EDUCATIONAL PHILOSOPHY OF CALHOUN COUNTY SCHOOLS

The Board endorses the concept that the education of the young people is one of the most significant functions and responsibilities of our democratic society. The Board's responsibility is to provide an adequate educational environment in which each pupil, in terms of his individual characteristics, may develop his full potential to become a useful and responsible member of his home, community, and society.

The Board believes that academic freedom is essential to the achievement of the purposes of the school system. It acknowledges the fundamental need to protect teachers from censorship or restraint, which might interfere with their obligation to pursue truth in the performance of their classroom function.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the School principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the School to amend a record that they believe is inaccurate. They should write the School principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it is inaccurate. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the *School District* to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

FERPA also requires that Calhoun County School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, Calhoun County School District may disclose appropriately designated “directory information” without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Calhoun County School District to include this type of information from your child’s education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for football, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, colleges or companies that manufacture class rings or publish yearbooks.

In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses, and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent. ¹ (Military recruiters would only request information for high school students – probably only juniors and seniors.)

If you do not want Calhoun County School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by August 10, 2023. **(Opt –out form is on the back of the signature page.)** Calhoun County School District has designated the following information as directory information:

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Weight and height of members of athletic teams
- Degrees, honors and awards received
- Participation in officially recognized activities and sports
- The most recent educational agency or institution attended.

If you have questions on the guidelines on military recruiters' and colleges' access to information, please call the principal at your child's school.

PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA)

The *Protection of Pupil Rights Amendment* (PPRA) affords parents certain rights regarding our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("protected information survey") if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED)-

1. Political affiliations or beliefs of the student or student's parent;
2. Mental or psychological problems of the student or student's family;
3. Sexual behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;

7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

Receive notice and an opportunity to opt a student out of-

1. Any other protected information survey, regardless of funding;
2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Inspect, upon request and before administration or use-

1. Protected information surveys of students;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

Calhoun County School District will develop and adopt policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, and use of personal information for marketing, sales, or other distribution purposes. Calhoun County School District will also directly notify, such as through U.S. Mail or e-mail, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. Calhoun County School District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parent will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-5901

ACCEPTABLE USE POLICY*

Please read the following carefully before signing. This is a legal and binding document.

Introduction

Calhoun County School District has established a Local Area Network (LAN) for each school in the district and a Wide Area Network (WAN) that links all schools and makes access to the Internet and e-mail possible. The Internet allows staff, students, and occasionally others in the community, to explore thousands of libraries, databases, museums, and other sources of information; e-mail allows students to collaborate on school projects with students in other classes or schools or to communicate for special projects, with approved adults such as authors,

college professors, or legislators. Parents may also communicate with teachers or vice versa about student progress. E-mail may be used as a way to keep up with assignments for students who are absent. The networks, Internet, and e-mail allow teachers to collaborate with each other and to research lesson plans and materials to enrich lessons. The online lesson plans allow administrators to keep in close touch with what is being taught in the classroom. E-mail serves as a way to update staff and communicate on school issues in a timely manner. Teachers or administrators may use the Internet to take online courses for professional development or to earn college credits. Opportunities available increase every day.

Calhoun County School District complies with the Child Internet Protection Act (CIPA) by providing filtering services that block offensive content and also provides close supervision when students are using the Internet; however, the district cannot make an absolute guarantee that a student will view no inappropriate material. The district also complies with The Children's Online Privacy Protection Act (COPPA) which requires parental permission when individually identifiable information about a child is collected online that would allow someone to identify or contact a child. The district will release no such information, and students are prohibited from releasing such information. Students must have parental consent to use the Internet and must use the Internet responsibly.

Acceptable Uses

1. The computer networks in the Calhoun County School District have been set up in order to allow Internet access for educational purposes. This includes classroom activities, research activities, peer review of assigned work, and the exchange of project-related ideas, opinions, and questions via e-mail, message boards, and other means. All users are responsible for citing sources and giving credit to authors during the research process. Staff members are allowed access to school equipment outside of class hours for personal use subject to some restrictions (see staff handbook).
2. Students and other users will have access to the Internet via computers in the classrooms, libraries, labs, etc. when assigned or when they have received permission and are supervised.
3. Network users must respect resource limits and must delete old e-mails or other files that may take up excessive amounts of storage space.
4. Student use of the Internet is contingent upon parent/guardian permission in the form of a signed copy of this Acceptable Use Policy. Parents/guardians may revoke approval at any time.
5. Material created and or stored on the system is not guaranteed to be private. School officials or technicians may review the system from time to time to ensure that the system is being used properly. For this reason, students or staff members should expect that e-mails, material placed on Web pages, and other work that is created on the network may be viewed by a third party.
6. Network users are expected to adhere to the safety guidelines listed below.

Unacceptable Uses

1. The network may not be used to download, copy, or store any software, shareware, or freeware without prior permission from the school.
2. The network may not be used for commercial purposes. Users may not buy or sell products or services through the system without prior permission from the school.
3. Use of the network for advertising or political lobbying is prohibited.

4. The network may not be used for any activity, or to transmit any material, that violates United States or local laws. This includes, but is not limited to illegal activities such as threatening the safety of another person, downloading music, or violating copyright laws.
5. Network users may not use vulgar, derogatory, or obscene language. Users may not engage in personal attacks, harass another person, or post private information about another person.
6. Network users may not log on as another user or access others' files. "Hacking" or otherwise trying to gain access to another person's or organization's computer system is prohibited.
7. Network users may not access Web sites, newsgroups, or chat areas that contain material that is obscene or that promotes illegal acts. If a user accidentally accesses this type of information, he or she should immediately notify a teacher, librarian, school administrator, and/or network administrator.
8. Network users may not engage in "spamming" (sending an e-mail to more than 10 people at the same time) or participate in chain letters. The prohibition against "spamming" does not apply to personal information lists or school workgroups.

Consequences of Inappropriate Use

Inappropriate use, vandalism or tampering with computer systems or security systems, or any malicious attempt to harm or destroy data of another user of the Calhoun County School District network will result in disciplinary actions to be determined by school administrators and loss of computer and network privileges - temporarily or for the remainder of the school year depending upon the severity of the infraction.

Safety Guidelines

1. Never give out your last name, address, or phone number online.
2. Never agree to meet in person with anyone you have met online unless you first have the approval of a parent or guardian.
3. Notify a teacher, aide, or administrator immediately if you receive a message that may be inappropriate or if you encounter any material that violates this Acceptable Use Policy.
4. Parents of students should instruct them if there is additional material that they think it would be inappropriate for students to access. Calhoun County School District expects students to follow their parent's wishes in this matter.

*Prior to using the Calhoun County School District network or attached equipment, all users must read and sign this agreement. Parents or guardians of students must also sign and give their permission for this use. The requirement includes staff, students, parents, community members, workshop presenters, outside technical assistance people, and all others.

Students and parents must sign and return the appropriate use policy agreement on the signatures page of this handbook in order to use computers on the network in the Calhoun County School District.

Dear Parent or Guardian:

The Title I schools in the Calhoun County School District provide parents or guardians of their students with Staff Directories. The Directories have information about the school staff and their qualifications. If you have questions or want to discuss a school employee's qualification with the school, you may make an appointment with the principal of the school.

As described in the ESSA Legislation, you are entitled, at a minimum, to the following information:

- whether the teacher has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- whether the teacher is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived;
- the baccalaureate degree major of the teacher and any other graduate certification or degrees held by the teacher, and the field of discipline of the certification or degree; and
- whether the child is provided services by paraprofessionals and, if so, their qualifications.

You should also receive information from the school on your child/children's level of achievement in each of the state academic assessments in the form of a score report. You may wish to talk with your child's teacher, counselor, or principal to discuss details of the report.

Timely notification will also be sent to you if your child has been assigned, or has been taught for four or more consecutive weeks by a teacher who is not highly qualified.

If you have questions about any of the provisions addressed in this letter, please call the school or Kimberley Springer-Hill, the Director of Federal Programs, in the district office at 412-3152.

Educationally yours,

Kimberley Springer-Hill

ELIGIBILITY TO ATTEND CALHOUN COUNTY SCHOOLS

Age for Enrollment:

Pre-Kindergarten: A child must have attained his/her fourth birthday on or before **September 1** of the current year.

Kindergarten: A child must have attained his/her fifth birthday on or before **September 1** of the current year.

Grade One: A child must have attained his/her sixth birthday on or before **September 1** of the current year. Mississippi law requires that all children who have attained the age of 6 years before **September 1** must attend school. Children who have not reached the age of 17 prior to **September 1** must attend school. An attendance officer monitors enrollment and attendance of school age youth.

Documentation Requirements:

Each student must provide all required documentation for enrollment purposes before the first day of classes for the 2023-2024 school year or risk being withdrawn from school.

1. Each student or his/her parent/legal guardian must provide the student's certified birth certificate or other approved document of proof of age and must also provide the student's Mississippi Certificate of Compliance (121 Form) shot record.

2. According to Mississippi State Health Dept., beginning 2012-2013, all children entering the 7th grade will be required to have the Tdap vaccine. Any 7th grade student who does not complete this requirement will not be able to begin school until the requirement is met.

3. In order to establish a permanent, bona fide residence, the following requirements must be satisfied:

a. A student must attend school in the school district or school zone in which his/her custodial parent or legal guardian is a permanent, bona fide resident.

b. A parent can have no more than one true, permanent, bona fide residence. This residence is where the family actually lives. This means the dwelling, in which the family cooks, eats, sleeps, and holds family gatherings on a regular basis. It is sole or primary residence. Thus, temporary residences such as vacation homes, weekend homes, rental properties, etc. are not true residences and may not be used for registration and/or residency purposes. Homesteading property that is not the family's true, permanent bona fide residence does not satisfy the residency requirements and will not be honored under any circumstances.

c. This requirement does not prevent a custodial parent/legal guardian from commuting to work nor does it prevent the father/mother/caregiver from traveling out-of-state when his/her work requires him/her to do so, provided he/she returns home periodically and considers the home as his/her permanent residence.

d. Parents who elect to separate, divorce, or grant legal custody or guardianship for the purposes of residency will not be acknowledged, and their children must attend school in the school district and school zone of the custodial parent. Therefore, parents/legal guardians may not fulfill the residency requirements by sending their children to live with relatives or friends so they may attend the school of their choice.

4. Each student must be enrolled under his/her legal name by a custodial parent or legal guardian who is a permanent, bona fide, resident of Calhoun County.

- a. If a student is enrolled by a legal guardian or custodian, the caregiver must provide the school a CERTIFIED COPY of the COURT DECREE (or petition if pending) declaring the permanent district resident to be the legal guardian or custodian of the student and furthering declaring that the guardianship was formed for a purpose other than establishing residency for school district or school zone attendance purposes. The court decree must be signed by the chancery judge and filed in the county in which it was created. Custody or legal guardianship created for residency purposes will not be acknowledged and may not be used to establish a permanent, bona fide residence under any circumstances.
- b. For the purposes of residency and enrollment, custodial parents or legal guardians will be addressed as follows:
 1. Students must attend school in the school district and school zone of the custodial parent or legal guardian (except where permissible by Mississippi law).
 2. Students whose parents are legally divorced by court order or have never married, but have been granted physical custody, must attend school in the school district and school zone where the custodial parent is a permanent bona fide resident.
 3. A student whose parents are legally divorced by court order which grants physical custody shall attend school in the school district and school zone in which the parent who has been awarded custody for the majority of the school year is a permanent, bona fide resident. If no such period of physical custody has been awarded to either parent, the student must attend school in the school district and school zone where the parent with whom he/she first elects to live after the entry of such court order.
 4. Parents who elect to separate, divorce, or grant legal custody of guardianship to the purposes of residency will not be acknowledged, and their children must attend school in the school district and school zone of the custodial parent as outlined above.
 5. No affidavits will be accepted upon the enrollment date of August 1, 2011 for newly enrolled students of Calhoun County School District. However, students that have provided affidavits of residency prior to August 1, 2011 for enrollment purposes will be approved by completing the proper paperwork yearly in order to meet residency requirements.

5. When a new student transfers from another school, the parent/legal guardian should show a withdrawal form from the school previously attended.

6. To complete enrollment, all of the following requirements must be fulfilled:

- a. Each student must provide two current proofs upon enrollment in his/her custodial parent/legal guardian's name of a physical address of the student's bona fide residence within the district and appropriate local school zone.

Any one of the following documents:

- Filed homestead exemption form or current property tax form
- Property deed of the student's bona fide residence
- Home lease, typed rental agreement, or apartment rental agreement (with expiration date)

Any one of the following documents:

- Current utility bills (water, gas, electricity) that show physical or E911 address
- Current Automobile registration
- Current state or federal government documents (food stamps, SSI, IRS, Welfare, Medicaid, Medicare)

- b. Student is living with legal guardian and a certified copy of the Court Decree, or petition if pending, was received declaring the district resident to be the legal guardian of the student and further declaring that the guardianship was formed for a purpose other than establishing residency for school district attendance purposes (see items 3 a-d and 4 a-b for additional information.)

C. Each student who changes residency (moves) during current school year is responsible for notifying the school and providing two updated, current proofs of physical address in his/her parent/legal guardian's name and providing the school with current emergency contact phone numbers. (Because students must attend school in their zone of residency, school placement could change as a result of a move).

*Registration applications for new or returning students must be verified and approved by the residency committee before enrollment is complete.

**Residency must be verified and approved new documents provided at the beginning of each school year.

***At any time, the school district reserves the right to require additional documentation and verification at any time which may include the review of public records, home visits and any other means necessary to validate bona fide residency in the appropriate school zone.

****All residency determinations for school athletics/activities will follow guidelines as set by MHSAA. Enrollment eligibility DOES NOT ensure athletic eligibility.

7. When there is a change of residency, the student is responsible for providing documentation of the new address. When families move, school placement may change. Students are required to attend the school in their attendance area. To be considered for a bona fide change of residence, the facts of each case will be taken into consideration and decided among the members of the residency committee. For a change of residency to be considered bona fide, the following facts shall exist:

- The original residence must be abandoned as a residence. It shall either be sold, in the process of being sold, rented, or disposed of as a residence.
- If the original residence is not in the process of being openly advertised for sale or rent, the family shall have the utilities disconnected in the residence.
- The original residence shall not be used as a residence by any relative of the student except under certain, extreme situations which will be reviewed by the residency committee.
- The parent/legal guardian may not deed the original residence to a family member or close friend in order to "game" the system so they may be considered for residency in order to attend school in the school zone of choice.
- A bona fide change of residence will not be considered if parents are living separately, either permanently or temporarily, if the intention is only to attend the school zone of choice.
- A change of residence shall not be considered a bona fide change of residence if false information is presented for consideration.
- The residency committee shall conduct a comprehensive evaluation which may include home visits if it appears a bona fide change of residence has not been made.
- The residency committee reserves the right to issue a temporary, provisional enrollment if additional information regarding the bona fide move must be made. The investigation into the true, permanent residence will continue until the committee is satisfied all requirements have been met. If it is determined the move is not legitimate, the student may have to return to the school in his/her appropriate zone immediately.

* All registration applications for new or returning students must be verified and approved by the residency committee before enrollment is complete.

**All changes of residency determinations for school athletics/activities will follow guidelines as set by MHSAA. Enrollment eligibility DOES NOT ensure athletic eligibility.

8. Students who live outside of Calhoun County must apply by July 1st and pay annual tuition before the start of school of \$900 for the first child with each additional child in the family assessed \$50 less on a sliding scale (second child at \$850, third at \$800, and so forth.) Non-resident students enrolling for less than a full scholastic year will be assessed tuition on a prorated basis. If a student is withdrawn from school, tuition will be nonrefundable after the first 9 weeks of attendance. If withdrawn during the first 9 weeks of attendance, the refund will be prorated.

9. Students who were enrolled last year and whose address has not changed must verify continued residence at the same address. Students that have been requested to provide proofs of residency and have been in failure to comply with request before the first day of classes for the 2023-2024 school year will risk being withdrawn from their respective school and cannot return until these matters have been completed.

ADMISSION OF STUDENTS COMING FROM ALTERNATIVE SCHOOLS

Students who come from other districts and have been assigned to an Alternative School will automatically be placed in Alternative School when they are admitted to a Calhoun County school.

ADMISSION FROM NON-ACCREDITED SCHOOLS

The district does not accept students from schools or programs not accredited by the state or a regional agency without administering standardized or teacher-made test to determine placement. The assessment **may be** given within 30 days of student registration and the parent or legal guardian will be given a 5-day notice of the test administration date.

ADMISSION OF HOMESCHOOLED STUDENTS

The district does not accept students from schools or programs not accredited by the state or a regional agency without administering standardized or teacher-made test to determine placement. The assessment **may be** given within 30 days of student registration and the parent or legal guardian will be given a 5-day notice of the test administration date.

ADMISSION OF HOMELESS STUDENTS

When a child is determined to be homeless as defined by the Stewart B. McKinney Act, enrollment action in the best interest of the child shall be taken, pursuant to federal guidelines and Board policy.

ADMISSION OF ENGLISH LEARNERS (EL)

When a child is determined to be an English Language Learner as defined by Public Law 107-110, enrollment action in the best interest of the child shall be taken, pursuant to federal guidelines, under section 1112 (G) and 3302 of the Elementary and Secondary Education Act and Board Policy.

ADMISSION OF FOSTER CARE STUDENTS

Students identified as foster care students can only be enrolled or withdrawn from a public school setting by a child protective service representative.

WITHDRAWAL OF STUDENT

When a student transfers to another school, a parent or legal guardian must report to their child's school office to officially withdraw a student from school. The parent or legal guardian will receive official withdrawal papers from the school once all dues/fines have been paid; if applicable. Any special circumstances dealing with the withdrawal process will be reviewed by the Attendance Committee.

PLACEMENT, PROMOTION, AND RETENTION

Pre-Kindergarten

Pre-kindergarten students may be retained at the discretion of the administration, teacher, and parent.

Kindergarten

1. Placing of six-year-olds in kindergarten:
 - a. Six-year-old students eligible to attend first grade may be assigned to kindergarten upon parental request with consent of the elementary

principal. Reasons for such placement may include immaturity, developmental delays, and **disabling conditions** which in the opinion of the principal would render a kindergarten placement the most appropriate placement for the child. A letter explaining the rationale for the placement will be jointly signed by the parent(s) and the principal and filed in the student's cumulative folder.

- b. Six-year-old students eligible for first grade may be assigned to kindergarten within fifteen school days after enrollment based upon these criteria:
 1. The teacher's assessment of the child's performance and ability being so low within the readiness range that effective instruction and success in the first grade would not be feasible.
 2. Approval of such a transfer from first grade to kindergarten by the elementary principal.

A letter will be sent to the parent(s) as notification of the change in placement. A copy of the letter with other information such as samples of written work, checklists, etc. will be filed in the student's cumulative folder.

2. Retention of kindergarten students.
Kindergarten students may be retained based upon three criteria:
 - a. Failure to successfully complete the reading readiness curriculum, demonstrate minimum levels of skill in arithmetic and reading readiness, and pass diagnostic reading and math assessments.
 - b. Teacher recommendation for retention
 - c. Approval of the principal.

First -Fourth Grade Students

In order to be promoted from first to second grade, a student must successfully complete the first grade reading curriculum and receive a minimum grade of 70 in reading and mathematics. In order to be promoted from second grade to third grade, a student must successfully complete the second grade reading curriculum and receive a minimum grade of 70 in reading and mathematics. In order to be promoted from third grade to fourth grade, a student must successfully complete the third grade reading curriculum and receive a minimum of 70 in reading and mathematics. In order to be promoted from fourth grade to fifth grade, a student must successfully complete the fourth grade reading curriculum and receive a minimum of 70 in reading and mathematics.

Fifth-Eighth Grade Students

In grades 5-8, non-disabled or non-limited English-proficient students who fail in two or more academic subjects (English, mathematics, science, social studies, and reading where offered) will be retained. Fifth through eighth grade students who **score a performance score of level 1 or level 2** on the MAAP test may be considered for promotion/retention by an internal review team and will be referred to the school's teacher support team.

Note: Federal guidelines will be followed concerning the retaining or promotion of an English Language identified student.

Senate Bill 2347 Literacy-Based Promotion Act, beginning in the 2014-2015 school year, a student scoring at the lowest achievement level in reading on the established state assessment for 3rd grade will not be promoted to 4th grade unless the student meets the good cause exemptions for promotion.

Note: Students who don't pass 8th-grade math will be considered for promotion/retention by an internal review team.

ADVANCED PLACEMENT and DUAL ENROLLMENT CLASSES

The CCSD DUAL ENROLLMENT PROGRAM offers high school students the opportunity to take college courses from Northwest Mississippi Community College while still enrolled in high school. If successfully completed, Dual Enrollment courses count for Carnegie Units toward a high school diploma and Credit Hours toward a college degree. (Note: Credit Hours are transferable for students who don't attend NWCC after graduation.)

Tuition for dual enrollment classes is set by NWCC. A limited number of scholarships are available from the district.

To be considered for participation:

1. Fill out an online application for admission to NWCC at www.northwestms.edu. This step must be completed on or before **April 1** of the school year prior to school year during which you intend to participate. Note: This deadline is firm. Also note: For students already admitted to NWCC, there is no need to submit another online application.

2. See your high school counselor to submit a paper application on or before **May 1** of the school year prior to school year during which you intend to participate. Note: This deadline is firm.

Advanced Placement (AP) courses offer high school students, if successfully completed, Carnegie Units toward a high school diploma. Students who participate in AP courses are required to take end-of-course AP exams. If successfully completed, AP exams may allow students to skip freshman level courses in college.

Tuition for each AP course exam varies, as well as cost for each book. These expenses must be covered by the student.

To be considered for participation in an AP course, students must have approval for the school principal and counselor.

Grades earned for Dual Enrollment and AP courses will be computed in each student's overall GPA and multiplied by a factor of 1.1.

****Note:** Course titles vary from school to school. Some Advanced Placement courses may not be available in all schools.

| DAY 2 | 2 nd and 4 th blocks |
| DAY 3 | MAKEUPS |

EXEMPTIONS

Students, 5th through 12th grade, including seniors, who take exams, will be exempt from the final exams only, if the following criteria are met in each class: an A average or above with no more than 3 absences per semester, a B average with no more than 2 absences per semester, and a C average with 1 absence per semester. All absences either excused or unexcused will count including doctor's notes. However, school business days are not to be included towards student exemptions. A report card indicating each student's accomplishments will be issued four times during the school year at nine week intervals. Report cards go out on the Wednesday following nine weeks test week. If the report card indicates failing or unnecessarily low grades, it will be advisable for the parent to schedule a conference with the teacher involved in order to attain proper corrective measures. (See "Contacting School Personnel" on page xiii.)

Grading procedures for each class will be sent home at the beginning of the year. Grades for PE, Band and Chorus will not be included in GPA. Semester exams will be comprehensive. Exams will be given in grades five through twelve. The exam will be counted as 10% of the semester grade. Points will not be taken off as a form of academic discipline.

ATTENDANCE ABSENCES EXCUSES

Regular attendance is the basic pre-requisite to success in school. Both the parent and the student should strive for perfect attendance. Each day missed breaks the learning process and becomes a lost opportunity.

****Each student must be present for 63% of his or her *individual instructional day* as fixed by the local school district for each school in order to be considered in full-day attendance. For further information on this requirement, please see your school principal or school counselor.

If the investigation leads to suspicious conduct, then the investigation must continue until the allegation is dismissed as unfounded or that there are sufficient facts to lend credibility to the charges.

While an investigation may not prove absolutely that sexual behavior has occurred between a staff member and a student, other inappropriate conduct such as telephone calls, emails and text messages of an inappropriate personal nature between the staff member and a student are grounds for dismissal. This does not include occasional school-related calls, emails, or text messages for which there is a legitimate reason. If an investigation reveals information giving the principal or superintendent a reasonable basis to believe that sexual involvement occurred between any employee and a student under the age of 18, the principal or superintendent must report it to the district attorney and dismissal of the employee will take place. This requirement is mandatory.

Note: False allegations of improper conduct will have serious consequences.

Confidentiality

In dealing with members of both the student body and staff, the right of confidentiality for both the complainant and the accused will be respected consistent with the school's legal obligations, and with the necessity to investigate allegations of misconduct and to take corrective action when this conduct has occurred.

TOBACCO, ALCOHOL, DRUGS AND LOOK-A-LIKE

The Calhoun County School District will participate in the Drug-Free Schools and Communities Act of 1986. The district has made a commitment to provide a drug-free environment for students and faculty. Tough, clear, anti-drug policies have been adopted and are consistently enforced. The use and/or possession of tobacco products, including electronic cigarettes, are prohibited in Calhoun County Schools and on school property. Any student, who intentionally sells, gives, possesses, uses or is under the influence of narcotics or has drug paraphernalia on school

property, including buses, shall be (1) suspended, and/or placed in alternative school, and/or expelled from school and (2) reported to the appropriate law enforcement for possible legal action. Refer to section **suspension, expulsion, and/or alternative school** for disciplinary actions.

QUESTIONING AND SEARCHES BY SCHOOL OFFICIALS

Searches

Students in the district have the right to privacy and security against arbitrary invasion of their personal property by school officials. However, the Board of Education must maintain an atmosphere conducive to the pursuit of its educational goals, including a limited right to search (including canine searches) students' personal belongings, when there is a reasonable suspicion, or is necessary to preserve the good order and discipline of the school. Lockers shall be opened or other searches conducted by not less than two members of the professional staff.

Anyone is subject to being searched, photographed or videotaped on entrance to school property.

Questioning

School administrators and teachers have the right to question students regarding their conduct and/or the conduct of others. In regard to students' alleged actions, except where the alleged actions would constitute a criminal offense, the right against self-incrimination does not exist.

LAW ENFORCEMENT INVOLVEMENT

Calhoun County School District (CCSD) has partnered with the Calhoun County Sheriff and the Calhoun County Sheriff's Office (CCSO) to place three School Resource Officers (SRO) in the schools, one in each city. The SROs which are certified deputies, work under the direction of the county sheriff and are responsible for overseeing all illegal/criminal investigations, assisting with school safety, and maintaining order among all students, staff, and visitors at each campus. Since the authority of city and county police extends to school property, other law enforcement agencies could be asked to assist the CCSO if circumstances warrant such action.

ALTERNATIVE PROGRAM

The Calhoun County Alternative Program, located at Calhoun City High School. Assignment to the alternative program is made by a screening committee or an IEP committee based on the student's needs. Students who come from other districts and have been assigned to Alternative School there will automatically be placed in Alternative School when they are admitted to Calhoun County Schools. Students are transported to and from their home schools. In extenuating circumstances, schools may require parents to transport students to and from alternative school. The usual assigned period of stay at the alternative program is four weeks. The Alternative School Committee may assign students a longer period of stay due to more serious offenses. In addition, students may stay longer if they have failed to demonstrate good behavior and work habits. Students returning to the regular program will have a behavior contract, which allows immediate reassignment to the alternative program if they fail to maintain good behavior. Further information is available on request. Students assigned to the Alternative School and miss 5 or more unexcused absences may be referred to the Discipline Committee for an expulsion hearing.

WEAPONS

Students may not carry on school property any knife, a blackjack, a metal pipe or pole, firearms, or any other weapon, or "look-alike" thereof, or any device or object which may be used to inflict bodily harm, including bombs or their integral parts, nor shall they carry or display a firearm in the area immediately adjacent to the school. As set out in the Mississippi Code Section 97-37-17, the possession of a weapon on school property will be either a misdemeanor or a felony and will be reported to law enforcement officials and the student will be subject to appropriate discipline. Refer to section **suspension, expulsion and/or alternative school** for disciplinary actions.

DRESS CODE

Appropriate clothing for school is simple, comfortable, and practical. It does not distract from the focus on learning. The administrators of the district recommend the following:

Voluntary Uniform:

Students should wear pants or skirts of khaki colored fabric with a t-shirt, sweatshirt, or polo style shirt in school colors. T-shirts in school colors will be sold at each school at a reasonable cost.

STAFF RESPONSIBILITY

Every CCSD employee is the direct representative of the administration and, as such, has the authority and responsibility to carry out the policies and regulations of the school district. Failure on the part of the student to recognize and respect the authority of all faculty and staff members will be dealt with severely by the administration.

MISSISSIPPI SCHOOL SAFETY ACT OF 2001 Miss. Code Ann. §§ 37-3-81, 37-3-83, 37-11-53, 37-11-54 and 37-11-55

The School Safety Act of 2001 is cumulative and in addition to the school district's existing authority regarding discipline of students. Pursuant to the Act, the school district has adopted policies and procedures that recognize the teacher as the authority in classroom matters regarding the school district's written discipline code of conduct.

In the event the teacher removes a student who, in the professional judgment of the teacher, is disrupting the learning environment, and the removal is approved by the principal, the student may not be returned to the classroom until a conference has been held with the student's parent, guardian or custodian. During the conference, the disruptive behavior will be discussed and agreements reached that no further disruption will be tolerated. The conference may be in person, by telephone, by e-mail, or by other written communication.

Among other provisions, this act provides that a student 13 years of age or older may be subject to automatic expulsion on the third occurrence of habitually disruptive behavior during a school year. (Students under age 13 may be subject to expulsion for such conduct pursuant to other school policies and procedures.)

The term "disruptive behavior" means conduct of a student that is so unruly, disruptive or abusive that it seriously interferes with a school teacher's or school administrator's ability to communicate with the students in a classroom, with a student's ability to learn, or with the operation of a school or school-related activity and which is not covered by other laws related to violence or possession of weapons or controlled substances on school property, school vehicles or at school-related activities. Such behaviors include, but are not limited to: foul, profane, obscene, threatening, defiant or abusive language or action toward teachers or other school employees; defiance, ridicule or verbal attack of a teacher; and willful, deliberate and overt acts of disobedience of the directions of a teacher.

The term "habitually disruptive" refers to such actions of a student which cause disruption in a classroom, on school property or vehicles, or at a school-related activity on more than two occasions during a school year, and to disruptive behavior that was initiated, willful and overt on the part of the student and which required the attention of school personnel to deal with the disruption.

After the second instance of behavior that is determined by the principal or designated administrator to have seriously interfered with the school environment, the parents/guardians will be contacted to help develop a behavior modification plan for the student.

DISCIPLINE PLAN

1. A parent, guardian or custodian of a compulsory-school-age child enrolled in the school district shall be responsible financially for his or her minor child's destructive acts against school property or persons.
2. A parent, guardian or custodian of a compulsory-school-age child enrolled in the school district may be requested to appear at school by the school attendance officer or an appropriate school official for a conference regarding acts of the child specified in paragraph 1 of the subsection, or for any other discipline conference regarding the acts of the child.

3. Any parent, guardian or custodian of a compulsory-school-age child enrolled in a school district who refuses or willfully fails to attend such discipline conference specified in paragraph two of this section may be summoned by proper notification by the superintendent of schools or the school attendance officer and be required to attend such discipline conference.
4. A parent, guardian or custodian of a compulsory-school age child enrolled in a public school district shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses

***Buses will not travel on hazardous roads.**

Automobiles

Students' cars may be used for transportation under the following conditions:

1. Students must register these vehicles in the principal's office. In order to register the vehicle a student must present a valid drivers' license and show proof of insurance. Walking Students

As students walk to and from school, they are expected to observe the same disciplinary standards as when on the school grounds. In relation to passing citizens, students should be courteous and respectful. Safety practices should be strictly observed. Students should look cautiously for passing vehicles before attempting to cross the street.

CALHOUN COUNTY SCHOOL FOOD SERVICE POLICY

The school food service program is operated under the direction of the Calhoun County School Board. This program is an integral part of the total education program and is governed by the same principles and type of control as any other division of the school. The school food service program is operated under the federally funded National School Lunch Act and the Child Nutrition Act; therefore, the school food service program is subject to all federal and state regulations.

The school food service director is responsible for the enforcement of the federal and state regulations and has technical supervision of the school cafeterias. The food service director has responsibility for the direct supervision of the cafeteria staff and shares the responsibility of ensuring that all federal, state, and local regulations applicable to the school's food service are implemented and administered daily. The teachers are responsible for maintaining order in the school cafeteria and are solely responsible for the conduct of the students. Cafeteria staff members have no authority to discipline students while in the school cafeteria.

Outside vendors/merchants/restaurant owners/individuals WILL NOT be allowed to make meal deliveries to the students or staff at any CCSD campus. Students and staff will not be allowed to bring outside logos or vendor packaging into any cafeteria. This includes bottled or canned beverages and drinks in company cups. These same rules apply to any student or staff who brings lunch from home.

The goal of the school's food service program is to provide the students attractive and nutritious meals in an atmosphere of efficiency, cleanliness, and warmth. The food service program is providing at least one-third of the student's daily nutritive requirements making it possible for every pupil to have an adequate lunch.

 2. There is an **\$10.00** charge limit assigned to reduced and full-paid accounts. Charging a reimbursable meal will result in a negative balance on the student's account until funds are added to the account. A reimbursable meal of the student's choice will be served to students until the **\$10.00** charge limit is reached.
 3. Charge notes will be sent home with students who have a negative account balance from the cafeteria manager. Calls and/or emails will be sent to parent(s)/guardian(s) in attempt to collect money.
 4. Once the charge limit is reached, the student will be served a low-cost alternate reimbursable meal consisting of a sandwich, fruit and a carton of milk.
 5. Children with Disabilities that have reached the charge limit and will be served an alternate meal will have access to a meal safe to consume.
 6. When a student brings money, that money will first be applied to the purchase of a reimbursable meal; any remainder money will then be applied to negative balances on the student's account.

7. Any unpaid charges at the end of the school year will be added to the student's fees list and will roll over to the next school year.

- C. Charging will not be permitted after May 1st of the current school year to allow adequate time to collect student account balances.
- D. Parents/Guardians may be reported to Child Protective Services at the discretion of the manager and/or school food service director.
- E. Parent(s)/guardian(s) are strongly encouraged to register for a free account on the school meal online payment center, myschoolbucks.com.

STATE OF MISSISSIPPI, RULE ON SALE OF COMPETITIVE FOODS

On February 22, 1985, the State Board of Education passed the following policy pertaining to the selling of foods in competition to the National Food Service Programs:

To ensure that children are not in the position of having to decide between non-nutritious and nutritious foods immediately before or during the meals service period:

No food items will be sold on the school campus for one (1) hour before the start of any meal services period.

The school food service staff shall serve only those foods which are components of the approved Federal meal patterns being served (or milk products) and such additional foods as necessary to meet the caloric requirements of the age group being served.

With the exception of water and milk products, a student may purchase individual components of the meal only if the full meal unit also is being purchased.

Students who bring a lunch from home may purchase water and milk products.

CALHOUN COUNTY SCHOOL WELLNESS POLICY

Federal Public Law (PL108.265 Section 204) states that by the first day of the 2006 school year beginning after June 30, 2006, all schools must develop a local wellness policy that involves parents, students, representatives from the School Food Authority, School Board, school administrators, and the public. The Local Education Authority (LEA) will establish a plan for measuring implementation of the local wellness policy. The Calhoun County School District has adopted a wellness policy (Board Policy JG) and is committed to providing a school environment that enhances learning and development of lifelong wellness practices.

ASBESTOS SURVEILLANCE OF ALL SCHOOL BUILDINGS

As part of an annual notification, we are informing all persons of their option of reviewing the asbestos management plan, which would include documentation of any changes of asbestos containing materials in these schools. To provide continuous management of the asbestos in our schools, all asbestos containing materials (ACM) are inspected every six months by a qualified engineering firm. Any changes in ACM are recorded in a surveillance report as a part of the management plan. A three-year re-inspection has been performed and filed with the Mississippi Department of Education. A copy of surveillance and re-inspection reports, along with a copy of the management plan, is located in the principal's office at each school, in the district office, and with the LEA Asbestos Designee.

PARENTAL INVOLVEMENT AND FAMILY ENGAGEMENT

The school district shall be in compliance with Title I regulations requiring parental involvement in the school system's planning and implementation of the Title I compensatory education programs which affect children enrolled in the school district. Such parental involvement shall include, but is not limited to, conferences between parents and teachers and assisting parents in home training and direct work with their children. A public meeting of the parents involved in Title I shall be held annually and shall meet federal regulations affecting parent participation. In addition, the school shall provide proper information to parents concerning their children and shall keep these parents adequately informed of their children's progress, needs, and individual objectives.

District Parental Involvement Policy

It is the policy of Calhoun County School District to use all appropriate means of keeping parents and community members informed about school events and programs. The district seeks to understand parental/community attitudes and aspirations. Some of the ways in which the Board of Education tries to inform the public include making its meetings and records open to the public except as provided by law where such meetings pertain to individual personnel and other classified matters. Public announcements provide opportunities for input to the five-year plan, the school district's budget, Federal Programs, and others. An annual meeting for the review and planning for Federal Programs is also publicly announced. School wide Title I projects are planned in cooperation with parents and each school develops its own involvement policy. The following components make up Calhoun County's District Parental Involvement Policy:

- convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform and explain to parents the school's participation in Title activities, its requirements, and their right to be involved; furthermore, annual meeting shall give parents the opportunity to plan, review, and voice ideas of improvement of the schools' and district's Parental Involvement Policy;
- offer a flexible number of meetings, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement;
- involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs under this part, including the school parental involvement policy and joint development of the school-wide program plan; and provide parents of participating children (a) timely information about programs under this part; (b) school performance profiles and their child's individual student assessment results, including an interpretation of such results; (c) a description and explanation of the curriculum in use at the school, the forms of assessment used to measure student progress, and proficiency levels students are expected to meet; (d) opportunities for regular meetings to formulate suggestions, relating to the education of their children if such parents so desire; and (e) timely responses to parents' suggestions; and if the school-wide program plan is not satisfactory to the parents of participating children, submit any parent comments on the plan when the school makes the plan available to the local education agency;
- each school served under this part shall jointly develop with parents for all children served under this part a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards;
- each school served under this part will support parents with materials and training on how to monitor a child's progress and work with educators to improve the performance of their children as well as information on how parents can participate in decisions relating to the education of their children. The district will educate teachers, pupil services personnel, principals and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between home and school;

- when appropriate, the school shall coordinate and integrate parental involvement programs and activities with Head Start, public preschool programs and other programs, and to the extent feasible and appropriate activities.

Available communications media are used to further inform the public of the programs, problems, planning, and activities of the school district. Alternate means of communication are provided, if needed, for parents for whom English is a second language. A grievance procedure has been established for public complaints. Written complaints are kept on file in the district office. Parents review the Parent Involvement Policy each year and suggest changes or revisions. However, you may contact Kimberley Springer-Hill in the district office (662.412.3152) at any time to suggest changes or revisions. Parents are welcome and are encouraged to volunteer. Contact the principal to find out how you can help.

ENGLISH LEARNERS

The mission of the Calhoun County School District (CCSD) is to meet the needs of all students by providing challenging learning experiences in a collaborative, concerned community committed to producing life-long learners. In compliance with Public Law 107-110, *Every Student Succeeds Act*, CCSD has established a plan that addresses not only the English proficiency and academic education of the EL students but also, the emotional, physical, psychological, and cultural aspects of a student's adjustment in a new culture. Students identified as EL as defined by the law shall receive English Language tutoring services as required under section 1112 (G) and 3302 of the Elementary and Secondary education Act and Board Policy. Service for students is determined individually based on the Home Language Survey, completed at the time of student enrollment and the research-based English Language Proficiency Test, as mandated by the Mississippi Department of Education. For more information, call Kimberley Springer-Hill at (662) 412-3152.
