About our school

Established in 1990, Dunbar has an arts-infused curriculum where art, music, dance, and drama are incorporated into core classes. We have a wide variety of fine arts classes, and our core classes are rigorous and prepare students for college and career. We have team sports: basketball, track, soccer, and volleyball with plans for football during the 2024-25 school year. Our teachers are experts in their areas with a passion to help students achieve their goals. Dunbar students, both past and present, have tremendous school pride because Dunbar Magnet is truly a special place where students have endless opportunities to thrive. #DunbarDoesItBEST
