### CHEMIC SALUTES

Our first salute goes out to Jaelynn Alvarez and Tempe Toombs for helping a teacher clean up when she dropped a box she was carrying and papers fell out.

Our next salute goes out to those who made it to state solo and ensemble for orchestra, band and choir earned a division one rating. It's an amazing achievement and shows the talent, skill, and artistry our incredible musicians have!

Finally, a huge salute goes out to everyone involved in the Spring Assembly last Friday. The students who planned it, the students who participated, and the staff who participated and is still recovering from it. It was a great way to swing into Spring Break!

### POSITIVE THINKING

Extra Care and the Ripple Effect

You can't always convince other people to care and empathize as much as you do, but

you can care and empathize a little bit extra, and that will make up the difference. It may even rub off on other people.

When we care and show empathy, we inspire others to care and empathize, and it creates a RIPPLE EFFECT that spreads outwards. Just as a pebble creates waves when it is dropped in a pond, showing CARE, EMPATHY and KINDNESS ripples outwards, touching others lives and inspiring the same everywhere the wave goes.
