2025 Use of Artificial Intelligence Annual Report
(BP 4.214)

HSSD has developed a working list of AI tools currently reviewed and approved by the district technology supervisor, which includes:

- Canva for Education
- Microsoft Copilot (Word, Outlook, Excel)
- Grammarly (Free or EDU)
- Google Docs
- Chrome AI Tools

This list is being maintained internally and the school district will post an official version to the district website for parent notification. During in-service, we will conduct AI training that will enable new staff (and remind returning staff) the process of getting approval before AI programs are used.
