TROY ELEMENTARY SCHOOL
MRS. TIBBALS
SIXTH GRADE

ctibbals@troysd287.org

Office hrs 7:45 am to 3:45 pm

Homework

Spelling:

Students will receive spelling packets to be completed over a 2 week period. I am using this model to allow students the ability to manage their time as needed.

Book Projects:

Students will submit a book project each month. Students will be given a selection of activities to choose from to meet this requirement. I check in with students weekly to ensure they are all on track to complete this homework assignment.

Nightly planners:

Students will fill out a planner at the end of every day of school. **Please sign or initial it every evening.** This is a daily form of communication and gives you enough information to have quality conversations about how your child spends their day. It also keeps everyone on top of what is happening.

Math and English

- Mrs Bohman is teaching 5th and 6th grade Math.
- Mrs. Tibbals is teaching 5th and 6th grade English and writing.

We work together to discuss strategies and planning. You may talk to either one of us in regards to the subject areas.

Reteach and Enrich

TES is continuing to use the model of reteach and enrich for math and ELA. The last several years have been very successful and students were comfortable moving between groups to receive the extra help or enrichment they needed.

Newsletters!

Newsletters will come home via email the first week of every month. These will include due dates, classroom activities and projects, standards covered, and any other important info. Paper copies are also available. Please let me know if you would prefer that option.

Supplies: Please only bring items to school from the supply list. Other items will be sent home, including: headphones/ear buds, markers, toys, etc.
