Informational: Given the changing demographics in the U.S., there is a critical need to diversify the teaching force so students are exposed to teachers from all underrepresented groups. A diversified teaching staff can improve all students’ achievement and success. As an institution with admissions policies that provide access for all, Rowan offers opportunities for higher education to students of varying ages, interests, and aspirations. In partnership with schools, districts, and NJDOE, the College of Education continues to develop pipelines with a focus on diversity, equity, and inclusion. MOCHA will leverage existing initiatives launched by Rowan’s College of Education and NJDOE, however MOCHA will be unique in its focus on recruiting and developing men of color to become teachers in the state of New Jersey. These new teachers will serve as role models for minority and non-minority students and will have the opportunity to effectively teach diverse students with similar backgrounds and experiences. Research shows having diverse teachers improves students’ academic outcomes. Students who participate in exams such as these are better prepared for the real world as their skills in participating in high stakes testing necessary in many college, military and career settings are improved. A half-day exam schedule helps organize a student's time in school and focuses attention on what needs to be achieved for the day.

CONSTRUCTION UPDATES:

Safety Grant: The District is ready to move forward on plans for Safety Vestibules for each of the buildings. Drawings were received from Garrison Architects to complete the vestibules and install Access Control Systems for the doors and Security Cameras. Using the Camden County Educational Services Cooperative Pricing system, a quote has been received to complete the brick-and-mortar portion of the vestibules that is within the funding limit of the Safety Grant Award. We will look for additional funding sources to complete the project at a later date but are moving forward with this critical project so that we can get this into the construction material supply chain.

Informational: ROD and Non-ROD Grants

District Consultant Frank Domin has established contact with and conducted meetings with the official at the School Development Authority (SDA) charged with the Paulsboro projects that are jointly funded by the 2015 Bond Referendum and SDA. All parties are reviewing and familiarizing themselves with the projects since they have been dormant for approximately four years.

The first task is to assemble all of the required documents to apply for reimbursement from SDA for projects that are at the 65% completion level. When this information is submitted to and approved by SDA, reimbursement will be paid to the district.

The second task is to determine what facilities upgrade are included in the application to SDA. It appears that some of the items in the application to SDA were not part of the original scope of the bond referendum. On the other hand, some items included in the original scope of the project seem to have been “de-scoped” which removed them from funding consideration by SDA. Mr. Domin, working with representatives of SDA and School Architect Robert Garrison has resolved these concerns. All parties now agree that the project is now just as it was presented to the public for the 2015 bond referendum.

The SDA official emphasized the importance of beginning work on those items that all parties agree are within the scope of the projects. The work needs to be completed quickly for two reasons. First, the projects are critical repairs to district facilities. Second, to protect the funding available by SDA. Mr. Domin is now working with the School Architect and Camden County Special Services School District in order to restart projects. It seems likely that within a month or two, the Board of Education will be able to award contracts for projects such as heater controls, drainage projects, etc. so that the work begun in 2015 can move forward.

June 2022 Board Update

There are no updates. We are waiting on the State to review our last submission.

ESSER II Funding. District wide HVAC improvements. The contractors are scheduling work to begin immediately following the last day of school. Some of the equipment may be

available sooner than expected as cement pads are scheduled to be poured to support the large HVAC units when the HVAC units arrive.

ESIP Energy Savings Improvement Program. The Request for proposals were advertised on May 1 and opened on June 14th. We received one proposal from Schneider Electric. Their proposal includes utilizing projected energy savings, available ESSER II funding and submitting for competitive NJ State Clean Energy Grants. Their preliminary Savings Plan (ESP) projects \$4.2 million in necessary facility improvements, provide an estimated \$165,000 of annual energy saving, and provide an estimated \$45,000 positive cash flow over the 20-year ESIP term.

With the Boards acceptance of the proposal, Schneider Electric would begin Phase one; An audit of the facilities and present a final proposal for approval. At this point the State requires that the Board complete an independent audit of the financial proposal before it could be approved. This would be the beginning of Phase Two where Schneider Electric would bid out the work and manage it through completion. We will have a motion to approve Schneider Electric as the District Energy Services Company. **Recommend approval to submit the following: (Attachment)**

MOTION: To approve Schneider Electric as the District ESCO (Energy Services Company) as per RFP submission dated June 14, 2022. In addition, request approval to enter into the Investment Grade Audit (IGA) contract with Schneider Electric.

Informational: In the past, waste removal services were provided by the Borough of Paulsboro at no cost to the District. However, beginning April 1, 2022 the Borough has decided to discontinue those services largely because they have selected another vendor; and cost are too prohibitive to continue to allow the school district free services. Therefore, the District solicited quotes from several waste management firms to provide services for the 2022-2023 school year. Waste Management provided the most cost efficient services.
