Foreword

Because a few forward-looking citizens saw visions of what could be achieved through sacrifice, effort, cooperation, and determination, Cumberland County **still** has its dream school. Our purpose is to tour the building with our readers, in order that they may see what our daily life here is like.

To those who cannot return to youth and school days, may it bring back fond memories of the days when you, too, were a student in the building that was dear to you.

To those who have helped to bring about the realization of this dream, may it bring a justifiable pride and satisfaction.

To those who have shared this year together, may this volume bring a sense of deep and abiding joy.

As we celebrate the 50th year of Cumberland County High School, it is a time for reflection and new beginnings.

The reflection if you will, is remembering all the lives that have been positively affected by this faculty. With many thousands of graduates in fifty years, think of all the accomplishments that have been made with that many high school graduates. The lives of many families in our community changed because students were able to get a high school education.

The new beginnings are the prospects of what is to come. As students continue to graduate, their possibilities are even more endless than they were 50 years ago. With technology, foreign language, career development, drama, arts, music, athletics, construction core, pre-law, pre-med, plus "reading, writing, and arithmetic" now being offered in our schools, the sky is the limit for our students.

We celebrate the past and look forward to the future for our children. Our wish for each one is, this is just the beginning of a life time of learning.

As former Superintendent O.C. Stewart said fifty years ago when CCHS was opened, "may each of us be wise enough to make the most of it."

Aarona VanWinkle, Director
Cumberland County Schools

Everett Gibson

Mrs. Janet Graham
Principal

Principal's Message

As we approach the completion of our 50th year as Cumberland County High School, it becomes important to review our history in order that we may create a continuing vision of what we want our school and community to be. As principal of Cumberland County High School, it is such an honor to have been a part of our rich history and to be able to be a part of its future.

In a moment of introspection, I re-read the words of wisdom shared by Mr. O. C. Stewart (director of schools), Mr. Everett Gibson (first principal), and Mr. Lyndon Pippin (the first assistant principal), which were recorded in the first edition of the PLATEAU. I was honored to have known all of these fine educators, and I respect the positive examples they set forth. Their messages to students and staff were messages of encouragement and motivation. They faced the difficult task of creating unity among students coming to CCHS from different high schools. Ironically, my first task as principal was to divide the student body and faculty in the spring of 2006 and maintain unity as we prepared to open a new high school.

Each of my predecessors encouraged students to develop their potential, live life to its fullest, and always strive for a better life. No message could be more appropriate or necessary fifty years later as we look to the future. I encourage you to do as these dedicated men advised.

Many years from now, you will fondly reflect on your time here just as I do when I look at old yearbooks and remember the days when I walked these halls as a student. You are a special group with fifty years of rich history to precede you. You are also the beginning of a new era! I challenge you to dedicate yourself to live, love, and give of yourself to your family and to your community.

May your life be richly blessed.

Janet C. Graham

Mr. Jon Hall, Mrs. Kathy Hassler, and Dr. Pat Teeples
Assistant Principals

Assistant Principals' Message

As teachers and administrators at CCHS, we are so excited to be celebrating fifty years of such a wonderful school. At this special time, we celebrate and reminisce about how CCHS has been involved in our lives, our community, and Cumberland County history. It doesn't matter if you were a Homestead Bulldog, a Pleasant Hill Hornet, or a Crossville Red Devil, fifty years ago, we all became Jets.

When those three high schools became the CCHS Jets, our history was yet to be written. Fifty years later, we are proud of a rich history that is attached to our school. There are traditions in place that can be traced back to a specific event and, in some cases, a specific person. Everybody in the community knows these traditions because parents have attended CCHS, and in many instances, grandparents have attended CCHS. Every student, teacher, and staff member at CCHS has heard the phrase "Jet Pride." We chant it at ball games and pep rallies, but it goes far beyond athletics. The feeling of belonging to something bigger than one's self is part of the equation. Originally, three high schools were consolidated into Cumberland County High School. The next phase of coming together was when all eighth graders left their respective elementary schools to become Jets. They were once rivals but came together under one roof: they became one family. Their "Jet Pride" grew throughout their four years of high school. Cumberland County High School has had, and will continue to have, a huge impact on the residents of this community. From the Homecoming Parade down Main Street, the signing of yearbooks, and ordering class rings, we need to be proud of these traditions and the history that binds all Jets together.

Your time here will fly by much faster than you think, so please take the time to enjoy the experience, make memories, and always remember, "Once a Jet, Always a Jet!"

50

years and counting...

"I'm proud to be a Jets football player. I know my teammates are always there for me, no matter what."
-Dylan Oakes

"Being on the volleyball team has taught me about life. One of our mottos is, 'Always do your best.'"
-Haley Hembree

"Every year, I look forward to dressing up for Homecoming. My outfits are always really crazy and weird."
-Laken DeHart

"It was really easy to get the fake Elvis for the Junior Homecoming float. Mr. Wright knows the right people."
-Lacey Turner

"Blue Bash was very informative; it definitely helped me to adapt to being a high school student."
-Jacob Campbell

"My most interesting moment on the bowling team was when the girls and boys both won our match."
-Kassie Avelar

"The parade was a blast, and it was funny watching the girls jump off the truck and dance in the road!"
-Coco Bennett

"Coach Allen gave me this horn. I had to promise I'd bring it to every football game and show my jet pride."
-Maggie Bernabel

"Even though it was freezing cold, the dance team still had tons of fun being in the Homecoming parade."
-Chelsey Long

"Being a Jet, literally, at the pep rally was the most fun I've ever had. It was nice to 'soar' above the rest."
-Zach Eberhart

"The ping pong team is stacked with great players who never lose easily. We're going to keep improving."
-Daniel Koehl

"The first week of school at CCHS is amazing because you get to meet all kinds of new people."
-Devin Davis

"Picture day is always a little boring, but I love getting out of class and talking to my friends."
-Ashley Johnson

"Being on the Cross-Country team has taught me to use self-discipline and to always persevere."
-Meghan Server

"Mrs. McDuffee finds ways to make chemistry fun. We used salt and sugar to test our bubbles."
-Cody Sanders

Cumberland County High School 2011-2012

50

years and counting...

"Spring Fest is always fun every year. Who would complain about getting out of class with friends?"
-Fiona Retzer

"My name is Nick Houston. I was voted as the Senior Homecoming Representative, and it rocks!"
-Nicholas Houston

"Pep rallies at CCHS are so much fun. My favorite part is when we challenge each other with Humpty Dumpty."
-Jalen Holt

"My senior year has been a blast. I enjoyed helping make balloons for Homecoming a little too much."
-Cheyenne Freeman

"Anytime we're in homeroom, Mrs. Robbins lets us play cards. It usually keeps us pretty quiet."
-April Smith

"I've never really liked picture day. It's awkward having to smile at the camera for long periods of time."
-Brook Siwka

"At the Homecoming pep rally, all the seniors charged the floor and broke it down, yelling together, '2012!'"
-Kayla Williamson

"The Senior Superlatives trip was very fun. My favorite part was eating at Forte's with all my friends."
-Caleb Luttrell

The photo to the left was taken from the 1962-1963 edition of the *Plateau*. The very first senior class officers of CCHS were Wayne Mullins, Gene Bailey, Jack Chadwell, and Sondra Maddux.

"Mr. Sanderson's photography class is really fun. He showed us how to take pictures with a pin hole box."
-Megan Williams

"I find all my favorite clothing at yard sales and thrift stores. I love wearing unique clothes to school."
-Laura Thibedeau

"Being a senior this year has made me prouder to be a Jet. My dad gave me this hat to show my Jet Pride."
-Garrett Blyly

The Love of the Game

L.A. Fox, the head coach for the very first CCHS Jets football team, proudly executes the coin toss for the football game against Bledsoe County, the first home football game of the fiftieth year of CCHS.

The smile of pride and victory lights the face of coach L.A. Fox as he thinks back over a highly successful football season. His Tri-County Conference Champions also won the strongly contested Civitan Bowl against Carthage. (Picture and quote taken from the '62-'63 *Plateau*)

Varsity Football

Sports

Each year the varsity football season is eagerly anticipated by athletes and students alike. This year was special in the fact that it was the fiftieth season for Jet Football. The guys always feel the pressure to play their best, but this season it was felt just a little more so than usual.

When talking about his senior year, Tyler Howard said, "My senior homecoming didn't result in a victory,

but it wasn't a complete loss. I made a memory I will remember forever.

The boys that I grew up with since freshmen year became my family. These last games will be the best memories."

Through it all, though, the boys of fall still had an amazing time playing the sport they love and showing the school what it means to be a Jet.

Golf

The Cumberland County High School golf team did their best on the greens in the 2011-2012 season. This year at Cherokee Classic, the CCHS boys team finished third out of the ten teams present, and Spencer Scarbrough finished second overall.

"Golf is a sport of great concentration and teaches you how to increase your focus," says Dylan Fehr.

Taylor Houston has played golf all of his years at CCHS. Houston, currently a junior, says golf is something he thoroughly enjoys and some-

thing to which he looks forward.

The modern game of golf is said to have originated in 15th century Scotland. Now it is played in any country with people willing to play the game. The estimated number of people who play golf twenty-five times or more per year is 4.6 million, and the number of people who play golf at all is estimated to be 26 million. Clearly, there is a very large following of the game.

With almost \$1 billion in yearly revenues, the NFL is the world's richest professional sports league.

2012
JV
Football

When most people think of high school football, they think of homecoming games and painting up to support the team. Most of that is varsity. The JV team is often overshadowed by the varsity. Our junior varsity Jets played a good season having three wins, one loss, and one tied game.

The athletes on the team work together to get that way. "I am always

ready to block my opponent. I am counting on my teammates, and they are counting on me," says Paul Hill. Whether they're on JV or not, they're working hard to play, so the next time you think of high school football, think of every player and every team working together, playing the game we all love the most. Whether it's varsity or JV.

Maggie Bernabei

"Cross country is a great sport. It's very trying; we compete in all temperatures and elements. We've had a really good team, both boys and girls, and I believe we'll be going to state again this year."

Tyler Bennett

For The Record

A Cross Country race is typically a 5k, or 3.1 miles.

The fastest time a High School Cross Country race was ever completed in was 14:35.7 by Eric Reynolds in 1982.

The Ultimate Leader

"This year has been the most amazing and memorable season out of my four years playing high school soccer. Being named captain my senior year made me strive to be the best example and leader to my team."

Sara Hall #6

2012

This year, the girls soccer team has really grown. We may not have won every game, but we became stronger with each game we played. Sophomore Brianna Taylor said, "This year has been a great year!" Freshman Gina Dick said, "It was a great experience; I look forward to next year!" Each teammate tried her best to give it her all, and it definitely showed. Junior Kachine Chingwa,

who moved here this year, said, "I love my new home. This year has been my favorite thing to look forward to in high school." So Soccer is a rough and tough game with many bumps and bruises along the way, but it always makes you feel accomplished in the end. Playing soccer is a great life-changing experience, and it has helped us become who we are.

Band

Fun and Friendship

"Marching Band is really fun. I have made a lot of new friends. I love band!"

Dylan Palmer

The sounds of drums, trumpets, flutes, and many other instruments can be heard through the halls of CCHS Friday afternoons in the fall as the band marches through to get students pumped up for the football games. The Jet Marching Band practices for hours after school and attends band camps in the summer to prepare for their half time performances at the football games.

Senior and Drum major, Jasmin Burgess, reflected on her last year of band, "Our Pirates of the Carribean show was tons of fun! We put a lot of hard work into it, and the trophies we won made it all worth it. I love my band!"

Freshman Cheer

2012

The freshman cheerleaders were great motivators for the freshman football and basketball teams. They have worked very hard this year. They do not have an off season, therefore they practice all year. Having boys on the squad this year has greatly helped the cheerleaders with their stunts. The cheerleaders love and are dedicated to cheering. Felicia Mantooth said she loves cheering, and the squad is like her family.

Over the summer, the freshman cheerleaders attended cheer camp at TTU with the varsity squad for the first time as high school cheerleaders. Talin Miller reflected, "My first high school year of cheering has been great; I could not ask for a better year."

Cheer camp also brought the teams together. One of the captains, Emily Swafford said "Our theme this year is, 'We Are One!' In other words, we are two squads, but one team!" Not only did the cheerleading team work hard,

We
are one!
Two squads,

they also worked together as one. Working as one team benefited the squad and also the student body. This group of cheerleaders is closely knit and Haley Mitchell says, "Our team is more like a family."

Dance Team

2012

Sports

The Cumberland County High School Dance Team is only in its second year at CCHS, but one could not tell from their spectacular pep rally and half-time performances. Dancing is an intense and invigorating sport. It takes strength, endurance, ability, and a love for dance to succeed. Kerri Netherton said, "It takes a lot of work to get everyone together. Its a lot harder than it seems."

Each week these talented and dedicated individuals attended practice to get their routines just right.

It was not all work and no play, though. Sophomore Chelsey Long said, "Dance team is so much fun. I've grown so close to my teammates over the year.

They are like my family."

Many friendships have been made on the dance team, and Tana McDonald cheerfully

said of her participation on the team, "This is my second year on dance team. It has been a great learning experience, and I have met some amazing people. I hope to see us grow in the years to come."

Varsity Cheer

2012

We are One! Eighteen young ladies made up the Cumberland County High School varsity cheer squad. When they took the floor, they changed from eighteen individuals to one squad. One team, one family. This young team faced a tragedy last spring. They lost one of their teammates, Katrina Ewing. This squad pulled together, and dedicated their season in memory of Katrina. "I love football season. The fans get involved, and Katrina loved it, too. All the cheerleaders do it for you girl!" Tiffany Hassler said about her close friend Katrina. With a heart and a K on their camp shirts they went to cheer camp with one goal. They were going to win the spirit banana, and they were going to rock cheer camp. Cheer camp was awesome and the team bonded even closer. While at cheer camp the team became close to the Clarkrange cheer team. Later,

Boys' Basketball

Sports

The Jets basketball team has come an extremely long way this season. Every year, the basketball team goes through strenuous practices all summer long and intense training after school. These practices lead up to games, and these games determine if the season is winning or losing. Although winning is typically how people measure success, Coach Foster stresses how the sport is much, much more than that. Coach states, "Basketball is a lot more than just a

simple game. Through this 2011-2012 season, I have strived to teach these young men how to live life to their fullest, and be productive as possible in everything they do in life. I want them to be young men of high regard and great moral character." The six seniors led the team with great leadership and determination. Also, the remaining players came onto the team bringing intense enthusiasm and strong hope for the future of CCHS basketball.

Basketball

The junior varsity coaches had a difficult task at the beginning of the year. They had to find basketball players that were the most dedicated and motivated players.

It can be an intimidating experience having a new coach and playing in a new environment. Kassidy Sommer said, "High school basketball is a lot more challenging than elementary. I've been playing basketball ever since I could hold a ball, and I found that the chal-

lenge of elementary basketball, and that of high school differ greatly."

There were a lot of returning players that were sophomores and juniors who were there to encourage the incoming players so they aren't too intimidated.

The JV girl's team's record was 9-2 for the season, and the JV boys' record finished with a tough 2-11. The future can only be positive for the Jets and Lady Jets!

Girls' Basketball

Sports

The 2011-2012 basketball season has been a season of change for the Lady Jets; change that brought us closer together than ever before. A complete change in the coaching staff brought along a new style of play. Coach Radhika Miller and Dr. Leslie Elderidge ditched the slow passing game of the past and brought in an up-tempo, running game. The team adapted very well to the changes and rose to the challenges before them with the leadership of their six

seniors. Over the summer, the Lady Jets set their sights high by playing in several tournaments at Roane and Vol State as well as Florida. They came into the school year with a 13-5 record. The Lady Jets almost seemed like a whole new team.

This year, great expectations were placed upon this team and we "soared to new heights", not only as a basketball team, but as a family as well.

2012

Running track challenges your body, both physically and mentally. It improves endurance, stamina, and confidence. CCHS's track team worked hard to become the best they could be. They practiced, no matter what. Snow, rain, and even extreme high temperatures were just a part of the experience.

In the past few years, the track team has had some state qualifiers and has a bright future ahead. Ryan Bedgood, a junior track star, said "Completing a great race and setting a personal record, maybe even

school record, is an amazing accomplishment.

Your body feels no pain when you think of the achievement you have acquired."

Seniors Jaclyn Reagan, Olivia McCoy, and Kayla Daniell currently hold records in the 4x800 race, and Jennifer Hedgecoth destroyed CCHS's 400m record.

Breaking a school record or your own personal record is an accomplishment that is unforgettable. The CCHS track team showed a lot of talent from the freshmen to the seniors.

The sport of baseball is sometimes called America's past time. With over 11.5 million children playing baseball, it is easy to see how it has earned its title.

Freshmen look forward to playing in high school in an organized league related to their school. "I've been playing since I was a little kid. I've grown up with this sport.

Being able to play for CCHS only makes me want to play even better when I step out onto the field," said freshman Ryan Burgess.

Returning players understood the need for commitment and teamwork. "Everyone has to do his job, or victory isn't an option," said junior Tayler Houston. Having played baseball for two years at CCHS, he was excited to play his favorite sport again. "Shortstop is my favorite position, because it puts me in charge of the infield. Softball

Two thousand twelve: this year brought new uniforms, new coaches, and a new beginning. Although the team has had it rough for the past few years, we were ready to put our troubles behind us and play our beloved game of softball. In the fall, we started conditioning. The miles we ran, the endless amount of sixty-foot sprints we did, and the weights we trained with, all pushed us to our limits. However, when it was time to pick up the bat and gloves, we knew we were ready to play.

We spent an infinite number

of hours on the softball field for practice; taking grounders, running the bases, and crushing the ball at the plate. With our coaches leading us, we became closer than teammates, we became like sisters. Every day, we went to the red clay field we called our home with our heads held high ready to take on any team that walked into the opposite dugout. This year, our motto was, "Be the Dream," and that is exactly what we did.

School's out for summer! It is the best time of the year. Students always look forward to cookouts, campfires, laying out, getting sunburned, fishing, four-wheeler riding, sleeping in, and NO HOMEWORK. What more could a person ask for? It's definitely the time of year that you don't have to worry about anything that is going on. Many people go to the beach and enjoy the waves. Some go visit family members in other states, while others go to unique places to discover the world. For example, Stephanie Blalock went to Guatemala on a mission trip to help the children and their families. Mia Mijatovic went to Mexico to swim with the dolphins and simply enjoy a vacation with her family. It's not every day that someone gets to go out of the country just to swim with dolphins! First Week of School

It's that time of year again--going back to school. For some, it's the last year they will see this high school. For others, it's the first time for the next four years.

No matter your grade, this place holds a special feeling. There's always that moment when you walk in and know you're where you're supposed to be. Making new friends, losing friends, and gossiping with old friends from childhood are a regular occurrence as students find their way to their classes, switch into the ones they need, drop the ones they hate, and finally get settled

in. However, the hardest part for a student is getting in bed before midnight and waking up with the sunrise; it's every teenager's nightmare.

Teachers also have a hard time getting their papers in order, lesson plans made, and remembering the students' names. It can become hectic for everyone, even the students who are normally on top.

No matter what one's worrying about, great memories will be made here.

The Cumberland County fair is the highlight of the year for many CCHS students; there is an abundance of things to do.

If you go for the thrill of the rides, then you would enjoy rides like Alpine Bobs, The Orbitor, and The Ring of Fire. If you are willing to lose your Frito Bandito, The Zipper is the perfect ride for you. "One of my goals this year at the fair was to throw up on a ride for the first time. Sadly, I didn't accomplish it," says senior Kayla Gill.

Some people do not even go for the rides. Many just go to enjoy events like the Fairest of the Fair, the animal shows, and Fair Idol. These events allow for some family time.

The fair offers many opportunities for every aspiring artist. You can submit photographs, paintings, drawings, blankets, tapestries, and wood carvings. This gives a chance to expose all the hard work of native Crossvillians. Even if you do not win a prize, everyone is considered a winner.

One of the many favorites of the fair is the delicious food. You can munch on some pizza while sipping on a cold beverage. To satisfy your sweet tooth, you could try the scrumptious deep fried Oreos.

The Cumberland County Fair is the perfect place for a great time.

Football Homecoming 2011

That special week comes every year.

Homecoming! one day people are seen dressed like rednecks, and the next college colors were painted on the faces of everyone. Advisory rooms competed against each other by seeing which could decorate it's door the best. On Friday, everybody was at the pep rally where the classes competed against each other in silly games. We all tried to see who could cheer the loudest, and we all made great memories with our friends.

Homecoming is always an unforgettable week. Jet fans of all ages had a chance to cheer for their favorite team. Football homecoming week was a time where everyone came together to stand behind their fellow classmates who put it all on the football field. This year, homecoming was filled with cheering, yelling, silly string, balloons, support, and true Jet Pride. No matter what the scoreboard read at the end of the game, homecoming week was truly amazing and will never be forgotten. Fifty years of Jet Pride have come and gone, paving the way for fifty more spectacular, spirit-filled, unforgettable years to come.

Friends and Family

Friends and family members are the most important people in your life. Without them, you wouldn't make it through all the hard times that you face in high school, and there would be no fun times throughout your childhood. Some family members argue on a daily basis, but it only makes their bond stronger. You will learn that friends come and go, but your true friends will stay forever. When you depend on your friends and family to help you, the hard times are never as hard as they seemed before. They are the people that will always be there no matter what and will never give up on you.

Cars and Jobs

Teenagers have many wants and needs, but as they get older, a time comes when they start caring for these wants and needs on their own. To do this, one might consider getting a job.

Getting a job teaches responsibility and also teaches students how to manage their time. Having a job is a great experience that prepares teens for their future and gives them an outlook on the real world.

In order to have a job, students must have a way of transportation. Parents will not always want to pay the expensive gas prices for their children. Sometimes, it's all up to the teens.

Students love to show off their rides just as much as they love driving them. Getting cool paint jobs, new rims, and decals are some of the many things teens do to make their cars different and unique.

Some students do not even need something with an engine to get where they need to go. Students like Jody Crawford and Jake Kelly simply stick to riding their bikes around. "I enjoy riding in the sun with the wind and all the fresh air in my face," says Jake Kelly. Plus, it is a cheap ride, and it's better for the environment.

Pets are many students' pride and joy. They keep all of us sane, happy, and give us someone to talk to if we need it. In fact, it's scientifically proven that watching a fish swim around can help calm you down and lower your blood pressure.

Even though it can be kind of creepy, you can have conversations with your parakeet! If you're feeling lonely, you can go cuddle with your baby goat or

your puppy.

If you're the strong-stomached type, you can feed mice to your pet snake or risk your fingertips while feeding your snapping turtle.

No matter what your pet of choice is, or the number of pets you have, even if they're prickly and nonhuggable, they'll always be there for you through good and bad times. Never forget to cherish it.

Religions

The actual book definition of the word "religion" would be along the lines of "A specific fundamental set of beliefs and practices generally agreed upon by a number of persons or sects." For many people it goes much further than a simple definition. Someone's religion is like a clear set of beliefs about a life that surpasses and stretches much further than our current human experiences. Religion is a universal language with which people express their faiths and beliefs; it is a way of life. For most, religion helps and shows guidelines to follow to help be a better person. In the end, choosing one's own practice depends almost fully on what makes one happy. It is all about what feels right to you.

School Events

Every August, we find ourselves stressing out over coming back to school and starting a new chapter of our lives. Once we returned to school, it seemed like we were immediately bombed with quizzes, tests, and homework. That's not always the case here at CCHS. Not only did we take our academics very seriously, but we knew how to have fun while doing it.

Over the course of the year, we were entertained by numerous school happenings such as Blue Bash, Teacher/Student Olympics, the Sweetheart Pageant, Springfest, and Dave Kirk drawings. Hardly a week goes by without having something happening in these hallways, There were also times when we set aside the fun and took things seriously.

Blue Bash is an exciting event that took place during the summer to introduce freshmen to their new school. The principals and teachers were on hand to show them around and bolster their confidence. By the end of the day, the newest additions to the Jet family were ready to take on the challenges of high school.

The Dave Kirk car drawing has become a major event. This encouraged attendance and, in turn, helped grades improve. There were always special events happening, and students took advantage of them and made memories to last a lifetime.

Basketball Homecoming 2012

Basketball Homecoming week can be summed up in two words: Jet Pride. Throughout the week, students saw people showing off their camo hats and super tacky outfits. On Friday, everyone was decked out in our famous blue and gold colors. The pep rally performed its job adequately by peppering the students up for a great game night.

At six o'clock Friday night, Cheyenne Freeman kicked the girl's basketball game off by singing the National Anthem. The Lady Jets came out, and they were ready to play with the crowd fired up. The game was intense, and the Lady Jets pulled through with an amazing win. Between games, the crowd was introduced to Mr. Mark Bray, the winningest coach to ever grace CCHS with his skills. With his family by his side, Mr. Bray was given a plaque that displayed the words "Jets Head Coach." During his career, the Jets had an impressive 370 wins. Shortly after, the boys game started. The crowd was cheering, and the boys played long and hard. Homecoming Week was filled with participation, two very well-played games, but most importantly, true Jet Pride.

Algebra Basics

Math has been a very important part of our society since before we can remember. Here, Mrs. Euphemia Hieronymus is explaining a problem to her algebra class. This photo was taken from the 1962-1963 edition of the *Plateau*.

Geometry

"Knowing how to think your way through a problem is a life skill. All I have to do is help my really great students gather a few tools to help them find the solutions and be successful. Success is very motivating, and math begins to be fun. What did the acorn say when it grew up? 'Gee-I'm-A-Tree! So, you see, geometry is the answer to many of life's questions. I love having fun and teaching math!'"
-Ms. Burnett

The Pink Calculator

"Math is a very challenging subject, but I like it because it makes me think. Ms. Herring is a big help, and I learned a lot in her class. The whole pink calculator thing was pretty funny. I forgot my calculator and Abi Claflin just so happened to let me borrow hers. I got some pretty funny looks."
-David Stallworth

Mathematics

Whether you're working with heteroskedasticities or fibonacci sequences or just doing simple addition and subtraction, math is the basis for most of life's responsibilities and events. Whether it's shopping, building a house, or even driving, we use math. Learning mathematics gives us the tools we need to understand how the world and the universe works.

"Math is an intriguing and challenging subject, but it's worth the effort," says Mrs. Emmy McCoy. She's right.

Teachers such as Mrs. McCoy could make a big difference. Laken DeHart states, "Mrs. McCoy makes learning math so much fun, it helps me retain more and actually enjoy the class."

Thomas Crillo says, "Math classes are beneficial to me because they will help me prepare for

my future career."

Then, there were the students who enjoyed math and did it for fun. Landon Crawford said, "I like math because there is only one solution to the problem; it's black and white."

"Math gives me the ability to express myself with the power of numbers along with furthering my education," declares Ivy Luttrell. "It's a win-win situation!"

There were also those who didn't exactly enjoy math. "Math makes my head hurt, so much," says Eli Looper. However, our math teachers here at CCHS could conquer anything, even an unwilling student. It was these teachers that inspired greatness at our school.

Dual and AP

Hey Mom!

"I guess you could say that the first day that life really and truly mattered was the day TP adopted me. I know what you might be thinking: who wants their mom always hanging around them at school? The answer is: anyone whose mom is as awesome and completely sagacious as TP! Also, I would like to announce that no, black-holes are not inheritable traits. TP is an amazing teacher that I have learned so much from. She has truly been a blessing."
- Kaitlyn Mathis

Poor Baby

"Once, in EMS, I tried to give CPR to a baby, and its head kept popping off! Saving a life is not easy!"
-Becky Scarbrough

Dual and AP classes were a great way to help students prepare for their future. They enabled participants to take college courses while still a high school student. Many students will say from experience that Dual and AP classes can be very difficult, but they are also a lot of fun and worth it. Taking these classes in high school benefit students far more than the average course. The teacher-to-student ratio was better than most colleges. Also, the price is cheaper. A class that would cost four hundred dollars in college will cost only one hundred dollars in high school; and it counts for the same credit. One of the many good aspects of AP and Dual was the friendships that were built. Students became a family over the course of the class as they pushed each other to be the best they could be. They will never forget all the hard work and studying done together.

A Fight For First

"Okay? Nay. It is very rewarding when my combination of crying and face rolling on the keyboard results in my getting the bazillionth consecutive best paper, but that's not why I wear the necklace. I wear the necklace I wear as a reminder for my fellow Dual English students. And what is it that I am reminding them, you may ask? I am reminding them that I am the best! I need no reminder. And no, I'm not joking."
-Shannon Babinesak

"One of the things we all 'love about AP/ Dual English' is writing the papers. You pour your heart and soul into your paper, and you're thinking the whole time, 'Okay, I may be able to beat Shannon, 'The Golden Child'. Well, when you finally get your paper back, TP has DESTROYED it with the bloody red ink and put bite marks and drool on it. Then, you see Shannon still win the number one, and you die a little on the inside. Then, you do it all over again. Yay Dual!"
- Stuart Gilbert

The Life of an AP/Dual Student

"Is this high school or college? Is it just me, or do the teachers all plan on having a test on the exact same day? When you study for five tests a night, you don't really have time for a social life. To the teachers, thanks! Just thanks!"

"Do it. Take a risk. take a chance. It may not turn out well. Be able to die today and not care tomorrow because you found out what was on the other side. Dual Calculus was a risk for me. I was so scared but I am so glad I did!"
-Cheyenne Mayo

"Mrs. Buck is an amazing Calculus teacher. She has helped me so much in pushing me to be the best I can be! I couldn't ask for a better teacher! I could not have done these hard classes without her. She is wonderful, and I love her!"
- Sami Palk

Incredible teachers at CHS

"Ms. Herring is the most caring teacher. Through thick and thin, in and out of school, she has been here for all of her students. Coming in as freshmen, we all walked into her class, dead silent. We found her intimidating, but we simply misunderstood. There is something about her, something that you can't help but love. Having Ms. Herring for every semester of high school has been a great privilege. She brought a love of math out of us that we were not aware existed. Although she is very focused on her work, she still finds a way to make her classes fun. We have had experiences with Ms. Herring most high school students would have never had with their teachers. One of which is the time Ms. Herring played Guitar Hero with us and sang. The video is still floating around. The senior class especially would like to thank her for being the amazing person that she is and always doing what is best for us. We love you, Ms. Herring! Keep working on that 'woo' of yours!"

Reading

"I know the true meaning of torture now that I have read Atlas Shrugged! I do have to say, though, it's one of my favorite classes!"
 -Duc Tran

EMJ

"Mrs. Gilpin gives us a fun, easy way of learning. She is an amazing teacher, and I have learned so much from her!"
 -Johnathan Koch

Lab Fun

"The Lab is such a fun way to learn. I learn so much more by doing than just sitting taking notes. The lab is the perfect way to do that."
 -Daniel Koehl

Singing and Dancing

"I love having French because of all the dances we do in the class. Every song we sing has movements to it so we can remember the song, and it helps us learn all kinds of things to say. Also, I love watching videos from the musicals and the operas that have to do with our theme for the day. My favorite song is "C'est le Bien Qui Fait Mal" from the Mozart Rock Opera. The song's title is translated to be "The Good Thing That Hurts." Mrs. Robbins is a great teacher, and I am so glad I got the chance to be in her class! It has been a truly amazing experience learning French."

-Emily Kerley

Falling In Love With a Language

"French is the language of love. I know every girl feels like I do when we hear that amazing French accent: our hearts start to beat a little faster! I know that by taking Mrs. Robbins class, I will eventually be able to talk fluently in French! I want to someday go to Paris, the city of love, and meet an amazing guy that has the wonderful French accent and fall madly in love. It would be a magical dream come true, all thanks to Mrs. Robbins and her amazing French class. I wanted to experience a whole new culture I had no knowledge of, and that is exactly what I get when I walk into French class everyday."

-Madison Hicks

Foreign Language

"Spanish has taught me so much. I can say everyday phrases in Spanish. I really feel like Mr. Alva has made me ready for Mexico!"

-Cody Kutchey

Get those Chairs

"My favorite part about Spanish class is getting to play musical chairs. Mrs. Hall lets us rock out to Spanish music. It is so funny to watch everyone fight for the chairs. You never know what to expect! People will jump across the room and tackle you for a chair."

-Shayla Christopher

Learning My Culture

"Spanish class challenges me to better understand where I come from and my culture. I know Spanish will help me in so many ways in my future. It will help me communicate with others!"

-Santos Rivera

Language Of Love

"French is my favorite language for many reasons. The most obvious reason is French is the language of love. I know I will probably never be able to use it, but its always a good thing to know!"
- Rebecca Stapleton

Ring-A-Long

"My favorite experience in French class has been singing to the song 'Alouette' This song is about learning a bird's body parts in French. The song is a ton of fun and helps us learn a lot!"
-Amanda Hackett

Foreign Languages

Bonjour! Hola! Foreign language classes at our school were very essential. The Melting Pot, as America is called, has a lot of different cultures and many different languages.

Learning a new language can be difficult, but it was very rewarding. It is important to be able to communicate with other people from all parts of the world.

Along with learning to communicate, students also got college credit. Just like teaching a baby how to talk, it takes a long time and patience to teach every student how to speak a new language. Our teachers came up with amazing ways of teaching their students such as dances, stories, songs, and parties.

If asked, any French student would love to tell about how Mrs. Robbins had no room for shy people in her class. By the end of the semester, every student was up, singing and dancing in front of everyone; along with their pet snail. Spanish class also had its moments where students were in front of class reading journal entries about their weekend. If questioned about their favorite thing about Spanish, one thing might be about the parties with the amazing Spanish food.

Mrs. Grenz's room always smelled amazing, and the food was rumored to be the best. The French class goes around every year and passes out candy and coffee. Teachers spent long hours of their own personal time planning to make certain that every student could understand the new language in their own way of learning. Teachers were willing to do whatever it took to make the student learn, and from what everyone could tell, they did a wonderful job of it.

By Stephanie Blalock

Foreign Food

"The food in Mrs. Grenz's class is always amazing! Eating is by far my favorite way to learn. Getting food from other countries to learn more about their culture is one of Mrs. Grenz's teaching experiences that I have enjoyed the most. When I have a full belly, I learn so much more! This particular food was noodles. It tasted kinda like chicken noodle soup with an extra twang to it. This was one of my favorite days in Spanish."
-Meghan Server

New Languages

"My favorite thing to say is 'Te amo!' which means 'I love you!'"
- Ashley Davis

"Spanish will help to communicate with different cultures."
-Amanda Buckner

Can I Hear Your Number?

"My favorite pick up line in Spanish is, 'Perdi mi numero. Puedo tener el tuyo?' Which means, 'Can I have your number? I lost mine.'"
-Ally Scruggs

People Around Me

"There are more people in Crossville that speak Spanish than French. I think I need to be able to communicate with the people around me!"
-Mikayla Lankford

Spanish

Back in the day each student had his/her own cubicle and a set of headphones as they listen to the Spanish lesson instead of a teacher verbally teaching them. This photo was taken from the 1962-1963 edition of the *Plaqueau*.

Science

Yummy in my Tummy
"Making s'mores was definitely the best lab we've had all semester. It tasted pretty good, too."
-Spencer Scarbrough

Science combines with technology to give us devices such as our precious cell phones, computers, DVD players, and iPods. These treasured items help us to escape into our own virtual world. We have become dependent on these tools, and without technology, teenagers would feel they couldn't survive.

In science classes, one may learn about the many chemicals in a lab and how to produce different results by using them. Coming down the hallway, students could always tell when a science class was doing a lab, whether it was the smell of vinegar, smores, or even a dead animal. Labs helped us by holding our attention better than a set of notes, or an everyday lecture, and they gave hands-on experiences and that helped some students to learn in a different way.

Even though students are required to take biology and chemistry in high school, the teachers always found a way to make it fun and help students remember the material. According to Kelsey Scarbrough, "Chemistry II is pretty fun. We get to play with fire and make chemical changes. My favorite experiment has to be when we set a penny on fire; the penny just melted. Chemistry is certainly not banal." Although there was the opportunity to make things in the lab, some students agreed that the majority of science classes were not all fun and games. There was a lot of hard work and dedication required for each one of these classes.

Stretch it Out

"Stretching in physical education helps me get ready for the day and loosens up my muscles."
-Brandon Brewer

Physical Education

Physical Education has a very important role in every student's high school career. America is now the leading country for obese, or overweight, children. Being involved in physical education gave every student a boost to get in shape, and maybe even get involved in sports. Some people thought physical education was all fun and games but they were wrong. From basketball to volleyball, tennis, and even bowling, things got pretty serious. Students were expected run a timed mile, while others worked out in the weight room. All of these things allowed everyone

to get involved, be motivated, and also stay more focused on school work. "The thing I like most about P.E. is how everyone plays together like a team and how well we get to know each other. I also like having it first thing in the morning, because it gets my brain ready for the school day I have ahead of me." says Kendra Aytes. Physical Education is required for each student to take at least one class to graduate. However, during their four years of high school most students will have take many more P.E. classes.

L.R.E.

L.R.E., or Least Restrictive Environment, was a way for every student to feel comfortable at CCHS. Mr. Kington was one of the many wonderful teachers in this department who helped these students, and he did a swell job.

The L.R.E. social skills classroom provided life skills instruction for students with Individual Education Programs. These students participated in general, and CTE classes. Special education instruction was accomplished with a small group and one-on-one instruction in a self-contained classroom. Peer tutors from General Education helped with the instruction. Transition activities helped students plan and prepare for programming after graduation. The students also received community-based instruction in which they participated in community outings such as community resources, shop-

ping, eating out, community mobility training, and recreation/leisure activities.

Thanks to the help of CCHS's outstanding faculty, these students were able to work to the best of their abilities. L.R.E. also

gave them a chance to work with others and acquire the opportunity to enjoy the same activities as everyone else. Mr. Kington declared, "I really enjoy working with these students. I help them learn

about home life, school work, and outside activities. Seeing their smiling faces everyday makes me feel like I am doing my job right by making them happy."

Jet Theatrix

The world around us is constantly influenced by the performing arts. Whether it's the latest movies hitting theaters or new shows on Broadway, acting, and even watching people perform, is a very big part of people's lives.

Aside from being a club at CCHS, Jet Theatrix does a lot. Three productions this school year equals hours upon hours of rehearsing and getting every little aspect correct. Then, there's the makeup, costumes, late-night rehearsals, and the performances themselves. Each of the Jet Theatrix members worked very hard to make sure each performance was the best that it can possibly be.

Spending so much time preparing for per-

formances taught these students a great deal of responsibility and built character. Along with countless hours of rehearsal, they had their normal academic classes added on top of that. Maintaining good grades as well as being a good performer showed a great deal of time management and dedication.

"Theatre has shown me that I have to be very responsible with my time and resources. Keeping my grades up along with knowing my lines is a lot of work!" said Madison Hicks.

Who knows, maybe one of these amateurs you saw on that stage will become the next Hollywood celebrity or Broadway star.

-Courtney Erroh

F-Wing was probably the most interesting part of CCHS. There was a wide diversity of people along with classes. The classes ranged from yearbook to mechanics, and all the way to animals and plants. When students stepped through the doors to this part of the school, everything changed to a family atmosphere. Instead of sitting at a desk, students were either going outside, doing a "hands-on" project, or even doing a service project around the school or the community. Usually,

once students finished taking a class, they came back for the fun classes or to take care of the animals. "Senior year on F-Wing will be missed. "I have really enjoyed hatching the baby chick and taking care of the chickens." commented Hannah Deck. F-Wing has had a major impact on any student's high school career who has taken any of the classes. The teachers are great and make everyday a new adventure. Students always looked forward to coming to school everyday; just for an hour on this wing.

V-Wing

The life on V-Wing gets students ready for the real world. By being on V-Wing, they get the opportunity to join the clubs such as, FCCLA, HOSA, FBLA, and DECA. With these clubs, members can attend leadership conferences and compete with other schools to test their skills and see what they've really learned.

Important life skills were taught and practiced during these classes. These skills will help those students on whatever path of life they may choose. The classes also allowed students to express themselves through their own creativity, and learn skills that are going to be useful in their future.

Mrs. Kington was the Culinary Arts teacher. This class helped students learn how to use a variety of different ingredients in order to cook. Mrs. York taught Personal Finance, a substitute for economics, which is a class needed to graduate. Mrs. Shoemaker was the teacher of Early Childhood Development and Family and Consumer Science. These classes prepared students to get ready for important things that are going to happen in the future.

Being on V-Wing was like being in a totally different school outside of the main building. Students learned things from structure and functions of the human body, to finances and cooking skills.

In the fifty years Cumberland County High School has been open, Career and Technical classrooms have always been the place to learn about home, life skills, and preparing students who are planning to go into the medical field. Social Studies

Social studies classes were some of the most intriguing classes students took in high school. They learned about foreign and forgotten cultures like the French or the Mayans. Some students even learned something new about their own culture. In covering such a broad spectrum of time, some events could be funny, such as Israeli member of Parliament, Anastassia Michaeli, who threw a glass of water over her counterpart Raleb Majadele during a heated debate in parliament chambers.

We can't forget the past. It helps to define just who we are, both as a people and as a nation. "History is the preservation of

what has already happened, what was lost, and what was gained in the struggle. It also shows us what was worth it in the end, and what wasn't, so we can learn from our mistakes," says Fiona Retzer.

CCHS students were not afraid to make their own history, as well. They plan to star in a Hollywood movie; become president; discover a cure for cancer, AIDS, or the common cold. They plan to travel the world, and discover themselves. Social Studies has shown them where they came from, and what waits for those who study the world.

Art and Music

The visual art classes offered students a break from all of those mandatory classes they were required to take. Students enjoyed sitting down, grabbing a crayon, and letting their imaginations run wild.

Junior Marissa Webb says, "Visual Arts is really fun. There are a lot of hands-on activities that are creative and cool. The best thing about art classes is that there are no right or wrong answers."

The CCHS Concert Band, under the direction of Aaron Hennen, had a productive year of creating great music. They worked very hard during school as well as practiced on their own to prepare themselves for the spring concert. Many students signed up for this class because of their love of music and their drive to advance their talent. Others participated just try something new.

English

English class is always working hard sometimes thought of on exciting assignments as boring or unimportant to some, but here at CCHS we are privileged to have great English classes and teachers. The students are almost always excited and willing to get involved and learn something new. "I really liked reading *The Crucible* in class. It was neat comparing something that happened so long ago to something that happened just sixty years ago." said Rachel Nealon. The English classes are

always working hard on exciting assignments and activities. Along with grammar and writing, reading Shakespeare plays an important role in our English classes as well. English 9 reads *Romeo and Juliet*, English 10 reads *Julius Caesar*, English 11 reads *Macbeth*, and English 12 reads *Hamlet*. With all of the exciting things that English classes do, there is never a dull moment.

Haley Brooke Whittenburg

Haley, we are so proud of you! Our beautiful baby has grown into a beautiful young lady! You have made our lives amazingly wonderful!! You have been the best daughter a mom and dad could ever ask for. We couldn't be more proud of the smart choices you have made! Always remember to pray, keep laughing, and love!

We love you with all our hearts!

Love, Momma & Daddy

Maggie Leigh Bernabei

We are all so proud of our beautiful, intelligent, and talented girl. Your vivacious spirit and candidness make you so much fun to be around. Know that we will always love you and pray for you no matter where you are or what you are doing. Keep singing for and trusting in the Lord to guide your path.

Psalm 56:3 What time I am afraid,
I will trust in thee.

Heather Ewing

God grant me the serenity to accept the things I cannot change. Courage to change the things I can and wisdom to know the difference. Heather we love and are proud of you.

Love,
Mom and Dad

Olivia McCoy

Olivia, you have been a constant source of joy from the time you were born. Your smile and laughter are contagious and your kindness and compassion for others is an everyday reminder of the wonderful person you are. I am so very proud of you and thankful you are my daughter.

*Love,
Mom*

Jaime Beth

It's hard to imagine that you're all grown up and ready to take on the world. We are so proud of the young lady you have become. You're beautiful inside and out and your determination to succeed will take you to the moon and back!

We gave you to God when you were young and we trust that you will seek His will in whatever you decide to do with your life. He will never lead you wrong!

Just Remember:

When you lose, don't lose the lesson that came with it, When you win-Thank God-then start preparing for the next time....

We love you-Dad, Mom & Court

Carrie & Cassie Marsh

*Cassie & Carrie, We love you both
so much and we are very proud of you!*

*Love,
Mom, Dad, and Candy*

When God graciously placed you in our lives, we knew that you were only ours to hold for a moment. It was clear from an early age that God had amazing plans for your life. Those plans that He has for you will soon unfold. Through the years we have prayed that God would protect you and keep you close to His heart. We have prayed that God would bless you with... "knowledge and skill in all learning and wisdom", Daniel 1:17. Most of all we have prayed that you would "hunger and thirst for righteousness", Matthew 5:6, so that you would be filled with God's glory for the rest of your life! God has been faithful. We are amazed at your inner beauty and strength. You have been a faithful witness for Christ. We are so proud of your character which has been etched by God and marked with the fruit of His

spirit. You exemplify love, joy, peace, faithfulness, forbearance, kindness, goodness, gentleness and self-control. We are eternally grateful to know you're walking in the truth! As you prepare for the mission field we pray that God will continue to direct your every step. We pray your faith in God will give you the courage and strength to fulfill your calling. There are no words to express the overwhelming love we have for you. You are an amazing young woman and God has great plans for you! Jeremiah 29:11, "For I know the plans I have for you," declares the LORD, "plans to prosper you and not to harm you, plans to give you hope and future".

With all your love,
Mom and Dad

I Can't Believe Our Big Baby Is Graduating!!! You Are So Pretty Magen. Papa Would Be Soooo Proud Of You! Not Only What You Have Accomplished But The Young Lady You Have Become. We Are All Proud Of You! We Love You Honey!

Love,

Mom, Dad, Sammy, Alysha, Grandma, Papa, Aunt Marti, & Uncle Lance.

Dylan Blaylock

I'm thinking of your yesterdays and how fast the years have gone, from precious red-haired baby to our graduating son. I see your life inside my mind, and I hold it in my heart. Though you may move away from me, we will never be apart. As you walk toward your future and whatever it may hold, I'm thankful God is with you. He will guide you down your road. We couldn't be more proud of the man you've grown to be--a man of faith and kindness, laughter and integrity. I pray your life is filled with joy; may all your dreams come true. If you should ever stumble, I ask God to carry you. Treasure every moment as you travel on your way. We only have one life on earth, and you bless ours every day.

*We love you,
Mom, Dad, and Matt*

High Honors

First row: Kaitlyn Mathis, Jessy Alva, Erin Curry, Peyton Zeino, Abigayle Claflin, Kate Vanlandingham, Dimi Iles, Maggie Bernabei, Christina Graham, Taylor Leggett, Kayla Gill **Second row:** Tiffany Reppert, Manuela Haddad, Abigail Green, Cheyenne Freeman, Stuart Gilbert, Duc Tran, Candace Moore, Clint Martin, Roni Gillespie, Shannon Babincsak, Nick Cox **Third row:** Deanna Sola, Cheyenne Mayo, Danielle Brannon, Dylan Blaylock, Carl Kerley, Jaclyn Reagan, Taylor Vaden, Aaron Miller, Francis Marasigan, Carrie Marsh, Cassie Marsh **Fourth row:** Robbie Miles, Jonathan Trejo, Skylar Goodwin, Tori Noel, Garrett Blyly, Robert Minneci, Gregory Maxwell, Zach Eberhart, Nick Donathan

Valedictorian: *Abigayle Claflin*

Has it always been a goal of yours to achieve the highest honor of your class?

Although I wasn't too concerned with grades during my freshman year, I always try to be the best at whatever I do. When I realized that becoming valedictorian was possible, I worked hard to make it happen.

How does it feel to be valedictorian?

It's pretty cool. I love being able to put a "1" on all of the college applications I have to fill out. The only downside is I'll have to wear yellow at graduation.

How did you manage to juggle both theatre and academics so effectively?

School always comes first, but theatre is my passion. Some people play video games to take a break from the mundane task of homework; I memorize scripts. If you love something enough, you make time for it.

Honors

First row: Samantha Seay, Elani Aperans, Abby Spitler, Jaime Rector, Allysa Kerley, Olivia McCoy, Cassandra Reynolds, Allison Brock, Holly Adkins **Second row:** MaShayla Selby, Tiffany Housley, Tyler Howard, Erika Tanner, Breanna Lewis, Shalee Sapp, Haley Cravens, Sarah Hall, Kaila Treadway, Kirstie Jones, Jessica Burgess, Brittney Marr, Stacy Melton **Third row:** Daniel Sola, Caleb Luttrell, Amanda Loshbough, Traci Damron, Stephanie Tanksley, Jasmine Worthington, Emily Lowe, Stephanie Blalock, Herschel Murner, Jacob Valentin **Fourth row:** Steven Hill, Eli Looper, Bryce Nunley, Zakk Richardson, Matt Warren, Zac Kerley, Donovan O'Rourke, Joey Harris, Jared Burkett, Shaedon Tilley, Tad Smith, McKenze Childress

Salutatorian: Taylor Vaden

Has it always been a goal of yours to achieve one of the highest honors of your class?

Yes, I definitely wanted to be in the top ten. Becoming salutatorian was even better!

How does it feel to be salutatorian?

It feels great. I feel so accomplished to have made it here. All of my hard work has paid off.

How did you manage to juggle both athletics and academics so effectively?

It was pretty difficult at times. Sleep was sometimes nonexistent.

During the fifty year history of Cumberland County High School, many exceptional students have roamed these halls. CCHS graduates have gone on to be doctors, lawyers, professional athletes, community leaders, as well as notable local, state, and national personalities. Sprinkled through the ranks of all those graduates are a group of people who are seldom recognized, nor acknowledged, for their achievements but who have had a profound impact on all CCHS graduates. This special group of graduates chose to return to their alma-mater as teachers or staff members at CCHS.

Yearbook Staff

2011-2012

Fifty years ago, a small but thriving county opened the doors to a brand new high school in which three schools came together as one -our own CCHS. Since that first year, forty-nine issues of *The Plateau* have been published. Inside the front cover of the very first issue, the yearbook staff of 1962-1963 wrote some very inspiring words; you can find the same words on the Foreword page of this book. As this year's staff looked through that first yearbook of CCHS, we decided to incorporate some of its themes into the fiftieth yearbook. Inside this book, you will find history from the past, elements of the present, and hope for the future.

As we graduate high school and enter the "real world," we try our best not to lose our most precious memories. As this year's Editor-in-Chief, I genuinely hope that as you make your way through life, this book will help you to revive the greatest parts of the past, reminisce on the most wonderful moments, and relive the best of times.

50

years and counting...

Colophon

The 2012 volume 50 edition of the **Plateau** was published by the yearbook publication and digital design class of Cumberland County High School. The **Plateau** was printed by Taylor Publishings in Austin, Texas. The 216 page full-color book, including candid photos, was submitted digitally for a press run of 450. The book sold initially for \$80.00 and then rose to \$85.00 when the internet sales stopped. Ads were sold by the staff and ranged from \$80.00 to \$300.00 for senior ads and \$80.00 to \$400.00 for business ads. All pages were produced using Adobe Photoshop CS4 and InDesign CS4. The **Plateau** sales representatives were Josh Houston and Kristin Troutt, and account executive was Jessica Youngpeter. Senior, underclassmen, faculty, and most group photos were taken by Prestige/Lifetouch Studios at no charge.

We would like to thank Mrs. Graham, and the entire CCHS faculty and staff for the support they gave us. We say thank you to Laura Schaub, Ed Grief, Stephanie Woods, Maria Server, and Walt Riches for their expertise.

Book specifications are as follows:

Cover: Embossed/debossed with silk screen, mylar gold foil, and blue caracul grain. Designed using Adobe Illustrator. Fonts used were Ambassador Script and TypewriterT.

Endsheets: Designed and created by yearbook staff using Photoshop CS4. Inside Pages: 9x12 100#Enamel with Smyth-sewn binding. Fonts: Ambassador Script and TypewriterT.

Yearbook advisor: Art Sanderson. Editor-in-Chief: Erin Curry. Section Editors: Sarah Hall, Allysa Kerley, Jordan McCoy, Jaime Rector, Magen Skinner, Alyssa Smiddie, Matt Warren, Peyton Zeino.

Yearbook Staff: Ryan Bedgood, Stephanie Blalock, Haley Cravens, Chris Davenport, Heather Ewing, Kayla Gill, Christina Graham, Jennifer Hanham, Amanda Loshbough, Gregory Maxwell, Olivia McCoy, Ashley Miller, Sami Palk, Ariana Ramsey, Cassandra Reynolds, Andrew Seiber, Meghan Server, Shelby Smith, Abby Spitler, Leah Talbott, Laura Thibedeau, Marina Taylor, Courtney Wilson.

This year, we would like to introduce our CCHS readers to QR codes. These little codes are the coolest things since sliced bread. In our quest to make this 50th year even more special, we have linked these QR codes to videos stored at the links connected to the codes. You will see these codes below as well as on the Football and Basketball Homecoming pages. Just use your Smart phone to view videos from Homecoming, Prom and Graduation. You can also view the videos from the URL below. Not even Dick Tracy in 1962 could have imagined anything this cool.
