

# Physical Science Syllabus

## Physical Science

Topics Included: Matter and it's Interactions, Energy Transformation, and Wave Technologies

**Main Goals:** The main goal of this program is to provide a solid foundation in the study of matter and it's interactions. Through many activities students will demonstrate how theory is applicable in laboratory situations. All students will develop good methods of problem solving and proper laboratory techniques.

1

### GRADING %:

TESTS - 60%  
DAILY WORK - 40%

2

### HOMEWORK

NO REGULAR ASSIGNED  
HOMEWORK - ONLY  
UNFINISHED CLASSWORK!

3

### MAKE-UP/ICU

ALL MAKE-UP WORK WILL BE  
PUT IN ICU. IT IS THE STUDENT'S  
RESPONSIBILITY TO KEEP UP  
WITH MISSING WORK!

### Needed Supplies:

- 3-Ring Binder
- College Ruled Paper
- Pencils

- Colored Pencils
- Calculator
- Glue Sticks
- \$15 class/lab fee

### For the Teacher:

- Paper Towels
- Kleenex
- Clorox Wipes
- Printer Paper

## Classroom Policies

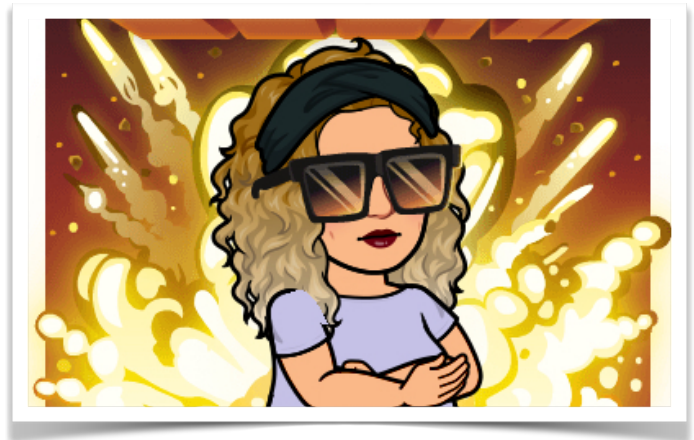

Please understand that these policies are to help ensure your success.

**Attendance:** Please make your best effort to be in attendance at school. Physical Science builds upon itself. If you miss the basics, then you can fall behind quickly.

**Extra Credit Assignments:** Nonexistent. I do not give extra credit assignments. I give multiple opportunities throughout the year to succeed in class. Please take advantage of those opportunities.

**Cell Phone:** Cell Phones are NOT allowed in class. Each student will have a numbered pocket to place their cellphone upon entry into class. If a phone is seen in class, it is an automatic office referral.

**Restroom Policy:** Six (6) passes each Nine Weeks. Any unused passes can be turned in before report card grades are due for five (5) bonus points each pass on any graded assignment (exception: Semester Exams).

**“At the end of the day, the most overwhelming key to a child’s success is the positive involvement of parents.” - Jane D. Hull**

### FINAL NOTE FOR PARENTS

Please know that your child will be in good hands in my classroom. I love my job and try my best to show love and joy to each child. Please know that not only do I look at teaching the science standards each year, I also look at preparing my students for high school. I teach respect, responsibility, and accountability to my students. While I understand they are still young, I try my hardest to make sure they are responsible in keeping up with assignments and deadlines on their own. I will hold them accountable for their actions. Please help me in this endeavor as we watch these bright children transition into young men and women. Please do not hesitate to contact me if you have any questions.
