Dear Students, Families, and Staff,

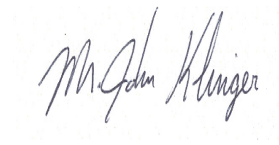

Tawas Area School District has encountered an increase in tick issues. These issues have been experienced around the wooded areas at the south end of our high school soccer complex, the Clara Bolen Elementary playground, our practice football field, and our track.

To combat this issue, Tawas Area School District has entered into an agreement with Berg's Animal and Bug Control of Rose City. As a professionally certified company, they will provide a spray application that will target this insect.

Tawas Area School District realizes that some of our families utilize our school facilities outside of school hours, so at this time, we are asking all families to refrain from using the Tawas high school soccer complex, our track, our practice football field, and the Clara Bolen playground from Friday, May 20th at 8:00 p.m. until Sunday morning, May 22nd.

If future applications are administered throughout the summer, I will notify families in advance for your awareness.

Thank you, and if you have questions, please don't hesitate to contact me at Central Office,

A handwritten signature in blue ink that reads "Mr. John Klinger". The signature is written in a cursive style with a large initial "M".

Mr. John Klinger

Superintendent
