From the Principal: (Steve Campbell)

This past Wednesday was our third and final All Day Guiding Coalition Meeting for the school year. As most of you know, the Guiding Coalition is a group consisting of department chairs and site administrators who meet regularly to plan events and training which keep our school moving forward. The group covered topics including the moves many of us face this summer, our next steps in school improvement, and schoolwide expectations including tardies, hats, hoodies/buds/phones, etc. We began building the calendar of events for next year and began our "year 8 professional development plan", which means we as a school have stayed focused on the same improvement plan for 7 years and counting. The day capped off with a short tour of the new building.

I appreciate the members of the Guiding Coalition and the leadership they provide. I think the work this group does is unique and one of our most powerful tools in creating ongoing school improvement. Because of our PLC collaboration, and other structures such as our Guiding Coalition, we are prepared to take on the challenges that lie ahead of us without losing our identity as a school. Thank a GC member today! Have a great weekend.

Sincerely,

(Steve Campbell, Principal SMHS)
