HOW TO USE THE RESULTS OF THIS FORM:

Count the number of items you were able to answer with a "Yes" response.

Consult the table on page 4 for information relative to state of readiness for school.

Number of Items Answered "Yes"	Approximate State of Readiness for school	Possible Action
40 to 43	Readiness reasonably assured	School Entrance
35 to 39	Readiness very possible	School Entrance
31 to 34	Readiness questionable	Consultation with teacher and/or Principal Desirable
26 to 30	Readiness doubtful	Consultation with teacher and/or Principal
25 or below	Readiness unlikely	Consultation with Teacher and/or Principal highly

The combination of skills adding up to readiness should be carefully considered. School should generally be a pleasant experience for children. A child's readiness for school is an extremely important part of a good educational experience.

THINGS TO REMEMBER ABOUT LEARNING READINESS

- 1 Learning occurs most effectively when the child has reached a psychological and physical state of readiness to learn.
- 2 The stage of readiness is not effectively predicted by the child's chronological age.
- 3 Learning forced upon a child before he/she is ready often results in unsatisfactory feelings about school and self images.

Not all children at 5 years of age are ready for school. Many children each year are pressured to learn material for which they are not ready. This often results in early failure, and may be the beginning of a long series of unhappy school experiences. If a child is thought not to be ready for school, we want to help parents understand what we believe to be the reasons. We hope this form has been of help to your in arriving at a better understanding of your child's need to be ready for school and the important this will have on a successful kindergarten experience.

1 Why is so much emphasis being place on the first year of school?

The first year is the foundation upon which the remainder of an individual's education is built. Success breeds confidence and self-assurance; failure leads to frustration, uncertainty, and a feeling of inadequacy. Children who begin an academic program before they are ready may suffer for the rest of their lives because of this one mistake in timing.

2 What is meant by "School Readiness"?

School readiness means preparedness of the whole child to master school tasks. Readiness depends upon physical, neurological, emotional, and social maturation as well as upon previous learning. The "ready" child learns and usually experience joy in his/her learning.

3 What is maturation? What is meant by maturational levels of development?

Maturation is the process of orderly growth according to the individual's own biological "time table". Physical, intellectual, emotional, and social development follows a sequential pattern which is determined by genetic factors. Maturation can take place without learning, but learning must always be preceded by maturation.

4 Is too much importance being attached to maturation?

No! Maturation is an essential ingredient of all readiness. We can neither PRODUCE IT, HURRY IT, nor IGNORE IT. The only wise alternative patience for it to develop.

5 Failure is a part of life. Why is there so much concern about over placement?

Failure does help children learn to develop strength to cope with disappointment and frustration. However, today's child will encounter ample failure. Its is estimated that as many as 50% of the nation's six year old children are over placed in the first grade. The most common outcome of over placement is academic failure. The intellectually gifted child may achieve academic success and fail in social, emotional, or physical development. The school, along with parents, is concerned with optimal development of the whole child.

6 Is it true that children vary greatly in the rate of development?

Yes! Normal first grade children may vary as much as two years in their stages of development. Generally girls develop more rapidly than boys. At age six the average boy is six month behind the average girl. However, one must not assume that all girls develop faster than boys. We speak here only of averages.

7 My child has been examined and I am told he is developmentally young. What did I do wrong?

Nothing. This is not reflection on you as a parent, nor on him/her as a child. Every child has his/her own rate of development.

8 If there are three summer months before school starts, what can I do to prepare my child so he will be ready.

Time is the chief ingredient of maturity. However, there are important things which parents can do. Grant your child as much independence as possible; give him freedom to explore, experiment, and discover; allow him opportunity to make decisions to make mistakes without undue reprimand; provide him with a variety of objects which he/she can handle, take apart and rebuild; assist him in acquiring words, concepts, and meaning for object, places, persons, and ideas in his/her world.

9 If my child is immature now, how is he going to mature:

Activities that seem to be play actually are mental and physical exercises. Remember, play is children's work. It is not how fast one goes through school that counts most. The quality of one's learning is the vital consideration.

10 Won't my child be terribly disappointed if he is not placed with his friends?

As educators and parents, we have the responsibility of providing what is best for our children. We certainly wouldn't let a child ride a bicycle in the street before he could control his balance....even if it did disappoint him. How can we be less intelligent when thinking of his education. Most important is the parent's attitude. If you, as parent, accept the placement, feel it is best, and support it, the child will more readily accept it.

Federal Code: 25: CFR 32.3

"It's the responsibility of the federal government to provide comprehensive education programs and services for Indians and Alaska Natives."

Federal requirements direct schools to assess the English language proficiency of students. The process begins with determining the language(s) spoken in the home of each student. BIE has contracted with WIDA (World Class Instructional Design and Assessment) to provide English Learner Assessments and Supports identified in this Home Language Survey.

BIE Mission Statement:

"Provide quality education opportunities from early childhood through life in accordance with the Tribes' needs for cultural and economic well-being..."

School Mission Statement:

"With critical thinking skills and tools, we will seek richer quality of life"

Purpose: The responses to the home language survey will assist in determining if a student's proficiency in English should be tested. This information is essential in order for the school to provide adequate instructional programs and services. As parents or guardians, your cooperation is requested in complying with these requirements.

Please respond to each of the questions listed as accurately as possible.

For each question, write the name(s) of the language(s) that apply in the space provided. Please do not leave any question unanswered.

If you have any questions you have the right to share them before your student's English proficiency is assessed.

1. Which language did your child learn when they first began to talk? _____
2. Which language does your child most frequently speak at home? _____
3. Which language do you (the parents/guardians) use more often when speaking with your child?

4. Which language is spoken more often by other adults in the home? _____
5. Do you believe your child might need additional support learning the academic language for math, science, reading, or writing? _____

Additional Information (Optional)

Please sign and date this form in the spaces provided below, then return this form to your child's school.
Thank you for your cooperation.

PARENT PERMISSION FORM FOR PHOTOS 2022 -2023

During the course of the year at NCS, students will be photographed and videotaped as a means of documentation. Occasionally NCS uses some of these photos and videos of a child or children for school-related purposes, such as school publicity, teacher training, or a slide show at an NCS event.

Photos of children engaged in school activities are a great way of conveying the true nature of our school - its philosophy, environment, daily activities, art materials, etc. No child's name will ever be used on the web site. A picture or video clip of your child will only be used for the aforementioned purposes if you sign the written release below.

I give NCS, Inc. permission to use pictures of my child(ren) for school related purposes, such as school yearbook, school publicity, teacher training, web site, or a slide show at an NCS event.

FLUORIDE VARNISH AND DENTAL SEALANT CONSENT FORM

Dental sealants are one of the best ways to prevent tooth decay. They are hard plastic coatings which protect the grooved surfaces of permanent teeth. They seal the deep pits and grooves of teeth, keeping bacteria out and preventing decay. By having sealants placed now, your child may be spared future, more extensive dental work. The application is painless and does not require numbing of the mouth or drilling.

This preventative measure has very few risks. In rare cases, as with any dental procedure, gagging or swallowing of dental materials may occur. In addition, your child may notice minor changes in bite that should become less noticeable as excess material wears away over time. Please keep in mind that sealants only protect the chewing (grooved) surfaces of teeth. Therefore, fluoride toothpaste and mouth-rinse are also recommended to protect the smooth surfaces of the enamel.

Fluoride varnish can be painted on the teeth to prevent tooth decay delivering a safe and effective dose of fluoride. The varnish sets up on contact with saliva so children usually cannot swallow the varnish. The varnish will cause the teeth to look yellow for several hours and will gradually wear off. Used at the right levels, it is safe and effective. Swallowing too much fluoride can cause stomach upset or make white or brown spots on permanent teeth.

As a service to our patients, students are transported in with their teachers and classes to the Inscription House Health Center IHS Dental Clinic for screening exams and, if indicated, the placement of sealants.

Please answer ALL the questions below, sign, and return to the school.

Consent and Administration Record

Naatsis'Aan Community School INC. COVID-19 SCHOOL-BASED TESTING CONSENT

Naatsis'Aan Community School INC. is using this form to receive your consent to test your child for COVID-19 and to share collected data with relevant authorities.

What is the test?

With your consent, your child will receive a free diagnostic test for the virus that causes COVID-19. Collecting a specimen for testing involves inserting a small swab, similar to a cotton swab, into both nostrils.

How will I find out about the results of the test?

If your child has a specimen collected for testing at school, you will be notified of the test result or informed of how the test result will be received (for example: by phone, text, or email).

What should I do when I receive my child's test results?

If the test is positive, this means that the virus was detected in your child's specimen. You will hear from your child's school or a trained professional about this test. You will be asked to pick up your child and you will be provided information about keeping your child home, following up with your health care provider, and when your child can return to school.

If your child's test results are negative, this means that the virus was not detected in your child's specimen at this time. You will be asked to follow the instructions provided by your child's school following this test result.
