May 29th- Aquatic Center Field Trip

May 30th- LAST DAY!!

Our Learning

This week we are creating our last Kindergarten Memories together. We will create a Memory Book and go visit the 1st Grade class. The kinders will also be getting a chance to show the preschool students everything they have learned this year, and introduce them to the Kinder classroom. We are going to wrap up our science unit on Plants and Animals, and get a chance to do some finishing art projects. Our volunteer Mrs. Ross will come see us one last time for the year on Thursday. This will be a busy week as we wrap up our year together. We will end our week by celebrating those Summer Birthday and have a blast!

Teacher's Note

- I cannot believe we are down to our last full week of Kindergarten! It has been such a fun year! Please let me know if you have any questions about the end of year activities!
