

Instruction**Internet Acceptable Use: Filtering as defined by the Children's Internet Protection Act****Access to Electronic Networks**

Electronic networks, including the Internet, are a part of the District's instructional program in order to promote educational excellence by facilitating resource sharing, innovation, and communication.

The District is not responsible for any information that may be lost, damaged, or unavailable when using the network or for any information that is retrieved or transmitted via the Internet. In addition the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum

The use of the District's electronic networks shall:

1. be consistent with the curriculum adopted by the Board of Education as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and
2. comply with the selection criteria for instructional materials and library-media center materials.

Staff members may, consistent with the Superintendent's regulations and implementation plan, use the Internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

Acceptable Use

All use of the District's electronic network must be:

1. in support of education and/or research and be in furtherance of the Board of Education's goals, or
2. for a legitimate school business purpose.

Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic network or computers. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Each district computer with Internet access shall have a filtering device that blocks entry to visual depictions that are obscene, pornographic, or harmful or inappropriate for students as defined by the Children's Internet Protection Act and as determined by the Superintendent or his/her designee. The Superintendent, or his/her designee, shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or his/her designee.

The Superintendent, or his/her designee, shall include measures in this policy's implementation plan and administrative regulation to address the following:

1. limiting student access to inappropriate matter as well as restricting access to harmful materials;
2. student safety and security when using electronic communications;
3. limiting unauthorized access, including “hacking” and other unlawful activities; and
4. limiting unauthorized disclosure, use and dissemination of personal identification information.
5. The District recognizes its responsibility to educate students regarding appropriate behavior on social networking and chat room sites about cyberbullying. Therefore, students shall be provided instruction about online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.
6. Limiting exposure to viruses and other harmful downloads.

Authorization for Electronic Network Access

Each student and his/her parent or guardian must sign the District's authorization form (see policy 4118.5 Form) prior to being granted supervised use of the network. Staff members must also sign the form as a condition of use.

All users of the District's computers and means of Internet access shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is placed onto the network.

The failure of any student or staff member to follow the terms of the authorization form, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Internet Acceptable Use: Filtering

Preface

When minors are using the Internet, access to visual depictions that are obscene, child pornography, or harmful to minors must be blocked or filtered. When adults are using the Internet, only material which is obscene or child pornography must be filtered or blocked.

Definitions

1. **Obscene** is to be determined by the following test:

- Whether the work depicts sexual conduct in a patently offensive way; and
- Whether the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

2. **Child Pornography** as defined in 18 U.S.C. 2256 means any visual depiction, including any photograph, film, video, picture, computer, or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, or sexually explicit conduct, where:

- The production of such visual depiction involves the use of a minor engaging in sexually explicit conduct;
- Such visual depiction is, or appears to be, of a minor engaging in sexually explicit conduct;
- Such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct; or
- Such visual depiction is advertised, promoted, presented, described, or distributed in such a manner that conveys the impression that the material is or contains a visual depiction of a minor engaging in sexually explicit conduct.

3. Material “**Harmful to Minors**” is any picture, graphic image file, or other visual depiction that:

- Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- Depicts, describes, or represents, in a patently offensive way with respect to what is suitable to minors, an actual or simulated sexual act or sexual conduct, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
- Taken as a whole, lacks serious literary, artistic, political, or scientific value to minors.
