the call to a trained crisis worker.

SAFE TO HELP

Safe to Help is a free mobile app that students can use to share concerns about themselves or others in a confidential environment. Once vetted the information will be immediately shared with local school officials, mental health professionals and/or local law enforcement, depending on the nature of the tip. SUSPENSION PROCEDURES

In-School Suspension

The Superintendent or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.

Out-of-School Suspension

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.

A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:

 - d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
 - e. Depending upon the length of the out-of-school suspension, include the following applicable information:

 - ii) Substantially disrupt, impede, or interfere with the operation of the school.

- iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.

- 6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. LEGAL REF.: 105 ILCS 5/10-22.6(a). Goss v. Lopez, 95 S.Ct. 729 (1975).

RE-ENGAGEMENT OF RETURNING STUDENTSThe building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

STUDENT ACTIVISM

Students are encouraged to express ideas and opinions, take stands, and support policies publicly, privately, orally, and in writing. Students should be given this opportunity for expression through established school media. Such expressions should not interfere with the educational program or present a safety or health hazard. The students shall not use obscenity, slanderous or libelous statements, disruptive tactics, or advocate violation of the law or school regulations.

SPECIAL EDUCATION RELATED SERVICE LOGS

For a child with an individualized education program (IEP), the school district must create related service logs that record the type of related services administered under the child's IEP and the minutes of each type of related service that has been administered. The school will provide a child's parent/guardian a copy of the related service log at the annual review of the child's IEP and at any other time upon request.

SPECIAL EDUCATION ACCOMMODATING INDIVIDUALS WITH DISABILITIES

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

SPECIAL EDUCATION DISCIPLINE PROCEDURES

- The District will comply with the provisions of the Individuals with Disabilities Act (IDEA) when disciplining students.
- No special education student will be expelled if the student's particular act of gross disobedience/misconduct is a manifestation of his/her disability. Any special education student whose gross disobedience/misconduct is not a manifestation of his/her disability may be expelled pursuant to

expulsion procedures, except that such disabled student shall receive educational services as provided with the IDEA.

- A special education student may be suspended for an aggregate of ten days of school per year, regardless of whether the student's gross disobedience/misconduct is a manifestation of his/her disabling condition, except that such student shall receive educational services in accordance with the IDEA.
- Any special education student who has or will exceed ten days of suspension may be temporarily excluded from school by court order or by order of duly appointed State of Illinois hearing officer if the exclusion is warranted because maintaining the student in his/her current placement is substantially likely to result in jury to himself or others.
- A special education student who has carried a weapon to school or to a school function or who knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function may be removed from his/her current placement and placed in an appropriate interim alternative educational setting for no more than 45 days in accordance with the IDEA.

SEARCH AND SEIZURE

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

SCHOOL PROPERTY/EQUIPMENT AS WELL AS PERSONAL EFFECTS LEFT THERE BY STUDENTS

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

STUDENT SEARCHES

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its

objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

SEIZURE OF PROPERTY

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

QUESTIONING OF STUDENTS SUSPECTED OF COMMITTING CRIMINAL ACTIVITY

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

Cross-reference: PRESS 7:140, <i>Search and Seizure</i>

LOCKER CHECKS

The Brimfield Board of Education has given the administration the authority to check lockers without prior student notification. Lockers remain the property of the school and should the occasion arise, inspection of these lockers may be made by school personnel to ensure that the lockers are being used for the purpose intended by the school. Students should only use the locker that has been assigned to them and are responsible for its condition.

BOOKBAGS AND BACKPACKS

Bookbags, backpacks, or similar items are not allowed in the classroom, yet they are permitted in the building, but should be kept in the student's locker.

NOTIFICATION OF VIDEO SURVEILLANCE

It is the policy of the school district to permit the use of video cameras in public areas of the school, school grounds, and buses for the primary purpose of documenting disciplinary/safety problems and vandalism on the school grounds thereby reducing disciplinary problems and protecting school property. Video cameras will not be placed in restrooms, locker rooms, changing rooms, or any other location prohibited by law.

Students may be disciplined based in whole or in part on videotape evidence of misconduct. However, videotapes may not be maintained as a student record, except as such videotapes are used in the course of student disciplinary proceedings, or for other good reasons as determined by the Superintendent or his designee. If you do not want your child viewed except by school officials and parents/guardians, you must inform us in writing before September 1 of the current school year. To protect student's right to privacy and to be in compliance with the Illinois School Code, if a problem arises requiring the videotape to be reviewed, the tape will be reviewed by Brimfield CUSD administration only.

Non-school personnel (parents, public, etc....) are not allowed to videotape the school children without permission from the superintendent.

LUNCH PROGRAM

Pricing

USDA sets strict guidelines on meal pricing for school lunches that we must comply with. School meal pricing for the school year will be as follows: K-4 \$2.80, 5-12 \$3.05, Adult – \$3.55. Students may buy extra milk for \$.50. The kindergarten classes offer snack milk outside of the milk offered for lunch at a cost of \$.50 a day. Snack milk is not included with families who qualify for free and reduced lunches.

Online funds can be added to your students lunch account which is through food service efunds on Skyward. A la carte prices are on the website. Make checks payable to District Cafe.

Free and Reduced Applications

Brimfield School District works diligently to enroll eligible students in the free and reduced price meal program. Free and reduced applications are available at any time throughout the school year. Applications are available on the website, at registration, and at both school buildings. Please do not hesitate to complete an application. If you need assistance with the application process please contact the cafeteria manager, Petrina Winkelmann at 309-446-3349 ext. 1226.

Unpaid Meal Charges

Unpaid school meal debt can become a critical problem. If left unaddressed, it can impact the quality of meals for all students. Brimfield School District uses a variety of methods to notify parents of low or negative account balances and to discreetly provide alternate meals to students. An email will be sent to parents/guardians and letters sent home with students are likely methods of communication used to attempt to collect unpaid meal charges. We in **NO** way want any child to go hungry, or be denied a meal, but we simply have to have accounts paid to continue to operate efficiently.

LUNCH RULES

- Stay in your seat. Only leave your seat if given permission by the cafeteria supervisors. Request permission by raising your hand.
- Walk at all times to and from the cafeteria and while you are in the cafeteria.

TRANSPORTATION

The school district provides bus transportation to and from school. School bus riders, while in transit, are under the jurisdiction of the school bus driver. Bus drivers will make seat assignments as they feel are appropriate. Seat assignments are not made for social purposes, but for the safety of all children. Please remember that riding the bus is a privilege, not a right. Those students who ride the bus will follow the regulations set forth by the administration. Permission for your child to ride home on a school bus with a friend may be granted upon receipt of a written request from the parent/guardian provided there is space available. The note should be given to the principal for approval. Approval will be granted on an individual basis.

Bus/Vehicle Post-Trip Inspection

All school bus drivers, whether employed by the School District or private sector school bus company, shall perform a visual sweep for sleeping children at the end of a route, work shift or workday by: (1) activating interior lights of the school bus to assist the driver in searching in and under each seat, and (2) walking to the rear of the school bus/vehicle checking in and under each seat.

If a mechanical post-trip inspection reminder system is installed, the driver shall comply with the requirements of that system.

Erratic Driving Reports

Each school bus shall display a sign at the rear, with letters and numerals readily visible and readable; indicating the district's telephone number for the purpose of reporting a school bus driver's erratic driving.

Reports of erratic school bus driving shall be accepted in the following manner:

1. Calls to report erratic driving shall be directed to the Superintendent at the district unit office at 446-3378. The Superintendent or designee shall conduct an internal investigation of the events that led to each complaint.

The Superintendent or designee shall inform the complaining party of the results of the investigation and the action, if any, taken to remedy the situation.

4. Stay well off of the roadway at all times while awaiting the arrival of the bus.

7. Remain in the bus in the event of a road emergency until instructions are given by the driver.
8. Students are not permitted to leave their seats, stand up, or kneel in their seat while the bus is in motion.

Wait for a signal from the driver allowing you to cross.
20. The bus equipment and furniture should be treated as a student would treat his or her own. Any vandalism will result in suspension from the bus and monetary reimbursement for the damage.
21. No pets or animals will be allowed on the bus.
22. Games, video equipment, radios, CD players, etc. will not be allowed to be used on the bus.
23. The same rules and regulations for safe riding practices should be observed on co-curricular or extra-curricular activities under school sponsorship. Be respectful of all chaperones appointed by the school.
24. Persons who fail to abide by bus regulations will have their riding privileges suspended.

BUS DISCIPLINE PROCEDURES

If Brimfield Grade School students do not obey the regulations, the following consequences will be enforced:

1st formal warning – written documentation (Bus Conduct Report Form) of bus violation given to administration parents contacted at discretion of administration.

2nd formal warning – written documentation (Bus Conduct Report Form) of bus violation given to administration, parents contacted by administration

3rd formal warning – written documentation (Bus Conduct Report Form) of bus violation given to administration conference with the student, driver, and principal (possible suspension of bus privileges from 3 days to 2 weeks).

If behavior problems continue to occur on the bus, possible expulsion of the bus privileges may occur. The administration of Brimfield CUSD reserves the right to suspend or expel students from bus privileges due to recurring incidents which are not in accordance with procedures and policies.

EMERGENCY SNOW ROUTES AND PROCEDURES

Because bus routes are determined by the populated area, it is difficult to determine at the printing of this handbook what these routes will be. Good, sound judgment by the bus driver will play a major factor in determining whether a road is safe or not. At no time will we endanger a child's life. Before a bus route is determined unsafe, other options will first be utilized:

1. Cancel school due to unsafe road and weather conditions.
2. Start school on 2-hour delay (10 a.m.). This gives the Peoria County Road and Township Supervisors time to clear the bus routes.
3. Start school on a 2-hour delay and run buses only on open and safe roads.
4. Run buses on main roads only. The Brimfield Transportation Department will determine which roads will be considered main roads.

Please be advised that under certain severe weather conditions, buses may not be able to reach specific areas. If this happens, and you are unable to transport your child to school due to safety concerns, your child's absence will be considered excused.

Please contact the school office if you wish to be added to all-calls which would include weather related closings or changes.

EXTRACURRICULAR ACTIVITY SCHOOL REGULATIONS

STUDENT ATHLETE CONCUSSIONS AND HEAD INJURIES

To comply with the protocols and by-laws established by the Illinois High School Association and the Illinois Elementary School Association we have developed the following protocol to manage concussions in school.

- Each student and the student's parent/guardian are required to sign a concussion information receipt form before participating in an interscholastic athletic activity.
- Any student who exhibits signs, symptoms, or behaviors consistent with a concussion in a game or practice shall be removed immediately from participation or competition at that time.
- The student may not return to that contest unless cleared by a physician licensed to practice medicine in all of its branches or a certified athletic trainer who is on site.
- Once removed, a student shall not return to practice or competition until written authorization is received from a physician licensed to practice medicine in all of its branches and the student's parents/guardians have signed a Post Concussion Consent Form. STUDENT AND FAMILY PRIVACY RIGHTS

As part of this act, all families will be notified via student handbook/newsletter before any directory is published giving names of students, addresses, and phone numbers. Parents can request that this information remain private and not available for publication. A directory published by the school district will be for family use and not sold for solicitation purposes.

FUNDRAISING

All groups/organizations requesting to conduct a fundraising activity must first have approval by the Administration.

EQUAL EDUCATIONAL OPPORTUNITIES AND SEX EQUITY

Equal educational and extracurricular opportunities are available to all students without regard to race, color, nationality, sex, sexual orientation, gender identity, ancestry, age, religion, physical or mental disability, status as homeless, immigration status, order of protection status, or actual or potential marital or parental status, including pregnancy.

No student shall, based on sex sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student or parent/guardian with a sex equity or equal opportunity concern should contact: Julie Albritton at 309-446-3366.

INTEGRATED PEST MANAGEMENT PLAN

The State of Illinois has mandated that Integrated Pest Management (IPM) programs be used in controlling insect pests in schools. IPM programs will include the use of a variety of pest management tools including non-chemical and chemical choices. District 309 has an IPM program, which incorporates building maintenance, sanitation, physical barriers, and pesticide application. If you wish, you may request prior notification two days in advance of any pesticide application. Call the school office if you would like your name on a notification list. We will make every effort to only make applications when students are not present. However, our pest management plan is not responsible for providing prior notification in instances where there is an imminent threat to health or property. Examples of such instances include pesticide applications where stinging or biting insects are posing a threat to student's health, or pesticide applications where insects may spread to numerous locations if immediate procedures are not taken to control them.

LOST AND FOUND

Lost articles will be turned into the office. Marking articles of clothing, books, and supplies will eliminate time wasted in identifying and searching for lost articles. All unclaimed articles will be disposed of at the end of each semester.

NON DISCRIMINATORY PRACTICES

Brimfield CUSD #309 does not discriminate on the basis of race, creed, national origin, sex, age, or handicap in any of its educational programs, activities, benefits, services, or employment practices under Title IX of the Illinois Sex Equity Rules and Handicap Laws. All courses/programs are offered without regard to race, color, national origin, sex, age, or disability. Concerns relating to potential violations of this policy should be directed to Superintendent 446-3349.

PUPIL PERSONNEL SERVICES

In order for a child to meet more successes than failures, it is sometimes necessary to seek special help. If a child shows signs of educational, physical, or social-emotional problems proper steps will be taken, and the child will be referred to the appropriate agency. Parents may be consulted before a referral is made and advise them of the process.

SCHOOL PICTURES

A professional photographer, contracted by the school district, will take pictures of each student on a designated date. A class composite picture will be taken. Parents are under no obligation to purchase these pictures. A picture re-take day will be scheduled for students who were absent. Students who are absent on the designated picture day will not be included in the class composite.

SAFETY PROGRAM (Policy 108.0)

The School District shall have a safety program promoting the safety of everyone on District property or at a District event. In order that the Board can monitor this goal's achievement, the Superintendent shall make regular reports to the Board containing relevant information.

The Superintendent or designee shall develop and implement a comprehensive safety and crisis plan incorporating both avoidance and management guidelines. The comprehensive safety and crisis plan shall specifically include provisions for: injury prevention; bomb threats, weapons, and explosives on campus; school safety drill program, tornado protection; instruction in safe bus riding practices, emergency aid; post-crisis management; and responding to medical emergencies at an indoor physical fitness facility. During each academic year, each school building must conduct a minimum of:

1. Three school evacuation drills (one with fire dept present),
2. One bus evacuation drill,
3. One severe weather and shelter-in-place drill.
4. A law enforcement drill (with county officers present).

In the event of an emergency that threatens the safety of any person or property, staff is encouraged to use any available cellular telephone. A school bus driver is prohibited from operating a school bus while using a cellular telephone, except: (1) during an emergency situation, (2) to call for assistance if there is a mechanical problem, (3) where a cellular telephone is owned by the School District and used as a digital two-way radio, and (4) when the school bus is parked.

CONVICTED CHILD SEX OFFENDER AND NOTIFICATION LAWS

State law prohibits a child sex offender from being present on school property or loitering within 500 feet of school property when persons under the age of 18 are present, unless the offender is:

2. Has permission to be present from the School Board, Superintendent or Superintendent's designee. If permission is granted, the Superintendent or Board President shall provide the details of the offender's upcoming visit to the Building Principal.

In all cases, the Superintendent, or designee who is a certified employee, shall supervise a child sex offender whenever the offender is in a child's vicinity.

If a student is a sex offender, the Superintendent or designee shall develop guidelines for managing his or her presence in school.

The Superintendent shall develop procedures for the distribution and use of information from law enforcement officials under the Sex Offender and Child Murderer Community Notification Law. The Superintendent or designee shall serve as the District contact person for purposes of this law. Non-staff members, as well as staff members who are not designated as information recipients, shall be referred to the law enforcement agencies for information regarding child sex offenders.

All contracts with the School District that may involve an employee or agent of the contractor having any contact, direct or indirect, with a student, shall contain the following:

The contractor shall not send to any school building or school property any employee or agent who would be prohibited from being employed by the District due to a conviction of a crime listed in 105 ILCS 5/10-21.9. The contractor shall obtain a criminal history background check before sending any employee or agent to any school building or school property. Additionally, at least quarterly, the contractor shall contact the local law enforcement authority where each employee or agent resides to determine if the employee is on the list of registered felons who have committed child sex offenses.

Information concerning sex offenders and the law may be found at: www.isp.state.il.us/sor

EMERGENCY CLOSING

If you are wanting to be added to our school emergency notification all-calls, please contact the school secretaries to be added.

SAFETY DRILLS

All students in the Brimfield School District receive periodic instructions concerning what to do in the case of fire, weather, or other emergency situations. If an emergency were to occur, students would perform without fear and panic. In the event of a severe storm approaching, children will be kept at school until the danger has passed.

STUDENT RECORDS/RECORD REQUEST

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript.

Parents/guardians or eligible students may have one or more scores on college entrance examinations included on the student's academic transcript. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.

3. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

6. The right to prohibit the release of directory information.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name
- Address
- Grade level
- Birth date and place
- Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
- Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
- Academic awards, degrees, and honors
- Information in relation to school-sponsored activities, organizations, and athletics
- Major field of study
- Period of attendance in school

Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.

7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent.

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the student's parent/guardian, or student who is 18 years of age or older, submits a written request that the information not be released without the prior written consent of the parent/guardian or eligible student. If you wish to exercise this option, notify the building principal.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

SOPPA – STUDENT ONLINE PERSONAL PROTECTION ACT

Annual Notice to Parents about Educational Technology/Vendors Under the Student Online Personal Protection Act

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district

1. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
2. Students engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of public domain documents must be provided.
3. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.
4. The fair use rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
5. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Email – The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the District. The District provides email to aid students in fulfilling their duties and responsibilities, and as an education tool.

1. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
2. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
3. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet domain. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
4. Any message received from an unknown sender via the Internet, such as spam or potential phishing emails, should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
5. Use of the District's email system constitutes consent to these regulations.

Internet Safety

Internet access is limited to only those acceptable uses as detailed in these procedures. Internet safety is supported if users will not engage in unacceptable uses, as detailed in these procedures, and otherwise follow these procedures.

Staff members will supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

7.10 E1 Exhibit – Student Authorization for Access to the District's Electronic Networks

Dear Parents/Guardians: (example letter)

Our School District has the ability to enhance your child's education through the use of electronic networks, including the Internet. Our goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. Students and their parents/guardians need only sign this Authorization for Access to the District's Electronic Networks once while the student is enrolled in the School District.

The District filters access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. If a filter has been disabled or malfunctions it is impossible to control all material and a user may discover inappropriate material. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow, and the School District respects each family's right to decide whether or not to authorize Internet access.

With this educational opportunity also comes responsibility. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource. Remember that you are legally responsible for your child's actions. If you agree to allow your child to have a network account, sign the Authorization form below and return it to your school.

Authorization for Access to the District's Electronic Networks Form

Students must have a parent/guardian read and agree to the following before being granted unsupervised access:

All use of the electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. **The failure of any user to follow the terms of the Acceptable Use of the District's Electronic Networks will result in the loss of privileges, disciplinary action, and/or appropriate**

legal action. The signatures at the end of this document are legally binding and indicate the parties who signed have read the terms and conditions carefully and understand their significance.

I have read this Authorization form. I understand that access is designed for educational purposes and that the District has taken precautions to eliminate controversial material. However, I also recognize it is impossible for the District to restrict access to all controversial and inappropriate materials. I will hold harmless the District, its employees, agents, or Board members, for any harm caused by materials or software obtained via the network. I accept full responsibility for supervision if and when my child's use is not in a school setting. I have discussed the Acceptable Use of the District's Electronic Networks with my child. I hereby request that my child be allowed access to the District's electronic networks, including the Internet.

I understand and will abide by the above Acceptable Use of the District's Electronic Networks. I understand that the District and/or its agents may access and monitor my use of the District's electronic networks, including the Internet, my email and downloaded material, without prior notice to me. I further understand that should I commit any violation, my access privileges may be revoked, and school disciplinary action and/or legal action may be taken. In consideration for using the District's electronic network connection and having access to public networks, I hereby release the School District and its Board members, employees, and agents from any claims and damages arising from my use of, or inability to use the District's electronic networks, including the Internet.

1.160 – Parent Organizations and Booster Clubs

(New: June 2021)

Parent organizations and booster clubs are invaluable resources to the District's schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the School Board welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District's name, a District school's name, or a District school's team name, or any logo attributable to the District provided they first receive the Superintendent or designee's express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

1. The organization's or club's name and purpose, such as, to enhance students' educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.
2. The rules and procedures under which it operates.
3. An agreement to adhere to all Board policies and administrative procedures.

4. A statement that membership is open and unrestricted, meaning that membership is open to all parents/guardians of students enrolled in the school, District staff, and community members.
5. A statement that the District is not, and will not be, responsible for the organization's or club's business or the conduct of its members, including on any organization or club websites or social media accounts.
6. An agreement to maintain and protect its own finances.
7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board's legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club's recommendation.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District's representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.
