## Status of School Performance Notice

School: Jefferson County Elementary School

Date: October 30, 2024

Dear Parent or Guardian:

Our school has completed a review of student performance against the State's goals for academic achievement, high school graduation rates, English learner progress in achieving English proficiency, and a measure of school quality or student success. Proficiency in a language is a measure of a person's ability to understand and communicate in that language or in a person's preferred mode of communication. The State uses a system of A-F to label the level of performance for all of our students and selected student subgroups toward reaching State targets.

This letter and the following pages describe how the performance of your child's school compares to standards set by the State and what that means to you and your child attending this school.

The *Elementary and Secondary Education Act* as amended (2015) requires our State to identify two categories of schools for support and improvement. This happens at least once every three school years beginning with the 2018–2019 school year. One category is Targeted Support and Improvement. Schools are identified for this category of schools if they have one or more consistently under-performing student subgroups.

The second category is Comprehensive Support and Improvement. This category of schools must include at least the lowest-performing 5 percent of all Title I funded schools in the State; all public high schools in the State failing to graduate one third or more of their students; and Title I funded schools in the State that are implementing targeted support and improvement plans which have not adequately closed achievement gaps within a required State-determined period of time; and, at the discretion of the State, additional categories of schools.

✓ Congratulations! Your child's school met or exceeded all State targets for school performance.

Jefferson County Elementary is a B- Rated school.
