Dr. Jack Gaham III
Superintendent of Schools

Medical Requirements for All Students

- **Physicals** – Students new to Illinois or entering Early Childhood, Kindergarten, 6th, or 9th grade are required to have a physical (dated within one year of the first day of the school year) with the **required immunizations** prior to October 15th or they will not be allowed to attend until the appropriate documents have been received.
- **Sports Physicals** – Incoming 6th and 9th graders may use an Illinois school physical in lieu of a sports physical, however, a sports physical CANNOT be accepted as proof of a physical examination for mandated physicals.
- **Dental** – Students entering Kindergarten, 2nd, 6th, or 9th grade are required to have a dental examination prior to May 15th.
- **Vision** – Students new to Illinois or entering Kindergarten are required to have a vision examination prior to October 15th. Students must have a vision exam by a licensed Optometrist/Ophthalmologist. Throughout the year vision and hearing screenings will be conducted by an Illinois certified technician as mandated by the state of Illinois. Vision screening is NOT a substitute for a complete eye and vision examination by an eye doctor. Your child is not required to undergo the vision screening if an optometrist or ophthalmologist has completed and signed a report indicating that an eye examination has been administered within the previous 12 months and on file at school.
- **Meningococcal Vaccinations (MCV4)** – All 12th grade students will need to show proof of two doses of the meningococcal vaccine unless the first dose was administered after the age of 16, then one dose is required.
- **Medications** – For all grade levels, if you and your doctor feel that your child will need any medications (**Prescription AND/OR over-the-counter**) throughout the school year, a medication authorization form needs to be completed by your physician and be on file at the school. For medications needing to be dispensed at school: medications must be brought to school by a parent/guardian and given to office staff. No medications are allowed on school busses.

- **Health Updates** – Please contact the school if any previously reported medical condition changes or with any **new** additional medical updates.

Religious Exemptions: Religious Exemptions **MUST** include the Illinois Certificate of Religious Exemption Form completed by the parent/guardian **AND** the healthcare provider. This **MUST** be completed by the healthcare provider performing the health exam/physical. This **MUST** be completed at the time of the Kindergarten, 6th grade and 9th grade mandated exam/physicals.

Students who are transferring into 200U are required to provide proof of Medical compliance. If transferring AFTER October 15, families are required to provide proof within 30 days of registration.
