

## **2nd Grade Virtual School Day Choice Board**

Please choose at least one box under each subject to complete. Color in the box of the activity you chose to complete and have your parent/guardian initial the box. All assignments can be done on a separate piece of paper, and turned into your teacher with this choice card.

| Reading                                                                                                                                                         | Writing                                                                                                                         | UFLI                                                                                                                                               | Math                                                                                                                                                                   | Other                                                                                                                                                       |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Read to self for 20 minutes.                                                                                                                                    | Write a summary paragraph about a book you read today.                                                                          | Write or type your UFLI words on a separate piece of paper 5 times each.                                                                           | At 5 different times during the day, write down the time and tell what you are doing.                                                                                  | Turn on some music and DANCE!                                                                                                                               |
| After reading a story, draw the character, setting, and what happened in the beginning, middle, and end.                                                        | Write 5 sentences about what you did today. Remember to capitalize and punctuate!!                                              | Spell your UFLI words using a marker, then a pen, and your own choice of writing utensil.                                                          | Get a handful of 5 to 10 coins. Count up the coins and write the total. Draw the coins on a separate piece of paper. Do this 5 times with different handfuls of coins. | Help your parents shovel the driveway and sidewalks with a smile on your face:)                                                                             |
| Read to someone for 20 minutes. (Ex. mom, dad, brother, sister, dog)<br>OR<br>Read to something for 20 minutes. (Ex. Stuffed animal)                            | Write a make believe story.<br>Example of ideas:<br>Character: Monster<br>Setting: Outer Space<br>Problem: Spaceship broke down | Write your UFLI words as rainbow words with 3 different colors (write all of your words in one color, then trace over them with two other colors.) | Create 20 addition and subtraction problems, and solve them on your own.<br>Ex: $4+3=$<br>$9-2=$<br>$43+21=$<br>$65-34=$                                               | Be a scientist - With an adult, collect one cup of clean snow. Estimate how long it will take the snow to melt. Record your hypothesis (guess) and results. |
| Read something other than a book, such as a magazine, newspaper, cookbook, etc.                                                                                 | Write a story about your perfect snow day. Include details to describe actions, thoughts, and feelings.                         | Write your UFLI words in ABC order.                                                                                                                | Write down your skip counting.<br>2s to 50<br>5s to 100<br>10s to 100<br>25s to 200<br>100s to 1000                                                                    | Imagine you hid a treasure chest in our school. Draw a treasure map for your teacher to find it. Include pictures and labels.                               |
| Compare and contrast (same and different) a normal school day with a Virtual Snow Day. Choose one way to share this. (Create a Venn diagram, list, video, etc.) | Write a letter to a character from a story. Write at least two questions for the character to answer.                           | Using your UFLI words, write a complete sentence for each word.                                                                                    | Get out your ruler! Measure 10 items in your house and record the items and their length. Remember to label!                                                           | Look out your window, and draw the scene you see. Use details.                                                                                              |
