Resignations

- > Ashlyn Robertson Paraprofessional Due to her having a baby in August she wants to stay at home
- Brody Astle -Dean of Students Varsity Football Athletic Director
- New Hires
 - > Special education- Michele Dimond if she does not accept I would recommend we Hire Elizabeth Hollibaugh and would need to open her Elementary Position. Both were very strong applicants. It was a unanimous decision by the committee. Due to Michelle having k-8 Certificate and K-12 Special education endorsement. She will be able to fill either the teaching role or the Director role which was very important to us. It would also allow us to split those roles between the current teacher/director and build on the strengths of both employees.
- Open Positions
 - > Elementary Teacher-Diane's Position must be opened each year.
 - Principal
 - > Varsity football coach
 - > Athletic Director

I really feel that we need a principal but I really don't want to hire just a body. I want someone who will continue the work Mr Astle has started and build on creating that positive culture we want to see in our building. I have been able to do things the second half of the year as Superintendent and take care of things that are really important if we do not hire a principal these things will get put on the back burner.

New/ Additional Information

Special Education - 3 applicants

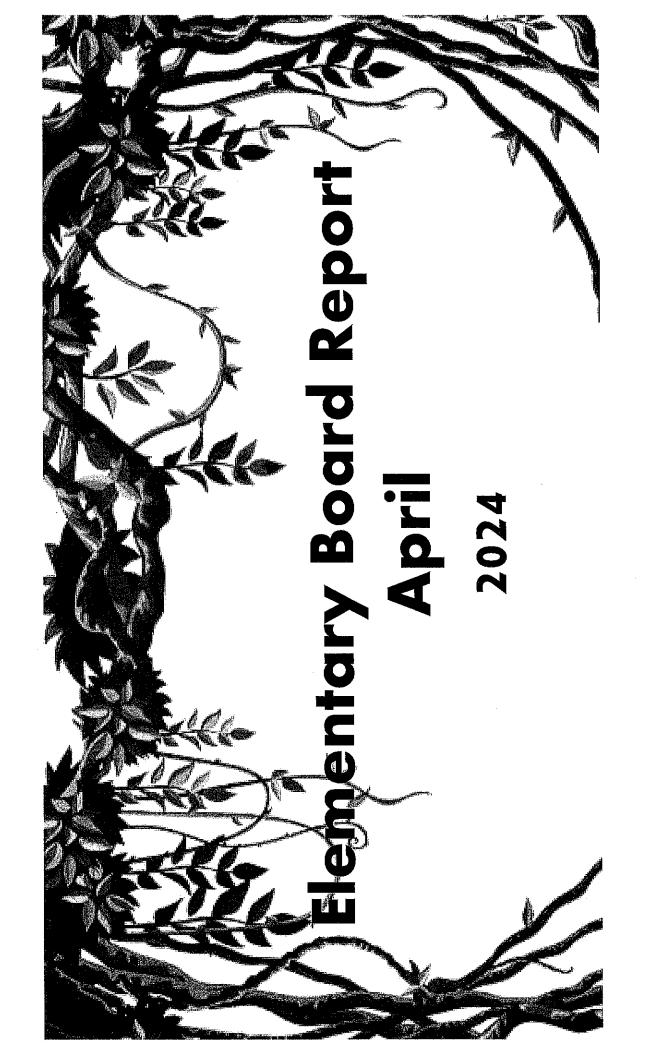

Counselor - 2 Applicants we have interviewed the first applicant Katrina McHan we received a second application the day of the interviews so the committee wanted to interview that person as well I have that set up for next week.

Science- 3 Applicants I have asked Dalonna to get with Brody and get going on this position. They will do the Ag and the Science applications as one committee. I will not be involved in these interviews until a recommendation is made to me.

Ag- 2 Applicants 1 internal 1 external.

Mission: We exist to Educate, Empower, and Prepare students for a productive life.

Vision: Maintain a culture where Respect, Integrity, and Perseverance are cultivated. Operate a safe and welcoming school. Where each student is challenged to achieve excellence in Preparation for College, Career and a Productive Life.

ATTENDANCE

OUR ATTENDANCE WAS MUCH BETTER THIS MONTH FOR ALL THE GRADES. I WOULD LIKE IT TO BE A LITTLE HIGHER CLOSER TO 96-97%. WE RECEIVED SOME FUNDS FROM REPRESENTATIVE JACK NELSON AND REPRESENTATIVE NED BURNS, WE RECEIVED \$500.00 FROM EACH OF THEM. IT WAS PART OF A WALKING PROGRAM THE LEGISLATURES DID AND THEY BOTH DONATED TO THE SCHOOL. I WILL BE USING HALF OF IT FOR OUR END. OF YEAR WALKING PROGRAM PARTY FOR ELEMENTARY AND THE OTHER HALF FOR ATTENDANCE INCENTIVES FOR THE REMAINDER OF THE YEAR. I WILL HAVE THE STUDENTS DO A THANK YOU NOT AND SEND PICTURES OF HOW WE USED THE MONEY TO EACH OF THEM.

GRANTS/LEGISLATIVE UPDATE

- I HAVE SPENT A LOT OF MY TIME THE LAST MONTH WORKING ON THE 2 GRANTS FOR THE LEADER IN ME PROGRAM AND FOLLOWING THE LEGISLATIVE SESSION. BOTH GRANTS HAVE BEEN SUBMITTED.
- THE LEGISLATIVE SESSION HAS BEEN A ROUGH ONE THIS YEAR. IN ADDITION TO BEING VERY LONG.
- I HAVE BEEN ON LIVE SESSIONS ALMOST EVERY DAY FOR THE PAST MONTH. THERE ARE A LOT OF THINGS WITH EDUCATION THAT WERE BEING HELD HOSTAGE MAINLY THE EDUCATION BUDGET. AT THE TIME OF THIS WRITING WE ARE JUST WAITING FOR THE GOVERNOR TO SIGN ALL OF THE BILLS.
- THE BIGGEST ONES THAT AFFECTED OUR DISTRICT THE MOST WERE FACILITIES BILL THE BUDGET, AND THE GUN BILL.
- THE GUN BILL DID DIE FOR THIS YEAR SO OUR CURRENT POLICY IS STILL WHAT WE WILL USE.
- WE ARE WAITING FOR THE TRAILER BILL TO BE SIGNED FOR THE FACILITIES BILL. IF IT IS SIGNED BY THE GOVERNOR WE WILL NOT HAVE TO WORRY ABOUT ADJUSTING THE CALENDAR.
- THERE IS A LOT OF WORK WITH THIS BILL THAT WE WILL HAVE TO DO AS A DISTRICT FOR DALONNA, RYAN AND MYSELF.
 SPECIFICALLY RELATED TO THE 10 YEAR MAINTENANCE PLAN AND A LOT MORE REPORTING FOR THIS MONEY.
- DALONNA AND I WILL ATTEND POST LEGISLATIVE TOUR ON WEDNESDAY AND I HOPE TO HAVE MORE INFORMATION FOR YOU AT THE BOARD MEETING.

MAINTENANCE/CUSTODIAL

WE WILL BE STARTING THE FENCE AROUND THE AG SHOP NEXT WEEK. WE HAVE THE SHOP KIDS IN MR. SHAW'S CLASS WORKING ON GATES FOR THE FENCE. MR SHAW CAME TO ME AND ASKED IF THERE WERE SOME PROJECTS HIS STUDENTS COULD DO TO HELP THE SCHOOL.

HANDICAPPED DOORS WERE INSTALLED. WE ARE NOT HAPPY WITH THEM AND WORKING ON GETTING THEM BACK TO FIX THEM OR TAKE THEM OUT IF THEY CAN'T MAKE THEM WORK PROPERLY. WITH RYAN SURGERY AND LIMITATIONS WITH HIS HANDS MOST OF TIME LAST MONTH HAS BEEN SPENT ON PREPARING THE BUDGET FOR NEXT YEAR AND REGULAR MAINTENANCE.

Dean of Students Report

Discipline: We have had a few discipline issues but nothing over the top in the last few months. Most issues have revolved around inappropriate talk in the classroom or disrespect. Detention and a few in-school suspensions seem to be helping.

Grade Reports: Grades have remained somewhat similar throughout the year. We are unfortunately hitting that period in the school year where students let their grades slip because they are not worried about extracurricular activity eligibility. We have a low turnout for track and rodeo, so some of the students who hover the line with grades are no longer worried about staying eligible. Students have been reminded that being ineligible at the end of the school year will make them ineligible to start the next school year.

Testing: All of our juniors and sophomores completed the ASVAB on 2/7, and ASVAB sent a representative out in March to interpret the scores with the students. All juniors took the SAT on 3/4. We just recently received results, and I will share some of that data below. We will begin ISAT testing the week of 4/8. Teachers wanted a full week back in school from spring break before we began testing so our teachers have some time to prep their students.

SAT Spring 2024 Data

All 19 of the members of our junior class completed the SAT. Unfortunately I have to share that, on average, the class scored lower than the state and national average. Images are included below showing a breakdown of our total scores as well as a look at reading/writing and math. We did have some students score very well, but the lower performers in the class brought down our average scores.

HS track is underway. At time of writing they have attended a few meets and are gearing up for their conference and district meets that will take place at the start of May. JH track practice started the day we returned from spring break and I look forward to them getting ready to attend their first few meets.

I have two ideas funding wise that I will talk to you about at the board meeting. I do have internal applicants to fill at least one position and have talked to someone else who has moved into our community who is interested in the other.

Leader In Me

- > I have submitted a grant proposal to the seagraves foundation to help fund the leader in Me program in our district. It will be the end of May before we here anything.
- ➤ I have also submitted a grant proposal to Franklin Covey which would help cover some of the costs of the curriculum around \$10,000.
- > I went in and met with Julie Nordstrom in Shoshone. She runs the leader in Me program for shoshone.
 - Some of her main points were that it really is a 3 year implementation and takes about that long before you see drastic change.
 - Some staff will leave because they do not want to be part of the new culture.
 - It is a really good program she looks at it as her second religion. Staff would really need to live it. But staff living it has a direct impact on students living it and in return student achievement.
 - She said knowing our community she thinks our parents would embrace it and love if
 - Shoshone only has implemented K-6. She suggested I talk to Carey about implementing at the the high school.
 - I have reached out to Carey and am working on scheduling a time to meet with them at the time of writing this report.
- > I do have a secondary plan that I have developed to still implement the concepts as I truly feel this will have a lasting effect on our culture and I truly believe in the principles outlined in the material.

Items to throw away or sale

- > Printers that were replaced with new Copy machine company in the building at the beginning of the year.
 - Some staff have mentioned they would like to buy one to have at their homes. Rice Steamer
- ➤ Old Salad Bar
- ➤ Warming table
 - These are all currently being stored in the concessions and not being used. We would like to go through the CNP process to sell and hopefully put a little money back into the program for something that we can use.

FY 2025 Insurance

Currently, the District covers \$755.00 towards Medical, Dental and Vision insurance for eligible employees who elect to enroll. Our insurance rate for next year is increasing by 7.09% on the Gold \$0 deductible plan. 17 of 33 people currently take this plan. Due to a decrease in insurance funding per support unit and the possibility of adding a couple more staff members, we would like to maintain the \$755 this year. This District also covers \$3.00 per employee for life insurance for a total expense of \$758.00 per month per employee.

Board Policy 8200: Local School Wellness

Original Adopted Date: April 2018 Last Reviewed Date: September 2019 Revised Date: April 2024

[The Healthy, Hunger-Free Kids Act of 2010 requires that the parents, students, District staff, administrators, Trustees, food services staff, school health professionals, teachers of physical education, and the public be allowed to provide input on the development of this policy. This model policy is intended only as a starting point for this dialogue.]

It is the goal of DietrichSchool District to strive to make a significant contribution to the general well being, mental and physical capacity, and learning ability of each student and afford them the opportunity to fully participate in the education process. Dietrich School District promotes healthy schools by supporting wellness, good nutrition, and regular physical activity as a part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. By facilitating learning through the support and promotion of good nutrition and physical activity, our school contributes to the basic health status of children. Improved health optimizes student performance potential.

Healthy eating is demonstrably linked to reduced morbidity and risk of mortality from many chronic diseases.

The Board directs the Superintendent to inform and update the public, including parents, students, and others in the community, about the content and implementation of the wellness policy. Such information may be provided on the District website, through dissemination of student handbooks, or in any other manner the Superintendent may deem appropriate.

Definition

For the purposes of this policy the school day is defined as midnight before to 30 minutes after the end of the instructional school day.

Goals for Wellness Promotion

The District shall review and consider evidence-based approaches in establishing goals for school based activities to promote student wellness. This may include review of the "Smarter Lunchroom" tools and strategies.

To ensure the health and well being of all students, it is the policy of the District to:

1. Ensure that foods sold at school during the school day meet or exceed the nutritional standards required by the USDA's National School Lunch Program, the National School Breakfast Program, and the Smart Snacks in Schools regulations. Exceptions can be made for infrequent food sales fundraisers that occur no more than the number of times determined appropriate by the Idaho State Department of Education during the school year and are not held during school meal times. Fundraisers will be tracked at each school site by a designee of the Superintendent in charge of compliance at that site;

- 2. Ensure that non-compliant and non-exempt fundraising food sales will not occur on school grounds during the school day. The District operates under United States Department of Agriculture (USDA) program regulations of the National School Lunch Program, National School Breakfast Program, and the Smart Snacks in Schools regulations. These regulations apply to food sold during the school day in school stores, vending machines, and other venues. (Note: There are many healthy fundraising options available to schools including selling books, fresh produce, school spirit merchandise, or other non-food items during the school day. Fundraising activities involving the sale of food consumed outside of school, such as frozen pizza sales, are exempt from the nutrition standards.);
- 3. Ensure that celebrations that involve food during the school day be limited to no more than one party per class per month and that each party include no more than one food or beverage that does not meet nutrition standards for Smart Snacks in Schools. The District will disseminate a list of healthy party ideas to parents and teachers.

[Note: The USDA has no role in regulating foods brought from home, but school districts are required to set nutrition guidelines for foods served at school other than those that are sold. The Smart Snacks in Schools regulations only affect foods that are sold on school grounds during the school day. Time honored traditions like treats for birthdays, or foods at an afterschool sporting event, are not subject to those standards.]

The District shall also take measures to promote nutrition and physical activity, engage in nutrition education, and conduct wellness activities. For this purpose, the District may:

- 1. Ensure that all District schools become certified as a Healthier US Schools Challenge schools and/or enroll as a Team Nutrition schools;
- 2. Host at least one health fair each year;
- 3. Draft and regularly distribute a wellness newsletter for students and parents;
- 4. Review Smarter Lunchroom Movement best practices and evaluate each school's ability to implement them;
- 5. Promote healthy eating patterns through classroom nutrition education coordinated with the comprehensive health education program including education, health, and food services;
- 6. Provide 45 minutes of physical education per week to elementary students and 225 minutes per week to middle school students;
- 7. Offer a recognition or reward program for students who exhibit healthy behaviors.
- 8. Start a walking or physical activity club at each school;
- 9. Offer at least 6 after school physical activity programs;
- 10. Ensure students have access to hand-washing facilities prior to meals;
- 11. Annually evaluate the marketing and promotion of the school meal program;
- 12. Share school meal nutrition information with students and families;
- 13. Offer students taste-testing or menu planning opportunities;
- 14. Participate in Farm to School activities and/or have a school garden;
- 15. Advertise and promote nutritious foods and beverages on school grounds;
- 16. Offer nutritious foods and beverages at lower prices than other foods and beverages;
- 17. Offer fruits or non-fried vegetables everywhere foods are sold;
- 18. Use student feedback to improve the quality of the school meal programs;
- 19. Offer a staff wellness program;
- 20. Provide District staff with adequate pre-service and ongoing in-service training that focuses on program administration, nutrition, physical activity, safety, the importance of modeling healthy behaviors, and strategies for behavioral change; and
- 21. Participate in community partnerships to support wellness programs, projects, events, or activities.

To promote student health and reduce childhood obesity, the District requires all schools within the District to comply with the nutrition standards established by the USDA with respect to all food that is available on school grounds during the school day.

Community Participation

The District shall invite parents, students, representative food service staff of the school food authority, teachers of physical education, school health professionals, the Board, school administrators, and the general public to participate in the development, implementation, and periodic review of this policy.

The Superintendent shall annually make available to the public the content of the policy and an assessment of the implementation of this policy including:

- 1. The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- 2. The extent to which the District's wellness policy compares to model local school wellness policies; and
- 3. A description of the progress made in attaining the goals of the wellness policy.

Methods of providing this information to the public may include developing or disseminating printed or electronic materials to families of school children and other members of the school community at the beginning of the school year, or posting the local wellness policies and an assessment of their implementation on the District or school website. The assessment of the implementation of the policy shall be conducted at least once every three years.

Record Retention

The District shall retain the following records relating to the wellness policy:

- 1. The written local school wellness policy;
- 2. Documentation demonstrating the community was involved in the development, implementation, and periodic review of the wellness policy;
- 3. Documentation of the assessment of the wellness policy; and
- 4. Documentation to demonstrate the public was notified annually as required by this policy.

Monitoring Compliance

The Superintendent shall designate one or more District officials or school officials to ensure that each school complies with this policy.

Board Policy 9550: Cybersecurity & Data Breach Response Policy

Status: Draft

NOTE: This policy discusses a breach response plan the District should create to address possible data breaches. In the "Other References — Sample Breach Response Plans" portion below, this policy includes references to sample plans that may be useful as a starting point in creating such a plan. We recommend consulting an attorney and District technology staff to ensure these plans are in compliance with all requirements and meet the District's needs.

This policy aims to prevent data breaches and to ensure any such breaches are addressed quickly and appropriately. In pursuit of this, the Board directs the Superintendent or their designee to work toward implementing the **Center for Internet Security (CIS) Critical Security Controls**,

Prevention Strategies

For the purposes of this policy, a data breach refers to any instance in which there is an unauthorized release or access of personally identifiable information, as defined in [Policy 3575], or of other sensitive data. This can include, but is not limited to, student educational records, personnel records, and financial records. It can include situations such as malicious actors gaining access to District devices or systems; the loss of District devices; and devices or networks left unsecured by accident, negligence, or a security system failure.

Sensitive data shall mean data whose release could cause social, physical, or financial harm to the individual(s) it pertains to or to the District.

The Board emphasizes the following cybersecurity principles, which the Superintendent or designee shall draft procedures to implement:

- 1. Multifactor authentication for remote access and admin/privileged controls: To the extent feasible, phishing-resistant multifactor authentication will be required to access sensitive information and security-sensitive systems.
- 2. Endpoint detection and response: The Superintendent or their designee shall ensure all District devices are protected by endpoint protection including, but not limited to, antivirus software and any other appropriate measures to detect attempted breaches of network security. The Superintendent or designee shall ensure District devices are safe when used at school and, if applicable, when used at other locations. They shall ensure steps are taken to block access to known malicious content online, to protect users from email-based attacks, and to ensure security updates are installed promptly.
- 3. Secured, encrypted, and tested backups: The Superintendent or their designee shall ensure backups of important data are maintained securely to protect against data loss or destruction. They shall strive, when feasible, to ensure three backup copies of important data are kept, two of which are stored on different mediums, and one of which is stored at a separate physical site from the others. At least one of these copies should be stored on a device not connected to the Internet.

4. Privileged access management: The Superintendent or their designee will regularly check that individuals who no longer need access to sensitive data and systems do not have access to them. This shall include ensuring access is immediately terminated when an individual's employment with the District is terminated or otherwise separated and when a student graduates or otherwise exits the District. To the extent feasible the Superintendent or designee shall ensure that duties are separated to prevent inappropriate access to or use of sensitive data. This also includes a requirement to ensure passwords are secure and are not shared. To limit risk, sensitive data will be safely archived or deleted when appropriate.

The Superintendent or designee shall maintain an inventory of the District's physical and electronic assets related to cybersecurity that designated staff members should secure in the event of a possible disaster or data breach. These assets include, but are not limited to electronic files, logins, electronic devices, and equipment used to provide access to the Internet and any District networks. The list shall indicate where these assets are stored and how they are protected.

The Superintendent or designee shall also conduct privacy risk assessments for the District and of parties with whom it shares sensitive data. For this policy, privacy risk assessment shall mean a process to help analyze and assess privacy risks arising from the processing of their data.

Training and Awareness

[NOTE: THIS TRAINING IS NOT REQUIRED BY LAW, BUT IS STRONGLY RECOMMENDED BY THE SCHOOL TECHNOLOGY EXPERTS ISBA CONSULTED IN DRAFTING THIS MODEL POLICY.]

The Superintendent or their designee shall provide and require training on cybersecurity, preventing data breaches, and securing confidential records for staff, students, contractors, and others with access to District records or electronic networks. This may include providing information on how and when to report a possible data breach.

Failure to participate in such training could have negative consequences to the individual or entity which may include, but are not limited to, personnel action, refusal to allow the person or entity to use the District's computer systems or electronic devices.

Breach Response

The Superintendent or their designee shall check for signs of a data breach through such methods as automated tools, verifying whether current security measures are effective, searching online for signs of leaked data, and conducting tests of current security.

The Superintendent or designee shall create a Data Breach Response Plan for inclusion in the District's Crisis Management Plan. They may involve experts and stakeholders in the process of creating this plan. The Superintendent or designee may also conduct regular data breach drills or tests of portions of the Data Breach Response Plan. Those responsible for implementing the Data Breach Response Plan may be provided with training on or notification of the Plan regularly. The Superintendent or designee and any experts and stakeholders they choose to involve shall review the Plan annually to ensure it is current and that any appropriate improvements are made to it. Such review shall also take place following any suspected data breach.

The Superintendent or designee shall direct staff to report any possible data breach to the

[Superintendent]. Apart from such reporting, staff shall keep information about the breach confidential unless and until they have been assigned communication responsibilities related to the breach.

If the District identifies a lapse in security exposing sensitive information but it is unclear whether anyone has obtained or accessed such data, the District shall **treat the incident as a data breach OR immediately remedy the issue**].

The District's Data Breach Response Plan shall include the following elements:

- 1. A process for determining whether a suspected breach is an actual breach and, if so, for learning about the nature of it, such as:
 - A. Whether the breach is still active;
 - B. The scope of the breach; and
 - C. Whether the breach was accidental or malicious and whether it was internal or external.
- 2. The positions responsible for participating in the response to a possible data breach, including:
 - A. An incident response leader and alternate leader who will coordinate such response;
 - B. The Superintendent or their designated administration representative;
 - C. Information technology staff;
 - D. The District legal counsel;
 - E. Communications or public relations personnel;
 - F. Risk management personnel; and
 - G. The business manager or designee.

The plan shall also include the duties of each position, as determined by the Superintendent.

- 3. A process for deciding the appropriate course of action. This shall include:
 - A. Choosing an individual or organization to investigate the breach;
 - B. A listing of District resources available to address the breach and the authority who can approve their use;
 - C. Fixing an active breach;
 - D. Consulting with legal counsel to ensure legal requirements are met, including any federal, state, or district-level requirements to notify outside authorities or victims of a breach;
 - E. A plan for providing information about the breach if required or when communication is appropriate for the sake of transparency, to assist agencies working to prevent future breaches;
 - F. Providing support to individuals whose sensitive data was subject to the breach;
 - G. Whether to report the incident to law enforcement and, if so, how to coordinate with them:
 - H. Determining which outside organizations or individuals should be consulted or involved in the response, such as the Family Policy Compliance Office or other outside experts:
 - I. Taking measures to preserve evidence of the breach and document the District's response;
 - J. Determining the cause of the breach and how to prevent similar breaches in the future, such as through technological fixes, training, or other measures; and

K. A plan for maintaining continuity of District operations through the breach. This plan shall include details on the keeping and use of data backups.

Third Parties

The Superintendent or their designee shall take measures to limit risk when using third-party tools or services and when it is necessary to share sensitive data with third parties.

They shall also regularly review such third parties' policies on data breach notifications and backing up data or ensure these topics are addressed adequately in the District's contract with such providers.

Legal Compliance and Insurance

Response Plan

The Superintendent or their designee shall report any cybersecurity incident to the Office of the Attorney General within 24 hours as required by IC 28-51-105. When required, the incident shall also be reported to the Idaho Superintendent of Public Instruction and the Executive Director of the Office of the State Board of Education, as described in Policy [3575.

The Superintendent or designee shall record any breach of education records in the log of releases of information described in Procedure 3570P. Any cybersecurity incident shall also be reported to the federal Cybersecurity and Infrastructure Security Agency if required by the Cyber Incident Reporting for Critical Infrastructure Act of 2022 or, in cases where reporting is optional if the Superintendent chooses to do so.

In the event of any cybersecurity event, the Superintendent or designee shall immediately contact their cybersecurity insurance provider and, if applicable, the District's managed security provider.
