<b>Description</b>	<p>The Huron ISD is collaborating with local districts to help evolve their MICIP work away from siloed, building-led work into true, comprehensive, district improvement plans. We also seek to help local district teams integrate their MTSS efforts into their MICIP. Please bring a district team and join us for this collaborative opportunity for shared learning as well as time to dive into your local data, looking for underlying causes for gaps, while exploring intervention options.</p> <p>We will create a basic data packet with your school's EWI charts and selected reports from MISchoolData. You are welcome to bring additional local data as well, and we encourage you to bring laptops so you can work within the MICIP platform and/or look up other publicly available data.</p>
