

VENDING MACHINES

The installation and use of vending machines in the schools will be controlled so that they will not offer competition to the school lunch program or encourage students in poor eating habits.

The service and sale of all food and beverages to students during school hours will be under the control of the Principal, and the revenue from such sales will be deposited and accrued to the student activity fund or its internal accounts fund.

Vending machines may be operated after school hours for student use. The profits derived from such operations will accrue to the school's student activities fund or its internal accounts fund.

The principal(s) will submit to the Superintendent annual financial reports on each account.
