

JANUARY IS STALKING **AWARENESS** MONTH

What is Stalking?

Stalking is

1 in 3 Women & 1 in 6 Men

experience stalking at some point in their lifetimes. People aged 18-24yrs experience the highest rates of stalking. Nearly 13.5 Million people are stalked in a single year in the U.S.

cause a reasonable person to fear for the person's safety or the safety of others; or suffer substantial emotional distress.

Stalking Tactics include

The most common stalking tactic experienced by victims is unwanted phone calls followed by unwanted approaches/showing up. Stalking tactics can also include unwanted gifts, and using technology to track, monitor, and/or spy on the victim, and more.

Stalking is often one part of an intersection

such as co-occurring with other forms of victimization, for example, domestic & sexual assault, or someone's identity, such as being part of the LGBTQ+ community, or a person's environment can play a role, for example college campuses.
