Purpose

The purpose of the Paris City Schools Certified Evaluation Process is to:

1. Improve student learning
2. Improve the overall instructional program to provide for educational success of students
3. Motivate personnel to a higher level of performance
4. Identify and promote effective teaching
5. Improve the school district's credibility with the community
6. Provide training for evaluators to assist in improving their instructional leadership
7. Provide information for use in creating a staff development program
8. Provide information to be used in awarding contracts

Overview of Certified Personnel Evaluation System

Each of the components of the certified evaluation process is detailed throughout the plan, beginning with the table of roles below. Preschool teachers will participate in the TPGES but will do so using preschool indicators. Teachers participating in the Kentucky Teacher Intern Program (KTIP) will follow the KTIP standards and process. (*KTIP Program Suspended 19-20 school year. New Teachers will be provided with a mentor teacher and follow the non-tenured Certified Personnel Evaluation Plan). See also **Appendix A**.

Some roles within the above categories may be identified as Alternative Settings due to unique factors within the roles. Those roles will be identified at the beginning of each year and explained to staff in those roles within the first 30 calendar days after reporting for employment. An example of a role that would qualify under Alternative Setting is the role of in-school suspension teacher.

Evaluators may complete a summative evaluation in any year with any certified employee when deemed necessary even if it is not the evaluation cycle year. This is done by the evaluator informing the evaluatee of the summative year outside of the cycle in writing.

The rest of this Certified Evaluation Plan will describe in greater detail the standards and processes by which the above roles will be evaluated.

The Kentucky Framework For Teaching With Specialist Frameworks For Other Professionals

The Kentucky Framework for Teaching is designed to support student achievement and professional practice through the domains of:

Framework for Teaching

Planning and Preparation
Classroom Environment
Instruction
Professional Responsibilities

Specialist Frameworks for Other Professionals

Planning and Preparation
Environment
Delivery of Service
Professional Responsibilities

The Frameworks are included in the Appendix section of this document (Appendix B-G). The Frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four domains of the framework. Performance is rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also consider how educators respond to or apply additional support and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence:

- Professional Growth Planning and Self-Reflection
- Observation/Workplace Visits conducted by certified supervisor observer(s)

Local District Decision:

- Assessment data including classroom, benchmark, and state level.
- Examples of effective communication with administration, colleagues, students, & families.
- Other evidence of student learning
- Other evidence deemed appropriate by the evaluator.

Products of Practice/Other Sources of Evidence:

Teachers may also provide additional evidence to support assessment of their own professional practice. The evidence should yield information related to the teacher's practice within the domains. Please see possible examples below.

- Student achievement and growth data
- Team-developed curriculum units
- Lesson plans
- Communication logs
- Student data records
- Student work
- Records of student and/or teacher attendance
- Student formative and/or summative course evaluations/feedback
- Minutes from PLCs
- Teacher reflections and/or self-reflections
- Teacher interviews
- Teacher committee or team contributions
- Parent engagement surveys
- Video lessons
- Engagement in professional organizations
- Action research
- Other: sources of evidence determined with the collaboration of teacher and administrator that uniquely supports educator practice of effectiveness for the content and grade level.

All components and sources of evidence related to supporting an educator's professional practice will be completed and documented to inform the Overall Performance Category.

All Summative Ratings will be recorded and uploaded in the District-approved technology platform or CEP Folder.

Assignment of Primary Evaluator:

The immediate supervisor will assign the primary evaluator for each certified staff member assigned to his/her location by September 1st of each year. Late hires, after September 1st, will have an evaluator assigned within the first 30 days of employment.

Serving Dual Roles:

Educators serving dual roles shall be evaluated on the job role as determined by the evaluator.

Professional Practice For All Non-Administrative Certified Roles In School Level Positions

Professional Growth Planning and Self-Reflection

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection (**Appendix H-M**). In collaboration with the administrators, evaluatees will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection.

Reflective practices and professional growth planning are iterative processes. The evaluatee (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

- All teachers and other professionals will participate in ongoing self-reflection specifically through the professional growth, implementation, and evaluation process each year.
- All teachers and other professionals will document their evidence on district approved forms.
- All teachers and other professionals, in collaboration with and with approval by their evaluator, will complete their Professional Growth Plan within the first 30 instructional days after reporting for employment for each school year.
- Throughout the school year, all teachers and other professionals will reflect upon the progress and impact of the plan on their professional practice and modify the PGP as appropriate, after collaborating with his/her evaluator.
- All teachers and other professionals will summatively reflect on the degree of goal attainment within their PGPs and implications for next steps.

No less than one full formal observation shall be conducted in the year of hire. The teacher's summative cycle begins the following school year.
- If a returning teacher experiences an extended absences/leave that impact the ability to meet the timeline, refer to Schedule on page 20 of this CEP.

Evaluation Cycle – TPGES & OPGES Roles

Observation/Workplace Visits

The observation process is one source of evidence to determine teacher effectiveness that includes supervisor observation for each certified teacher. Supervisor observations will use the same instruments. The supervisor observation will provide documentation and feedback to measure the effectiveness of a teacher's professional practice. Only the supervisor observation will be used to inform a summative rating. The rationale for each type of observation is to encourage continued professional learning in teaching and learning through critical reflection. Mini observations by the principal may be unannounced and do not require a pre-observation conference.

Models

The observation model for tenured employees on a 3-year summative cycle must fulfill the following minimum criteria:

- A minimum of three observations/workplace visits (one each year of the cycle) conducted by the evaluator.
- Final observation/workplace visit is conducted by the supervisor and is a full observation/workplace visit consisting of a full class, lesson, or event (for other professionals).
- Evidence of observation/site-visit will be documented.
- Observers may conduct two mini observations/workplace visits of approximately 20-30 minutes each in the first two years of the summative cycle. Observers may choose to expand these mini sessions to full observations/workplace visits.

The observation model for non-tenured employees on a one-year summative cycle must fulfill the following minimum criteria:

- A minimum of two observations/workplace visits (one full session each semester) conducted by the supervisor.
- Evidence of observation will be documented.

Observation Conferencing

Observers will adhere to the following observation conferencing requirements:

- Pre- and post-conferences must be conducted for all formal observations (full); however, pre-conferences may take place face-to-face or electronically while post-conferences must take place face-to-face.
- Pre-conferences must take place no less than one instructional day prior to the observation.
- Conduct observation post conference within five working days following each observation.

Observation Schedule

Observers will adhere to the following observation/workplace visit schedule:

- Observations/workplace visits may begin after the evaluation training takes place within the first 30 calendar days after reporting for employment.
- During the summative year, the following timeline must be met:
 - The final, full observation must occur by April 30th.
 - A minimum of one (1) full observation/workplace visit shall be conducted by the supervisor (by April 30th) for any teacher or other professional hired who reports to work with less than one hundred forty (140) instructional days remaining in the school year.

- Exceptions to the timeline:
 - In extenuating circumstances in which a teacher or other professional who is on a continuing contract and meets the following criteria, the evaluator with approval from the Superintendent/Designee may extend the summative cycle by one (1) extra year and allow the summative evaluation data to be used from the previous year(s) in the summative cycle:
 - Is in the last year of the summative cycle.
 - Misses more than half of the instructional days during the school year for approved leave per district policy.
 - The decision to extend the summative cycle to an extra year will be documented in writing and included in the employee's summative evaluation documentation.
 - Evidence of observation/workplace visit will be documented.
 - The Superintendent/Designee may grant permission to extend the summative cycle by an extra year on a case-by-case basis if an extenuating circumstance exists that does not meet the above criteria.
 - The decision to extend the summative cycle to an extra year will be documented in writing and included in the employee's summative evaluation documentation.
- All evaluatees will have the opportunity to submit a written statement in response to the summative rating and that response will be included in the official personnel record.

Observer Certification

All evaluators must successfully complete the initial certified evaluation training per KRS 156.557 which requires a minimum of six (6) hours annually of EILA-approved training. This includes training in:

- effective observation and conferencing techniques
- in providing clear and timely feedback
- in establishing and assisting with a professional growth plan
- in summative decision techniques

Evaluators must meet CEP requirements prior to conducting a formative or summative evaluation. If a supervisor has yet to complete the Initial Certified Evaluation Training, the district will provide the following supports:

- Observation data provided by a substitute observer is considered a valid source of evidence only if the supervisor is present in the observation.
- In cases where the principal has not completed Initial Certified Evaluation Training and is therefore unable to conduct observations during the observation window, the superintendent/designee will provide a certified evaluator(s) to help conduct observations/evaluations until the principal obtains certification. The uncertified principal must accompany the certified evaluator(s) and passively participate in all aspects of evaluation.
- The district will provide training support for district administrators, principals, and assistant principals currently employed in those roles annually to ensure evaluator calibration as required per KRS 156.557.

Rating Professional Practice

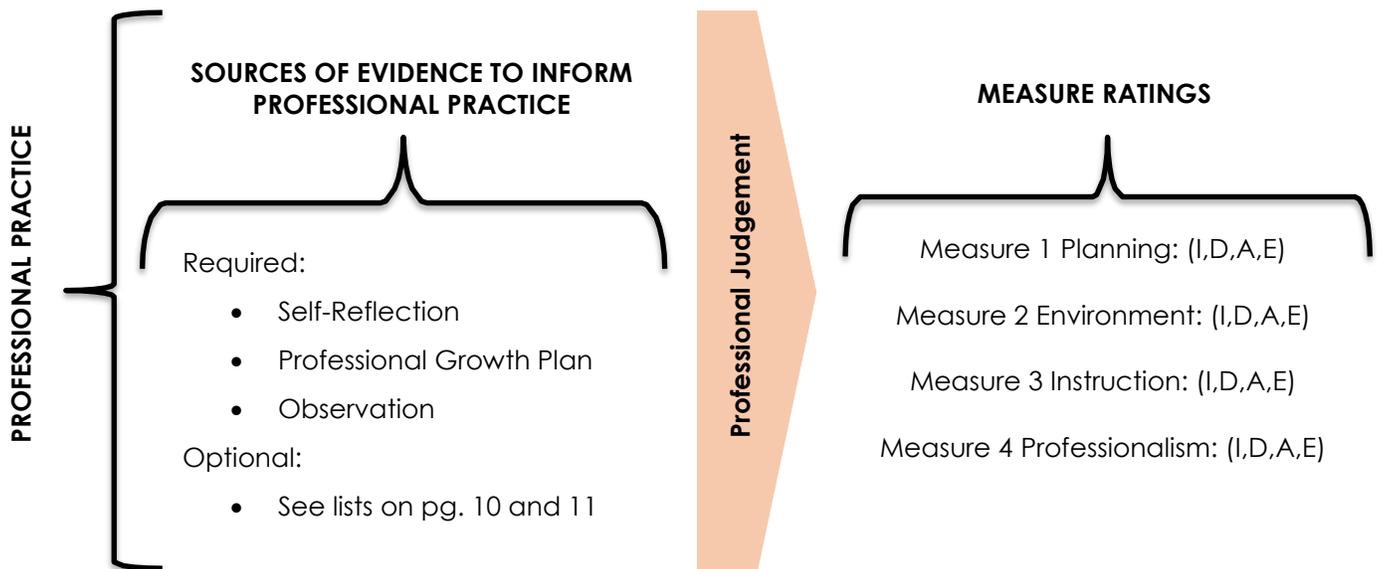

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of the summative evaluation year. The Overall Performance Category is informed by the educator's ratings on the four performance measures. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains and decision rules that establish a common understanding of performance thresholds to which all educators are held.

Rating Performance Measures

The Kentucky Framework for Teaching and Specialist Frameworks stand as the critical rubrics for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors will organize and analyze evidence for each individual educator based on these concrete descriptions of practice.

Supervisors and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each performance measures at the culmination of an educator's cycle.

- Provide a rating for each measure based on evidence and professional judgement.

Determining the Overall Performance Category

An educator's Overall Performance Category is determined using the following steps:

- Determine individual measure ratings using sources of evidence and professional judgment.
- Apply District Decisions Rules for determining an educator's overall performance measure rating.

See **Appendix N-Y** for Evaluation Forms

Professional Growth Plan and Summative Cycle

Based on the overall Professional Practice rating, the type of Professional Growth Plan and the length of the summative cycle is determined using the chart below. It is required that the Overall Performance Category process be used to determine an educator's effectiveness.

Professional Standards for Educational Leaders (PSEL)

The next section explains the evaluation standards and processes used for all school principals. With the changes in the proposed amended 704 KAR 3:370, the Professional Standards for Educational Leaders (PSEL) will be used to evaluate principals and assistant principals in the 2020-21 school year.

Professional Standards for Educational Leadership (PSEL)

The Professional Standards for Educational Leadership are designed to support student achievement and professional best-practice through the standards of:

1. Mission, Vision, and Core Values
2. Ethics and Professional Norms
3. Equity and Cultural Responsiveness
4. Curriculum, Instruction and Assessment
5. Community of Care and Support for Students
6. Professional Capacity of School Personnel
7. Professional Community for Teachers and Staff
8. Meaningful Engagement of Families and Community
9. Operations and Management
10. School Improvement

Included in the Professional Standards (**Appendix Z**) are Performance Indicators that provide examples of observable, tangible behaviors that provide evidence of each standard. The Professional Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement.

Evidence supporting a principal's professional practice will be situated within one or more of the ten (10) standards. Performance will be rated for each standard according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is projected that most principals will maintain an Accomplished rating but will occasionally have exemplary performance on standards at any given time. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also consider how principals respond to or apply additional support and resources designed to promote student learning, as well as their own professional growth and development.

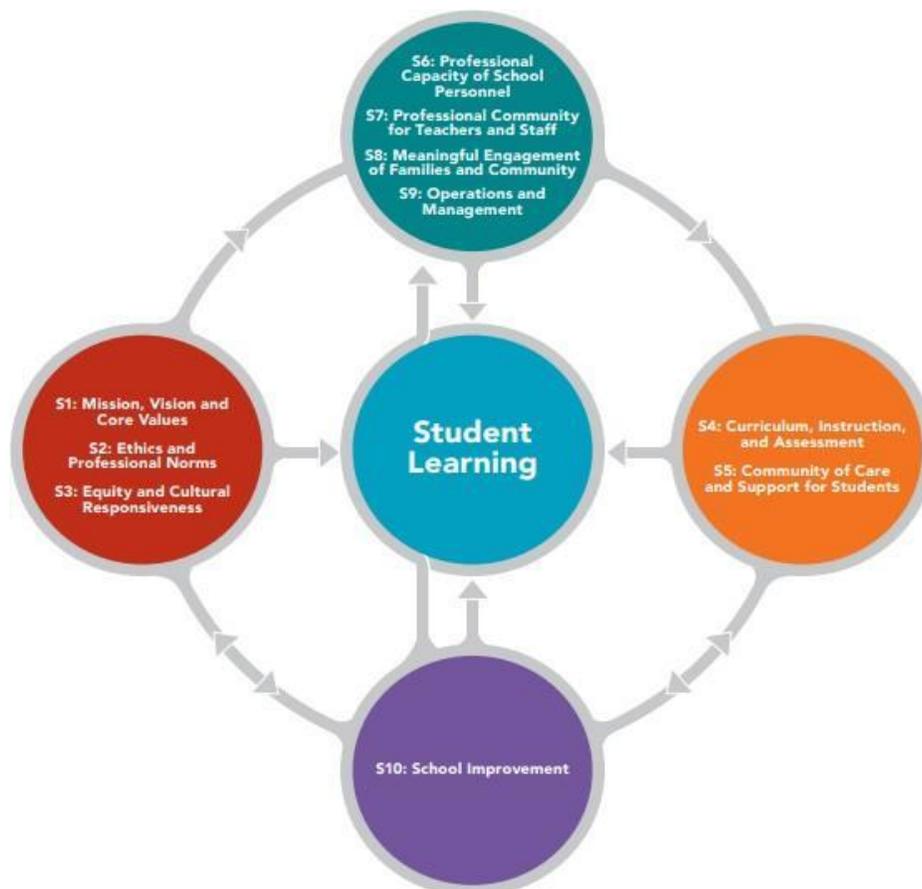

Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual principal performance. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities. Contextual variables may also impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

- Required Sources of Evidence
 - Professional Growth Planning and Self-Reflection
 - Site-Visits
 - Working Conditions Goal – IMPACT Survey

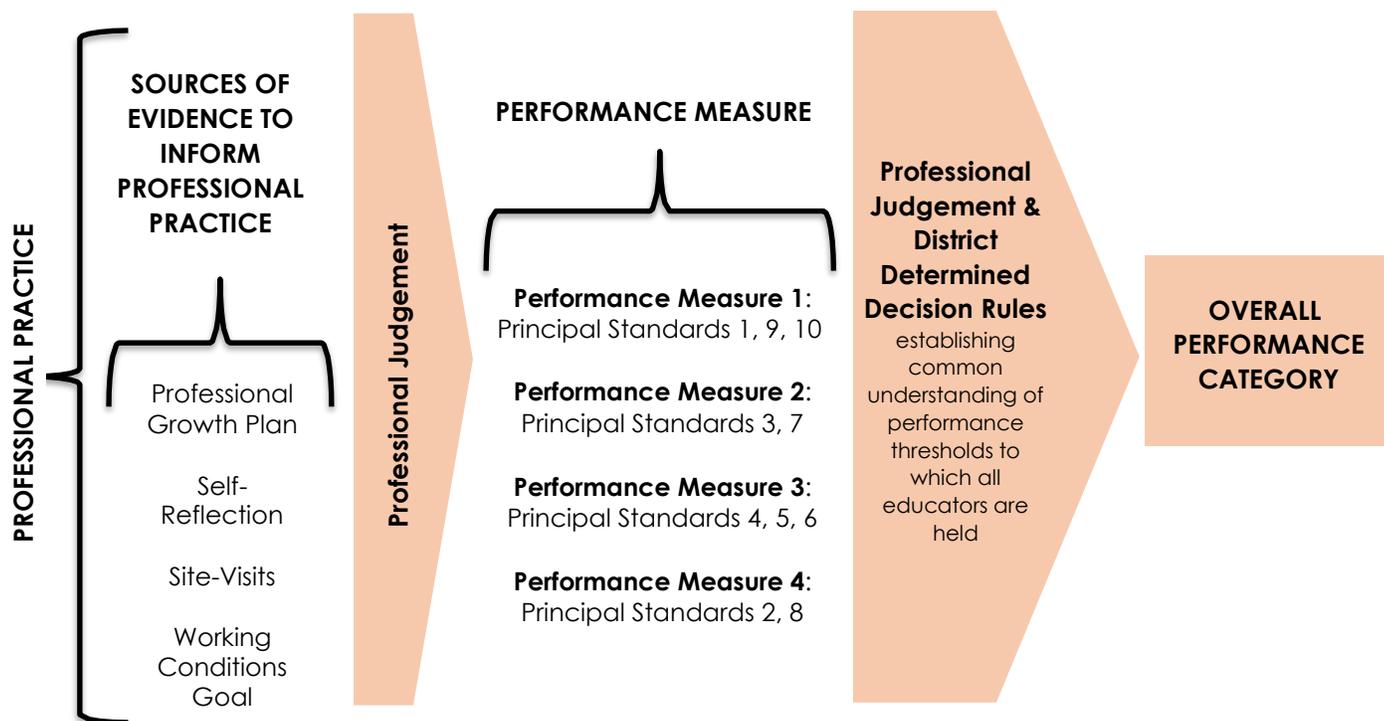

Evaluators may use the following categories of evidence in determining overall ratings:

- Observations/workplace visits conducted by certified supervisor/observer(s)
- Self-reflection/professional growth plans
- Student achievement and growth data
- Program Review evidence
- Communication logs
- Student data records
- Student work
- Records of student and/or teacher attendance
- Student formative and/or summative course evaluations/feedback
- Minutes from PLCs
- Teacher interviews
- Teacher committee or team contributions
- Parent engagement surveys
- Engagement in professional organizations
- Action research
- Other: sources of evidence determined with the collaboration of principal and evaluator that uniquely supports educator practice of effectiveness for the school level.

Overview and Summative Model

The following graphic outlines the summative model for the Principal Professional Growth and Effectiveness System.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a Principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment must be grounded in the common framework identified: The Professional Standards for Educational Leaders.

Professional Growth Planning and Self-Reflection

*** (completed by principals & assistant principals)

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement. **See Appendix AA**

Administrators

- Individual growth plans will be developed annually. This plan may be an enrichment or improvement plan, based on the performance rating of the formal evaluation and/or other formative data.
- The summative evaluation for administrators will be completed by June 15.
- A copy of the summative evaluation report will be given to the administrator.
- The summative evaluation report will be placed in the administrator's file in the Central Office.

Required for all Administrators

- All principals will participate in self-reflection and professional growth planning each year.
- All assistant principals will participate in self-reflection and professional growth planning each year.

- Additional Conferences may be held as deemed necessary to monitor the PGP process.
- All dates are tentative based on the adjustment of the school calendar.

Site Visits: Completed by supervisor of principal – formal site visits are not required for assistant principals

Site visits are a method by which the superintendent/designee may gain insight into the principal's practice in relation to the standards. During a site visit, the superintendent will discuss various aspects of the job with the principal and will use the principal's responses to determine issues to further explore with the faculty and staff. Additionally, the principal may explain the successes and trials the school community has experienced in relation to school improvement.

Required for all Principals: Conducted at least twice each year

Site visits will be conducted twice annually after the completion of the PGP. The first will take place prior to the end of the 2nd grading period. The second will occur during the 3rd or 4th grading periods (assuming four (4) grading periods per year). For principals hired on or after the 60th instructional day, a minimum of one (1) site visit must occur (see chart above),

During the follow-up conference with the principal, the superintendent/designee will review all Principal Performance Standards and give feedback about each standard.

Optional: The Principal may ask the Superintendent to give specific feedback about a particular standard.

Conferencing:

A minimum of three (3) will take place between Evaluator and Evaluatee throughout the year.

Working Conditions Goal

Principals are responsible for setting a 2-year Working Conditions Growth Goal (**Appendix BB**) based on information included in the results of the most recent IMPACT Kentucky Survey. The principal's effort to accomplish the Working Conditions Growth Goal is a powerful way to enhance professional performance and, in turn, positively impact school culture and student success. This goal is inherited by the Assistant Principal(s).

Required for all Principals

- Developed following the completion of the IMPACT Kentucky Survey.
- Minimum of one 2-year goal.

Working Conditions Goal(s)

Principals are responsible for setting one (1) 2-year Working Conditions Goal that is based on information in the most recent IMPACT Kentucky Survey and any additional relevant data which may include school level documentation, etc. The principal, in collaboration with the superintendent/designee, will review results from the IMPACT Kentucky Survey.

1. Principals will identify an IMPACT survey question that indicates a need for growth and will then identify additional IMPACT survey questions that may have similar results.
2. Once these are identified, the principal will connect these questions to one or more of the Principal Performance Standards. (Crosswalk provided in appendix).
3. Next, the principal will develop a Working Conditions Goal statement that will identify a measurable target that the principal will set and will be addressed during the next 2 school years.
4. Next, they will complete the Action Plan that will prioritize the steps the principal will take to accomplish the established goal.
5. During a mid-year review, principals can choose from one of the following:
 - a. Engage staff in informal conversations that provide feedback on the progress of meeting the WCG.
 - b. Conduct a sample survey using identified questions from IMPACT (3-5) as an interim measure of growth. Principal will use results to determine if growth has occurred according to the WCG.
 - c. Use results for a variety of sources to linked to IMPACT Data questions that support growth according to the WCG
6. Ongoing reflection and modification of the strategies when needed.

Products of Practice/Other Sources of Evidence

Principals/Assistant Principals may provide additional evidence to support assessment of their own professional practice. This evidence should yield information related to the principal's/assistant principal's practice within the domains.

Principals can choose from the following:

- SBDM Minutes
- Faculty Meeting Agendas and Minutes
- Department/Grade Level Agendas and Minutes
- PLC Agendas and Minutes
- Leadership Team Agendas and Minutes
- Instructional Round/Walk-through documentation
- Budgets
- EILA/Professional Learning experience documentation
- Surveys
- Professional Organization memberships
- Parent/Community engagement surveys
- Parent/Community engagement events documentation
- School schedules
- Other

Rating Overall Professional Practice

Superintendents are responsible for determining an Overall Performance Category for each principal at the conclusion of their summative evaluation year. Using the sources of evidence for principals/other building level administrators, evaluators will use professional judgment to determine a rating for each standard. Next, the evaluator will use the following decision rules for determining the Overall Performance Category. It is required that the Overall Decision Rules (below) be used for determining an educator's Overall Performance Category.

	PLANNING	ENVIRONMENT	INSTRUCTION	PROFESSIONALISM
<u>PRINCIPAL</u> Professional Standards for Educational Leaders (PSEL)	<u>Standard 1:</u> Mission, Vision, & Core Values <u>Standard 9:</u> Operations & Management <u>Standard 10:</u> School Improvement	<u>Standard 3:</u> Equity & Cultural Responsiveness <u>Standard 7:</u> Professional Community for Teachers & Staff	<u>Standard 4:</u> Curriculum, Instruction & Assessment <u>Standard 5:</u> Community of Care and Support for Students <u>Standard 6:</u> Professional Capacity of School Personnel	<u>Standard 2:</u> Ethics & Professional Norms <u>Standard 8:</u> Meaningful Engagement of Families & Community

*Use District decision rules to make overall performance category.

Determining the Overall Performance Category

Each Performance Measure will be rated Exemplary, Accomplished, Developing, or Ineffective based on the final Kentucky Principal Performance Standard(s) rating using the PSEL rubric added to the appendix after its release on May 30,2020

District Level Certified Personnel - Evaluation Cycle

The Paris City Schools Certified Personnel Plan is individualized in that each employee is evaluated independently of all other employees including observations, conferences, reporting, and planning for professional growth. Each cycle will include formative observations, summative evaluation, self-reflection, and a professional growth plan (**Appendix EE**). Formative observations will consist of formal (announced) and informal and (unannounced) observations. The Primary Evaluator for district certified personnel will be the superintendent.

Instructions for Completing Corrective Action Plan

A corrective action plan (**Appendix GG**) may be written at any time during the school year but shall be written if evaluatee receives an "Ineffective" or "Does- Not- Meet" on the Final Summative Form. Corrective action plans shall be reviewed continuously until performance is judged to consistently meet the evaluation standards. Review of corrective action plans shall be documented on the corrective action form.

The Corrective Action Plan is a plan developed by the evaluator, at any time during the school year, in collaboration with the evaluatee, when documented unsatisfactory performance is observed, or when a "Does-Not-Meet" rating is indicated on any Final Summative Evaluation Standard. Specific assistance and activities are identified in the Corrective Action Plan and progress towards identified goals is monitored. The evaluator and the evaluatee shall specifically identify and list, in writing:

1. Corrective Action Plan goals and objectives
2. Procedures and activities designed to achieve Corrective Action Plan goals and objectives.
3. Targeted dates for appraising the evaluatee's improvement towards the identified Corrective Action Plan goals and objectives.

Employees who fail to make sufficient progress to meet Evaluation Standards identified for them we be subject to further corrective action and/or consequence. Continued lack of progress could result in employer action or termination.

A corrective action plan may be developed for two purposes: (1) when improvement is needed to correct critical deficiencies in performance criteria that cannot wait for the formal observation and summative conference; (2) after the formal observation and/or during the summative evaluation conference. When the CAP is developed during the summative conference, no more than 3 or 4 specified areas should be denoted for improvement at any given time. When the evaluatee meets specified areas, another area may be added.

Recommended Procedures

1. Identify the specific domain(s) or standard(s) from the Final Summative Evaluation Form that has an "Ineffective" or "does-not meet" rating assigned.
2. Select the stage of professional development that best reflects the evaluatee's level.
 - O - Orientation/Awareness
 - A - Preparation/Application
 - I - Implementation/Management
 - R - Refinement/Impact
3. List Growth Objective(s) Goals. The growth objectives must address the specific domain(s) or standard(s) rated as "Ineffective" or "does-not-meet" on the Summative Evaluation document. The evaluatee and the evaluator work closely to correct the identified weakness(es).
4. Identify and design specific procedures and activities for the improvement of performance. Include support personnel, when appropriate.
5. List specific target dates and appraisal methods used to determine improvement of performance. Exact documentation and record keeping of all actions must be provided to the evaluatee.
6. Documentation of all reviews, corrective actions, and the evaluator's assistance must be provided periodically (as they occur) to the evaluatee. Evaluators must follow the local district professional development growth and evaluation plan process, and procedures for implementing an Individual Correction Action Plan.

Appeals Process

Local Appeals Panel

1. The district shall establish a panel to hear appeals from summative evaluations as required by KRS 156.557.
2. The panel shall consist of three (3) certified employees. Two members of the panel shall be elected by and from the certified employees of the district. The two (2) alternates shall be decided from the same election. The certified employees receiving the third and fourth number of votes shall be the two (2) alternates. The local board of education shall appoint one (1) certified employee and one (1) alternate certified employee to the panel.

The immediate family shall include father, mother, brother, sister, husband, wife, son, daughter, uncle, aunt, nephew, niece, grandparents, cousin and corresponding in-laws.
