★ SUPPORTING YOUR STUDENT AT HOME

By now, students should be able to add and subtract fluently within 10. We have been using strategies to add and subtract to 20. Soon, we will be working with addition and subtraction within 100! This is such an interesting transition because they will start to notice so many patterns! Continue working at home on addition and subtraction around your home. For example, I baked 17 cookies and you ate 9. How many cookies are left?
