Career Day at LLE

On Tuesday, November 11th, our 4th grade students participated in Career Day at LLE. Students selected a career of interest and explained how math is used in that field. They worked hard to research and create posters showcasing their findings. Dressed for their future careers, students presented their projects to their classmates and visiting parents. We are very proud of their hard work and creativity.

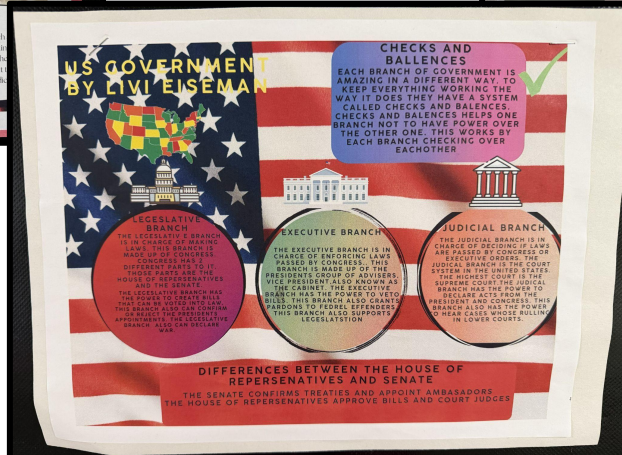

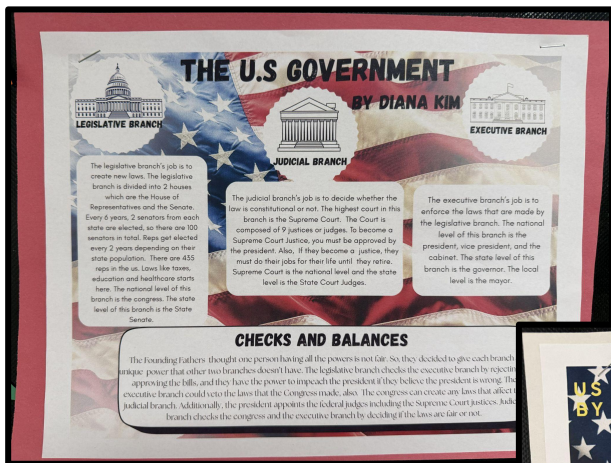

American Education Week

During the week of November 17th, we celebrated American Education Week. Students participated in a variety of activities, including a technology-free day, a teacher switch day, spirit day, a day of thanks, and a food drive for a nearby pantry. It was a wonderful week for students to connect with classmates, give back to others, and celebrate our school community. Thank you to everyone who participated and for the generous food donations.

Spotlight on 4th Grade

On November 11th, the fourth graders took part in our annual Career Day celebration. Students were asked, "What do you want to be when you grow up?" and then explained how and why math is important in their chosen profession. In the classroom, students have been mastering multiplication and participating in several real-world math activities. In ELA, we've been busy with our Poetry Café and personal narratives. Our colorful similes now decorate the walls alongside our paper-bag book reports. The fourth graders also wrapped up their unit on the three branches of government, learning about the legislative, judicial, and executive branches. We have now moved on to our science unit, exploring the structures and functions of the human body.

December 5, 2025

Dear CRS and LLE Families,

What an amazing Winter Concert we had today at LLE. The students' musical skills filled our hearts as they played their instruments and sang beautiful songs to the audience. This year was even more special as everyone in attendance sang together for one final song.

As the colder weather has certainly arrived please be sure that your children are dressed appropriately. We make sure to have the students go outside for recess as much as possible. Therefore, we need the students dressed to play outside and enjoy the fresh air as much as possible.
