

District Director of Technology

Are you passionate about technology and education? Do you have experience managing and maintaining a network system for a school district? If so, we want to hear from you!

We are looking for a District Director of Technology to oversee all aspects of our technology department, including hardware, software, security, infrastructure, budgeting, training and support. You will be responsible for ensuring that our technology resources are aligned with our educational goals and meet the needs of our students, staff and community.

To be successful in this role, you will need:

- A bachelor's degree in computer science, information technology or related field
- At least five years of experience in technology management or administration
- Proficiency in Microsoft 365 applications and services
- Knowledge of Linux systems and open-source software
- Knowledge of Power Automate and Adobe sign or similar tools
- Excellent communication, leadership and problem-solving skills
- Ability to work collaboratively with diverse stakeholders

As a District Director of Technology, you will:

- Plan, implement and evaluate the district's technology vision and strategy
- Manage and maintain the district's network system, including servers, switches, routers, firewalls and backups
- Ensure compliance with federal, state and local regulations regarding data privacy and security
- Provide technical support and training to staff and students on various technology platforms and tools
- Coordinate with vendors and contractors on technology purchases, installations and upgrades
- Monitor and manage the technology budget and inventory
- Supervise and evaluate the performance of the technology staff

If you are interested in joining our team as a District Director of Technology, please apply online at www.dist399.net by March 31st 2023. We look forward to hearing from you!
