ESTIMATED COSTS

Basic program as described above based on 10 or more participants and double occupancy, as well as current South African and US dollar exchange rates: \$4699 per person

Single supplement: \$1299

COMMENTS

1. International airfare is currently not included and can be booked independently, or we can assist with whichever cabin type the traveler prefers.
2. Both Delta and United now offer direct service to South Africa, with United having direct service to both Johannesburg and Cape Town.
3. African domestic air is a little difficult to guarantee since it is based on the booking classes remaining at time of ticketing, but hopefully we have used an accurate estimate.
4. Prices for the **Cape Town extension** should be available soon and will be forwarded on to you for your review once received.
