Reflections

Four years. For some it has been too long. Others have felt it was days of good times, but everyone agrees it has been an experience. Our freshman year seemed different in many ways, but it was a beginning. A chance to meet people, start an athletic career, and grow as individuals. It is our time now to enjoy the maturity shared only by our peers before us. Who can't remember looking up to Seniors and wishing to have their nonchalant attitude? The dominant idea that sticks in our memories is the spirit shared by everyone. Friday night football games, parish rivals, and pep rallies headed by cheerleaders.

A summer of change passed in 1972 and brought with it the non-conformist, peace marchers, draft dodgers, and walkouts. Sophomore days of being involved, getting our feet wet, and hat-

ing to see many of our favorite teachers leave us. No graduation with the people we had learned to share important years of our lives with. One thing we had to remember: change is always needed. And yet even though we were but sixteen, the eighteen year old vote would soon be power in our hands. In two years it would be our chance to get involved and help form a new society. Hopefully

the wait would pass quickly.

We left much, but now in our Junior year we had the opportunity to establish the traditions which came to be known as those of the "second graduating class."

While chocolate covered ice cream cones were not exactly a financial bonanza, a red and white formal was. Our formal dances, days of the future passed, made the first year seem somewhat organized. We had a closeness now - we had finally met the true friends we could cherish as ours forever. Yet, there

were many more spectacles just ahead.

Our Senior year. The time many begin losing interest, direction, and ideals. Now we begin to think of independence, new faces, and challenges which will shape our tomorrows. We have wondered at numerous social and historical events. Confusion, instability, and corruption. But more fondly, we will remember May 21, 1976. Now let us work to achieve dreams, contemplate opportunities, and begin from this day.
